QUITTEAU CONVICTED!

George Belt, an attorney from Independence, arrived in our town last Saturday, and remained over Sunday. Rev. E. N. Condit, of Albany, will preach at the Presbyterian Church at this place next Sunday morning and evening.

MURDER IN THE FIRST DEGREE.

Six Minutes' Deliberation by the Jury. (Special Dispatch to the Corvallis Gazette.)

Washington, Jan. 23.—Judge Porter resumed his argument to the jury this morning, but owing to the severity of the weather, the court and the jury, he varied his argument very much from his original intention. He did not linger upon the dry details of the case but confined himself to the discussion of the most important facts.

During the whole progress of the argument Quitteau kept up a continuous stream of spiteful and vindictive abuse. Never before had his vindictiveness been so plain. Seeing that his impending doom was unmistakably near at hand, his envenomed mind set a severe outburst of anger and crying.

As soon as Judge Cox had finished delivering his charge to the jury the latter retired for deliberation. A few minutes after the jury had retired the Court adjourned for a short recess.

Soon after adjournment of the Court the jury signified that they had agreed upon a verdict. Thereupon the court was reopened and the jury was then called in.

The jury then declared that they had agreed upon their verdict and that they had found the prisoner guilty of murder in the first degree, as charged in the indictment. The jury was out deliberating only six minutes in arriving to a conclusion.

The wires are down east of Chicago. Washington, Jan. 25.—The Statistician at this place has figured out the cost of Quitteau's trial and claims that it will exceed \$39,000.

The Order of Chosen Friends. C. A. Wheeler, formerly editor of the Pacific Overlander at Portland, arrived in Corvallis on Wednesday evening for the purpose of organizing a council of the order of Chosen Friends. On his way here he organized a council at Independence with 30 charter members, and one at McMinnville.

Since arriving here having received news of his child being very sick, he returned to Portland yesterday morning to await the recovery of his child. He intends returning here again some time next week to complete the organization which brought him here. This order has some of the peculiarities and in some way is similar to the Ancient Order of United Workmen, and in other particulars is quite different.

Going to Yaquina Bay. Mr. W. Stanley, of East Portland, and the only gentleman whom the celebrated Wm. Watkins has thought necessary to resort to legal proceedings for political redress, called at our office last Wednesday and intends visiting Yaquina Bay before he returns home. Mr. Stanley is a very gentlemanly appearing individual and no doubt Sweet William of the Grover political notoriety will find his hands so full that he may find it necessary and more convenient to drop something if he persists in having Mr. Stanley's assistance in legal character.

Important Invention. Janus Whiting, of Independence, has lately received a patent for an automatic car coupler, which uncouples when the cars run off the track. Parties have offered \$50,000 for an invention of this kind, and if it proves a success, as its author is sure that it will, an Oregon inventor will receive a handsome remuneration for his discovery.

Fire. Luper Bro's warehouse on the railroad nine miles north of Eugene was destroyed by fire one day last week; loss about \$1,500 fully insured. About 3,500 bushels of wheat was burned only 900 of which was insured, the balance, a total loss. The fire is supposed to have been by incendiary.

Returned. Wm. Grant returned recently from the Yaquina Bay, after looking after his ranch there. He reports roads had and every thing progressing finely down towards the ocean.

Hon. F. M. Wadsworth has lately sold his place near Albany in this county and has bought a small tract of land from Henry Gerber lying about a mile West of here and adjoining A. G. Mulkey's farm. He is preparing to move on it soon. An exchange says that one J. R. Sheppard, a painter of Oregon City, lately expelled from that place and took the last steamer from Portland to San Francisco, leaving many behind to mourn his loss.

LYNCH LAW AT SEATTLE.

Judgement Traveling Cross-Lots.

Last week mentioned the murder of Geo. B. Reynolds, by foot pads in Seattle on the evening of the 17th. Further news concerning the vigilantes committee formed there, came to late for that issue. It seems they discovered a one armed man named James Sullivan, and another, Wm. Howard, hid in some hay on a dock, and placed them in the custody of the Sheriff. Next morning they were taken before two Justices, who conducted the trial in joint session, assisted by Chief Justice Green, of the territorial supreme court. The evidence against them was direct and conclusive, leaving no doubt of their guilt. A loaded revolver taken from Sullivan had one empty chamber; and two witnesses identified the persons as the same parties who had stopped them upon the street on Monday night, and robbed them at the point of the same revolver. Plaster casts were taken of tracks known to have been made by the perpetrators near the place of shooting, which proved to exactly correspond with prisoner's shoes. As soon as they had been remanded to the custody of the sheriff to await the action of the next grand jury, every officer in the room was seized, and firmly held, while the prisoners were quietly removed to a wagon standing beneath a cross-piece fixed between two trees with ropes suspended; the ropes were seen adjusted round their necks and the wagon removed, no time being allowed for confession or repentance. Judge Green protested against the act and attempted to cut them down but was prevented. The vigilantes about four hundred strong then proceeded to the jail, and breaking down the doors took therefrom one Benj. Pane, held for trial for the murder of policeman Sires in October last and soon suspended him between the other two. After hanging about an hour, they were cut down, and a verdict of the coroner's jury found in accordance with the facts, and the bodies buried; all in less than 24 hours after the shooting occurred.

Death and Destruction. The destructive messenger has under peculiar circumstances twice within the last year taken off two of our own. Whether this is the result of an assassin or from natural causes we cannot definitely say. The first of these, young Thomas, suddenly died about a year ago without any previous warning to those who daily saw him. The second, young Toby, as suddenly and mysteriously as the other passed away on yesterday morning after a short attack of fits and convulsions. These two domestic were excellent mousers and particularly valuable to us for the wholesome fear which their presence imparted to the rats and mice which theretofore came in droves around our premises.

If this affliction comes from mutual causes we meekly and humbly submit. But if it is the result of human interference we candidly and honestly believe that any person who would promiscuously and with malice aforethought, poison a poor cat, the property of another, would do the same thing to their fellow man if it were not for the wholesome fear they have for the law.

Tin Wedding. The numerous friends of T. J. Buford and wife, on last Monday evening assembled for the purpose of celebrating the tenth anniversary of Mr. and Mrs. Buford's wedding day. The guests marched to the residence and presented to the host and hostess numerous presents selected for the occasion, after which they all repaired to the Occidental Hotel to take supper which had been specially prepared for the occasion. After all had partaken freely of the good things of the table, and number of appropriate toasts had been responded to, the evenings exercises were concluded by a short time spent in dancing.

Improvement of the Willamette River. The Government snag boat Corvallis arrived here Wednesday morning on her way to Harrisburg, where it is intended for her to commence to clean out the river and from thence work North. How far North it is intended for her to proceed, or whether she is to assist in removing the obstacles in the way of water crafts below Portland, or whether her attention to the Willamette river is the result of a portion of Mayor Thompson's efforts in Congress, we will not at this time attempt to explain, as our information does not extend that far.

Death of an Old Pioneer. David Newcome of Howell Prairie, died at the residence of his son John Newcome, Jan. 18th of heart disease. Land Matters. Hon. N. B. Humphrey and Thos. Monteith and other parties from Albany were in town on last Tuesday looking after some land matters near Yaquina Bay.

Quite Ill. The Douglas Independent says that Sol Abrams is quite ill which has prevented him from attending to business for several days.

AN ENTHUSIASTIC CITIZENS MEETING.

For the Purpose of Memorializing Congress to Appropriate \$200,000, for the Improvement of Yaquina Bay Harbor.

On last Friday evening, the 20th inst, at a convenient hour citizens of this county met at the Court house for the purpose of taking into consideration the propriety of adopting a suitable memorial to present to Congress showing the importance and necessity of a liberal appropriation being granted by that body for the purpose of improving the Yaquina bay Harbor. Although the notice given was but a few hours yet the meeting was well attended and a grand success. Judge F. A. Chenoweth was chosen chairman, who briefly stated the object of the meeting, and Zephin Job was elected Secretary. Judge Durnett, then briefly addressed the meeting urging the importance of taking immediate steps for the purpose of showing to Congress the actual necessity of an appropriation for not less than \$200,000, which sum was recommended by the Oregon Legislature for the purpose in question. He said to ask less than this amount would be doing an actual injustice to the people of the Willamette valley and Eastern Oregon. He also cited numerous authorities from the several acts of Congress, showing conclusively that the policy of Congress had always been liberal in making appropriations for public improvements of this nature.

Judge Kelsey then spoke in a very forcible manner claiming that as the legislature of our state had asked Congress to appropriate the sum of \$200,000 for the improvement of the Yaquina bay harbor and as shown by the bill recently introduced in Congress that our representative had fallen below that amount we should take active measures in asking for the sum named by the legislature of our State.

Dr. Bayley, B. W. Wilson and others made very appropriate remarks on the questions under consideration, after which a memorial to Congress was read and on motion by Mr. M. Jacobs it was unanimously adopted. After its passage every one in the house signed it as rapidly as their names could be written with pen and ink.

The following is a copy of the memorial as passed: WHEREAS, the Legislature of Oregon at the Session of 1880 unanimously resolved to petition Congress for an appropriation of \$200,000 for improvement of the entrance to Yaquina Bay;

AND WHEREAS, subsequent events and especially the building of the Oregon Pacific Railroad with its terminus at Yaquina Bay have still further demonstrated the urgent necessity of such appropriation.

Now be it Resolved, That this meeting cannot recognize the proposed appropriation of \$60,000 mentioned in the bill introduced by Hon. M. C. George as adequate to provide for the early completion of the improvement.

That the Senators and Representative from Oregon be respectfully but earnestly invited to use their best endeavors in Congress to procure the insertion of the sum of \$200,000, and no less in the appropriation bill in question.

That a copy of these Resolutions be sent to the Senators and Representative, and that the Hon. M. C. George be especially requested to exert all the influence vested in him as a member of the Committee on Commerce to secure an end to which he has pledged himself, both publicly and privately on his canvass, and which formed one of the chief grounds for the confidence in him felt by the Willamette Valley and proved by his election.

That Carriage Again. The new carriage of Geo. W. Keady, noticed in our issue of last week deserves more than ordinary comment. Upon examination it will be observed that for elegance of style, finish and workmanship in any of the choice eastern manufactures. For durability it is no doubt superior. The wood work was made by Mr. L. L. Horning, and ironed by Messrs. Hillard & Hutton all of this place. It is now in the warehouse of Woodcock & Baldwin adjacent to their hardware store where any one who desires to see first-class work can examine it.

The Notorious Toy Pistol. Again we have to chronicle the game brought down by the use of the toy pistol. On last Sunday while Ned, young son of John Smith of this place, was playing with that famous weapon pointed towards the little finger of his left hand, when it was suddenly discharged, almost severing that member.

TELEGRAMS.

Chicago, Jan. 22.—A delegation of prominent residents of Dakota have been here today, and left tonight for Washington to urge the admission of southern Dakota as a state. All political parties and opinions were represented in the delegation, which numbered 75.

Chicago, Jan. 22.—Times' Albany special: Tom Ballard, counterfeiter, in the penitentiary under a 30 years' sentence imposed by U. S. Judge Wallace, offers to give the government a secret of making bank note paper which will prevent all counterfeiting of notes and bonds, if the government will grant him a pardon. A movement has been started among prominent men here to-day to secure Ballard's pardon.

New York, Jan. 21.—The gold exporting point is \$4,897. The advance in exchange yesterday was caused by scarcity of commercial bills, coupled with results of levy selling of American securities for foreign accounts on bank books for gold shipments in April. Bankers generally expect a fall in exchange.

New York, Jan. 21.—The secretary of the New York produce exchange has received a letter from the secretary of the San Francisco exchange stating that the latter organization has adopted the system of selling wheat, corn and oats on call and proposes to take further steps towards facilitating speculation in grain on the Pacific coast.

A number of anti-machine republicans are about to organize a new party, the Young Men's Republican Club pattern. Many U. S. heads are leading the movement.

St. Louis, Jan. 21.—A German farmer named August Johannyer living near Rockville, on the Missouri, Kansas and Texas railroad, about 78 miles south of St. Louis, Mo., has been arrested charged with attempting to derail and wreck the special train upon which Jay Gould and party were passing north towards Sedalia.

Chicago, Jan. 21.—The Tribune, which has been particularly interested in the anti-mormon meeting, to be held here Monday, has two columns of responses this morning from all parts of the country, showing that there is a strong sympathy with the movement, and that in all large cities similar meetings will be held.

New Orleans, Jan. 21.—At a reunion of the association of the friends of northern Virginia tonight, Jefferson Davis made a short speech in which he said the cause was not lost but only sleeping. Alluding to the stirring events of the late war in which he before him participated, he said: "You have done your duty in the past and may God spare you to do it in the future should ever necessity again arise."

New York, Jan. 21.—Times' says expert accountants from the treasury department at Washington who have been engaged in a careful audit of the wealth stored away in the sub treasury building have finished their labors. They found correct to a penny the report made by General Hillman on the 31st inst. when he reported from the position of assistant treasurer of the United States. The grand total is about \$88,000,000.

Washington, Jan. 21.—The senate pension commissioners unanimously agreed to report a bill granting Mrs. Lincoln \$15,000 cash, available in Utah, and increasing her pension to \$2000 per annum.

Tucson, Jan. 21.—The Arizona Daily Journal suspended publication this morning.

Victoria, Jan. 22.—A heavy southeaster has prevailed all day. In the afternoon a steamer tried to take four large camels outside for the purpose of attaching them to the wrecked bark. The wind was so strong that the camels were blown off and were smashed to pieces on the rocks.

New York, Jan. 21.—The Telegram's London cable says: Our correspondent at Ragusa sends a dispatch respecting the insurrection which has broken out against the Austrian rule in Herzegovina. He says: Herzegovina has risen. The force of the insurrection lies in the district which was the scene of the first uprising against the Turks in 1875. Insurgent corps are forming in the mountains. The warlike clan of Zueli, on the borders of Krivovicia, have burned their homesteads and joined the insurgents. A wealthy and influential chief Yulkaevich, and villagers on the Herzegovinian frontier near Ragusa are following their example. The rising seems to have been simultaneously planned, and the result without organization. The insurgents do not lack resources and are receiving about seven pence and a half pound of flour daily. The orthodox Mohammedan population is friendly to the cause, and the Mohammedan gentlemanlike is deserting on mass. The national camps are naturally taking them in with their arms and accoutrements so thoughtfully distributed among them by the Austrians. Even in the Catholic districts of Poznotho, the well known chief, Mussiah, is reported to have made his appearance.

On the whole the Mohammedan element prevails among the insurgents. A serious engagement was fought between Gatshe and the result of which the Austrians are endeavoring to conceal. It is reported they were repulsed.

The children, English secretary of state for the war department, says the government intends to pursue unflinchingly its Irish policy.

Little Rock, Jan. 21.—Excitement is on the increase in Choctaw nation in regard to the bill passed by the council granting a right of way through their domain to the St. Louis and San Francisco railway. The Choctaws are also loudly protesting against the passage of the bill, and both urge a thorough investigation by Congress before any steps are taken in the matter. The Tahlequah Advocate, organ of the Choctaws says that it is a downright swindle; and it is very patent to every reasonable being that it was a gigantic fraud perpetrated upon the more ignorant class of Choctaws by connivance of the more corrupt among them.

Little Rock, Jan. 20.—Leading republicans from different sections have been in consultation during the week past, discussing the political condition of the state, and the prospective course to be taken in the campaign. The question of thoroughly organizing a vigorous and aggressive campaign with a complete ticket from governor to township committee was formally discussed. The enthusiastically prevalent sentiment was, that old times, men with records, take a back seat and all the younger and less objectionable leaders come to the front. The object of the leaders will be to place a ticket in the field composed of conservative resident citizens and by whatever means possible draw round to the support and co-operation of all disaffected political elements. Hon. Logan Roots, president of the Merchants National Bank of this city, was elected as a leader. It is certain that the republicans propose to make a vigorous fight during the next campaign it may be equally positively asserted that some one other than Senator Powell Clayton will lead the movement, or that there will be no co-operation of that nature with night to President Arthur by unanimous vote denouncing Powell Clayton and some of his recommendations.

Washington, Jan. 23.—The bill prepared by Secretary Kirkwood for improvement of the condition of uncivilized Indians, and which was submitted by the president to Congress, provides for the appointment of a commission of three members to be known

as a "Commission on Indian civilization," and for a secretary and interpreter to the commission. The bill provides that the secretary of the interior shall visit such tribes as the president may designate, and authorize them to examine and report upon the natural voice, and has wrought the ruin of every people which it has touched; proving itself always everywhere the deadly enemy of virtue, civilization, good order and free government, while Mormon history, with its treasons and massacres, as well as its moral abominations, is a disgrace to the American name and the civilization of the nineteenth century. Its present conditions give no promise of improvement, but threaten a rebellion and civil war in the near future, and this temporizing and conciliatory policy beginning with the appointment of Brigham Young as governor of Utah in 1850 by Fillmore, and its contemptible failure admits no further trifling. The time has come for vindication of the decency and majesty of the law. It is shameful that the depraved public sentiment of a band of lawless fanatics should be permitted longer to defy law and the fully expressed will of the people.

Rochester, January 23.—The Pastors' Union, composed of Presbyterian, Baptist and Methodist pastors of the city and vicinity, in regular meeting considered the subject of Mormonism, and resolved to hold a public meeting soon in opposition to the system, with the view of awakening public interest against it. A committee was appointed to make arrangements.

St. Paul, Jan. 23.—A large anti-polygamy meeting was held here to-night, presided over by Gov. Hubbard and attended by the best citizens. Strong resolutions were passed.

Washington, Jan. 23.—Several resolutions were introduced in the house of Congress looking to a report by the government on all cases where American citizens have been imprisoned by the British. One of these was a resolution from the committee on foreign relations.

Robinson, of New York, said he was going to move an amendment to the report and was going to take higher ground than was there taken. Not only had the United States the right to interfere in behalf of American citizens in British prisons, but it had the right, and it was its duty to demand the release of members of parliament arrested by the people of Great Britain, and whom the British government had imprisoned.
