Yaguina Bay.

The new Steamer "Yaguina" crossed in at 2 hours flood on Friday last, finding 13 feet of water on the bar. She steamed straight up to the Railroad wharves, and landed her freight, then went on to the Onetta Saw Mills, and then returned to Newport to leave the remainder of the 300 tons constituting her cargo. She only remained two days at Yaguina, a reasonably quick dispatch—it appears as if a little strange that if the ship could come in on Friday on two hours flood, or 14 feet, she should have not managed to get within 8 miles of the place on the Monday week previous, when there was at high tide 20 feet or a perfectly smooth bar.

Close Call.

John Smith and Bill Brown went hunting a few days ago and becoming tired and cold they essayed to build a fire. Bill had a bottle of powder in his side coat pocket and while stooping down to blow the fire the cork fell out and the powder followed, some of which fell into the fire, and ignited the whole. The first he knew the air was full of smoke, and fire, and noise and things, and he woke to realize that his face had been taken in most of the situation: ever since he looks as if the event had made a lasting impression upon him. It is fortunate however, that no permanent injury resulted, beyond a slightly damaged appearance.

Information Wanted.

A postal card was received at the post-office, Portland, a few days since, mailed at Cromwell, Iowa, Dec. 29th, and addressed to "Poste master, Portland, Oregon." It bore the following inscription:

Dec. 29, 1881.

Strait—A Lite Rone Cow with Red Neck and High Horns, one year giving information concerning her will be liberally rewarded. N. D. CHADWICK, Cromwell, Union county, Iowa.

Postmaster Street not having seen the animal, forwarded the card to the chief of police and he not having found the "High Horned" brute, caused it to be published for the benefit of the public.

Browned.

The Tillamook correspondent of the Yamhill Reporter writes to the effect that Mr. Clabe Lamb and Dr. A. C. Young were both drowned by the awing of their boat while crossing the Nehalem near its mouth during a heavy storm on the 7th. The Dr. had been visiting a patient and was returning by his home at the time of the accident. Dr. Young was recently a resident of Corvallis and taught the North district school for several months. He was a man of considerable ability but was somewhat addicted to drink. At the time of his death he was the only practicing physician on the Tillamook.

New Cases.

Mr. Robert Bigley arrived from Georgia last Friday, accompanied by the family of Mr. Malone who resides in Alaska valley. Mr. Malone came to Oregon 3 years ago seeking a location for his future home. Being pleased with the future prospects of Benton county he purchased a farm of Mr. Wood near Ruble's mill and sent for his family. We gladly welcome them and all others seeking homes among us, and they are coming every day.

Suit.

On Saturday, the 7th inst., a lad nine years old, a son of W. S. Lewis, of Junction City, was shot and killed by a shotgun; but just how it happened is not known, as the accident occurred in the house of Jos. Price, when there was no one in the house save the three children of Mr. Price. The charge lodged in the back of the neck, and death was instantaneous. The deceased was an only child.

Hand Bar.

Johny Thompson comes to the front again with another accident, by explosive missiles, which as near as we remember, is about the fourth for him. He had obtained somewhere a percussion cap such as is used in blasting. Last Tuesday at school, during session, he struck the cap several times with a slate pencil which finally exploded tearing off the end of his thumb and lacerating his hand considerably.

Accident.

We learn that a young lady, daughter of Henry Miller near Wells Station, was thrown from her horse as she was returning from church last Sunday, and severely injured her spine, but how seriously we did not learn. Dr. Lee was called to attend her.

Fine Work.

George Kennedy has a fine carriage recently constructed by Mr. Horning. It is of excellent finish, and will compare with work in the same line anywhere, either for quality or price. Eastern manufacturers are fast losing their grip on Oregon trade.

One man in Vancouver complains of mosquitoes pursuing him in January, and don't like to see such things so much out of season. The January number of the Childrens Museum a juvenile magazine published by F. B. Gouldard No. 6 Bond St. New York, is for our table. It is both interesting and instructive.

The Young Americans are making preparations for a grand ball to be given at the City Hall, on Feb. 22nd. We wish them success for the fire boys deserve it if any boys does. The series of meetings now in progress at the Evangelical church, this city, is increasing in interest and will be continued nightly next week. All invited to attend these gospel meetings.

Mr. J. W. Kern of East Portland, has received by express from Hon. Spencer E. Bail, United States fish commissioner at Washington, D. C., a can containing carp for propagation in Oregon waters. An eastern paper says, "Henry Villard is to expend \$1,000,000 in the creation of a residence on Madison avenue, near Fifth street, New York." He used to be a newspaper scribbler. See what we may become and respect us accordingly.

Messrs. R. G. Dunn & Co. report the following failures for the three months ending Dec. 31: In Oregon, 18 failures; liabilities, \$225,000; estimated assets, \$93,500; in Washington Territory 6 failures; liabilities \$41,000; estimated assets, \$18,500. Wm. Thornton, formerly resident here, is spending a few days with friends in town. He comes from Yakama, W. T., and says when he left there grass was fresh and green and stock fattening without other feed, which is good enough January for any country.

The government appropriation for improving the lower Willamette and Columbia rivers, will be exhausted in a few days and the dredge-boat withdrawn. Recent cold weather and lack of rain have caused the Willamette to recede to nearly low water stage.

Fire at Albany. The beautiful residence of Mr. John Briggs, on the corner of Fifth and Calapooi streets, Albany, was discovered to be on fire Tuesday morning about 10 o'clock. The roof caught from a burning chimney. Before water could be brought or the engines could reach the scene the entire roof was in a blaze. During this interval the neighbors worked with a will, and succeeded in removing all the furniture and carpets. On arrival of the engines the flames were promptly subdued and further damage arrested. Loss probably \$1000; fully insured.

New Law. A new ordinance regulating saloon licenses was put in force in Portland on the 10th inst. It requires bondsmen to testify to the good moral character of applicants, and forbids any person being surety for more than one dealer. The new law is quite popular as it has already compelled several low places of had repute to close their doors.

A Noble Comprehense. An exchange says, Four students at Wacousta, Wis., stole a farmer's gate. The college faculty condemned them to expulsion, or the alternative of whatever punishment the farmer might inflict. He sentenced them to chop four cords of his wood and deliver it to a poor widow. They did it to the music of a band and the plaintiffs of a crowd that watched the operation.

The Masquerade.

The masquerade given by the Hook and Ladder Company last Monday evening was a grand success socially speaking, but it was not as well patronized as the grand preparations beautifully decorated and the music was superb. In fact no pains or money were spared to make it the grandest event of the season. About fifty characters were represented, presenting a great variety of all shades from sublime to ludicrous, and so perfect were their make-up that with one or two exceptions none were recognized by their most intimate friends. Stylish cooks interviewed by Brother Jonathan, nobleman dancing with orphans, and the gorgeous darkey courting Good Luck, all seemed quite romantic; but when Simple Simon scottiched with the Sailor Girl and the Chinaman waltzed away with a Nun, the scene seemed early out of joint. The masks were removed about ten o'clock and many spectators joined the dance till early morning hours. The following are the names of parties, together with the characters represented.

A Cold Murderer.

Seattle, Jan. 17.—About six o'clock this evening Geo. D. Reynolds, a clerk in the store of D. A. Jennings, and in every respect a most worthy young man, was coming from his supper at home to complete his day's service in the store, when on the corner of Third and Marion streets he was stopped by two foot pads, who ordered him to throw up his hands. Instead of complying he reached for a revolver, seeing which, one of the two fired at him. The ball entered his side and inflicted a wound from which he died two hours later. The murderers without stopping to rob their victim fled. A feeling of the freshest indignation prevailed in the community. Business was suspended, and in a few minutes a vigilance committee was organized, and were patrolling the town in every direction. Two persons saw the shooting but it was so dark that it is doubtful whether they can identify the perpetrators. The murdered man was a son of Capt. Reynolds, of the ship Topallant, and he has a mother in San Francisco and a wife and brother here.

O. P. R. Notes.

Work on the rock cuts along the line, and at Yaquina is going on well, the weather having been this week more open. The Engineers along the whole line are hard at work completing location and staking out. We hear that in three or four weeks longer the whole line will be ready for the graders. Impartive orders came from New York last Sunday to put every available man on the preparing of this coast division for early resumption of work, even at the cost of recalling for a week or two the parties which had just started on the eastward surveys. Their orders were promptly carried out though at the cost of the resurrection of the "sold out to Villard" scandals which had died down during the last few weeks.

Kevada and Oregon Railroad Troubles.

H. J. McMurray filed a lien on the Nevada and Oregon Railroad, at Reno, on Wednesday last week, for \$23,000. On Thursday he brought suit in the district court for \$9,500 against Contractor Moore for money loaned Moore by McMurray & Balch last November. Forty-four laborers were discharged on Wednesday, and the company intend arranging matters as speedily as possible and go on with the work. Articles of Incorporation. Articles of incorporation were filed in the office of the Secretary of State, incorporating the Stayton and Mehama canal, logging and transportation company. Incorporators—S. A. Jones, John A. Shaw and Wm. E. Price. Capital stock \$10,000. Principal office, Stayton, Duration unlimited.

New Patent Ship.

Mr. Randall of Junction City, has been in our town during the last week. He intends soon to locate with us and engage in the painting business. We received a call from C. F. Myers, of Sumit. He said the roads are so very bad over there that news events seldom ever happen; hence a dearth of information from that quarter.

Port Townsend Statistics.

Port Townsend, Jan. 15.—Collector Bash has just completed full returns for the year 1881 of business done in the Port Townsend custom house. American vessels entered from foreign ports, 282, tonnage 164,627; American vessels entered coastwise, 124, tonnage 107,046; foreign vessels entered from foreign ports, 75, tonnage, 28,009; total entries, 481, tonnage 300,562; American vessels cleared for foreign ports, 270, tonnage 160,253; American vessels cleared coastwise, 86, tonnage 46,689; foreign vessels cleared for foreign ports, 75; tonnage, 235,610; grand total clearances and clearances, 918, tonnage, 536,172. At least three-fourths of the coastwise commerce of Puget Sound is registered in San Francisco, and not being required to report at this custom house is not included in the above statement. It is safe to say that the outward and inward tonnage of Puget Sound for the year 1881 aggregated about 1,000,000 tons.

From Wadsworth, Nev., to Th Dalles.

The Lake county Examiner learns that the Nevada and Oregon railroad is graded out to the junction, and that there is 22 miles of track laid and in running order. Reno people are disposed to scout the idea that the Central Pacific proposes to build a road from Wadsworth to the Dalles by way of Goose lake, though there are good grounds that such is the intention of the C. P. folks. He says that in the event the road is started from Wadsworth there will be ample capital to push the work fast enough to reach the Oregon line much sooner than the N. & O. can, and it is the universal opinion that if that road is started in earnest the Nevada and Oregon will branch off into the Plumas county, and abandon the project of coming to Oregon. The objective point of the proposed road from Wadsworth will be the Dalles, and if commenced it will be built as fast as men and money can do the work.

The Newspapers of the World.

In the world there are published 34,274 newspapers and periodicals, with a circulation of 116,000,000 copies, and the annual aggregate circulation reaching 10,592,000,000 copies, or about 64 papers per year to each inhabitant of the globe. Europe leads with 19,556; North America follows with 12,400, the two together making over nine-tenths of all the publications in existence. Asia has 775; South America 639; Australia 661 and Africa 124. Of these 7300 are in German, 3550 in French, and over 1600 in Spanish. There are 4020 daily newspapers, 18,274 tri-weeklies, and 8508 issued less frequently. It appears that while the annual aggregate circulation of publications in the United States is 2,600,000,000, that of Great Britain and Ireland is 2,200,000,000.—Lynn City Item.

Pineville Totes.

Ten feet of snow reported on the summit between Camp Polk and McKenzie bridge. There is some talk of organizing a vigilance committee and in case one is formed, verify I say not you, the way of the transgressor will be hard.

The revival at McKay creek has moved into town, and still the good work goes on.

The weather is warm and nice, and stock is doing well. If we can get a few more men converted, a few more killed, and a good many sent to the penitentiary, we will consider ourselves in luck.

There was sold in this town during the past year 50,000 pounds of deer hites—about 12,000 hites. Another year like this and there will be no deer left in this country. Nine-tenths of the meat was left in the hills.

Large Law Suit.

Joseph Teal had such extraordinary good luck in the appointed Supreme Court of this State in the celebrated Walker vs. Goldenbelt & Teal that he has concluded to try his good fortune again. The exchanges state that he has lately commenced proceedings in the U. S. Court at Kansas City against Mr. John S. Beely, a wealthy citizen of Nodaway county, Missouri, for damages to the amount of about \$100,000. If necessary he will probably cause to be cited to the Court his Oregon case in his behalf.

Rich Diggings.

A man named Ericson, who owns the claim on the Deadwood Channel known as the "Bower's Claim," has recently struck very rich pay in a back bench or channel which was unknown until a few weeks ago. He was walking along the back rim of the front channel, and found a small crevice filled with gravel which he followed up the pitch of the bedrock for about thirty feet, when he opened up a back channel which is proving both rich and extensive. Two or three dollars to the pan is nothing unusual, and the gold is coarse, black and rusty.—Plumas Mail.

Rich Mining Strikes.

Wilcox, Ariz., Jan. 13.—Rich mining discoveries have been made 7 miles south-west of this place. The ledge runs nearly east and west and is reported to be 6 1/2 feet wide. Specimens of ore in Norton, Stewart & Co.'s office from this ledge, assay from \$600 to \$12,000 per ton. Prospectors are daily arriving at the new district in large numbers. The district has been named Cashie, and is about one mile from Steele's ranch, at a point near the mountains.

MARRIED.

At the residence of Wallace Baldwin, Saturday morning, Jan. 14th, by Rev. J. R. N. Bell, Miss Julia Baldwin, to Mr. Samuel Center, of Cal.

Owing to the illness of Mrs. W. Baldwin, the services were informal, and private, Mrs. Sadie Huffman being the only guest aside from the family. After an early breakfast the bridal couple bid their friends farewell, and departed on the train for their future home at the Great Western mines near Calistoga California, where the groom has a new house all equipped and furnished to receive them.

Gov. His has been Miss Baldwin's home since childhood. Being of a quiet turn of mind she never took a prominent part in social circles, but was universally esteemed by those who knew her, and will be most missed by the partner of her choice something over a year ago while temporarily residing in San Francisco and the passing acquaintance soon ripened into love which was mutually reciprocated. Mr. Center was a stranger here even to her family before his coming; but by the few who met him during his few days sojourn among us, he is held in high esteem. He comes of old New Hampshire stock and partakes of the sterling qualities of his native state. We predict for them a happy and prosperous future.
