Smallpox at the Asylum.

Smallpox has broken out in the Insane Asylum at East Portland and it is said that great carelessness exists in not warning all persons of its prevalence there.

Returned.

E. H. Barnham, formerly of this place, has recently returned from Lower California where he has been since last fall.

Bill Purchased.

An exchange says that Messrs. Kratz, Wisthuber & Co., late of Junction City, have bought the Dixie Mill, and will expend several thousand dollars in improving it, when it will be run on a large scale.

Recruiting.

A private communication from Newport informs us that Mr. E. J. Frasier, of that place has been quite sick for two weeks past but is now recovering and will soon be well.

Catching Furs.

Fred Page and the Martin brothers, who reside on Lewis river, spend every winter in trapping for beaver animals, says the Vancouver Independent. Their catch for the last winter amounts up as follows: 274 beaver, 100 muskrat, 5 otter, 75 muskrat, 20 raccoon and 2 elk hides.

Fun Ahead.

The Standard Minstrels and Muldoon Pic Nic Party, from Emerson's Theater, San Francisco, under the management of F. W. Stebbins, will give an entertainment here on Tuesday evening, May 16th.

My Your Name.

Persons sending communications to the GAZETTE will please sign their names to them. Not because we wish to publish the name but it furnishes a guarantee to us that the matter communicated are truths.

Steamer "Yaquina" Bound for Newport.

J. S. R. K. Irwin, of Newport, Or., recently returned from Portland looking for a home and family. He informs us that he learned while there that it was the intention for the "Yaquina" to start for Newport on last Wednesday with a partial load of freight. Also that the proprietors of the steamer intended not running for any more on account of a lack of patronage.

New Cars for the Tunnel Work.

In passing Belknap Bros. and Kenely's foundry this week our attention was directed to four cars made by the foundry company, ready and suitable for use by Mr. J. H. Bagby in the tunnel work for the O. P. & N. R. They are supported by low wheels and have on them heavy iron bound wooden boxes about four feet wide and six feet long. The wheels are self-dampers.

Immigrants from Illinois.

A Bloomington, Ill., paper says: "To-day the party which has been making up here will leave for Oregon. The party is composed of 25 members, among whom are C. E. Fell and family, James B. Sargent and family, Prof. George Hastings and wife; L. W. Brinkard, A. J. Payne and N. A. King, leg of Arrowsmith; C. S. Myers and Mr. Farnsworth, Haysworth; H. H. Hammett, Farmer City; A. J. Martin, Hartsburg, Logan county, and others. All the party expect to make their future home in Oregon, and some of them have already lived there a year or two." The party has arrived.

The Peoples' Protective Association of Astoria.

Was recently organized at the above named place having for its object the following purposes: 1st. For the purpose of protecting law abiding citizens and their property. 2nd. For the purpose of putting a stop to certain laws practised in this city by men who are known as sailor runners. 3rd. To protect and assist the law in punishing all such offenders to the full extent of the law. 4th. That we ask the authorities of the city to use all means in their power to punish gamblers and insist that that class shall not be allowed to make their living in the city.

I. O. O. F. Anniversary.

Barium Lodge, No. 7, of this city, held their annual celebration in their hall on Wednesday evening of this week. At 8 o'clock a large company of the members and families, together with invited guests, assembled. This was an occasion of unusual interest to the Order, it being the commemoration of the sixty-third year of the organization in the United States. The annual address was delivered by Judge C. F. Moor, of this county, who gave a pleasing sketch of the history and work of Old Fellowship in this country. The address added much to the interest of the exercises, setting forth in detail the primitive and present excellencies of the work in this and other lands. Following this Miss Bertha Neegase recited, by request, that charming

recitation, "Absalom," in her usual fervent and graceful manner. The literary part of the programme closed with some remarks and select readings by Judge W. S. McFadden, of Barium Lodge. After this a hearty and pleasant repast was served to the company, and the quiet and merry-making which marked this part of the entertainment showed that it was relished by all. The welcome and hospitality extended by the members to the guests was gracefully and cordially acknowledged, and soon after the company dispersed to their homes well-pleased with the evening's festival.

School in the lower district was closed on last Monday on account of the diphtheria, and will open next Monday, providing the disease does not spread.

Rev. Anthony Simpson went to Yaquina yesterday. His visit at that place is in the interest of the Presbyterian church, which denomination has assigned him work in that locality.

The irrepressible Jack Alphin, of the Engineer Corps, here into town Wednesday. Rumor has it that he is here engineering the organization of a "Plug Ugly" corps for the festive Fourth.

The Chinamen formerly occupying the building South of H. E. Harris's store, have moved their quarters to Mr. Perly's wagon shop, and thus another place will be saturated with death and disease.

The Candidates for Mayor and Councilmen at the coming city election are requested to hand in their names to this office not later than Saturday at 10 A. M., as the tickets will be printed on that day.

Arthur Stilson, aged about thirteen years, residing in the northern part of this place, died yesterday morning at 10 o'clock. He was a victim of diphtheria, which seems to be prevalent in one portion of the city.

Prof. Willero, the Man of Mystery, gave two exhibitions here this week. He is a very clever sleight-of-hand, and as an acrobat he is what might be called an average performer. This much may be said, however, that the performance did not receive the support it justly merited.

King's Valley.

EDITOR GAZETTE.—There appeared in the Leader of last week an article purporting to come from King's Valley signed "Republican." In which my action as delegate to the late Republican Convention is criticized. Also I am said to be poor authority in that I sent to the GAZETTE a few days ago. As all true Republicans in this precinct are satisfied with the result of the Convention I need make no defence or explanation in regard to my action as delegate. In reference to the authorship of the article in the Leader, I have strong suspicions that a Republican never wrote the article. It smacks somewhat of the spirit of the "Boss," surely if a Republican had any grievances he would write under his own signature. The "Boss" is a mighty ingenious animal. I wonder who it was that four years ago had several hundred bogus Republican and Greenback tickets printed and circulated under their own names in this county, in hopes of stealing votes for the office of County Judge. If "Boss" is so anxious to meddle in Republican affairs it would be well for him to arise and explain like a good pious brother about those tickets before he is allowed to assume the dignity of circuit Judge. Bluing News.

Jacksonville Democratic Times.

The miners of Willow Springs district are cleaning up.

The hydraulic mines are all running on full time.

A good run is being made at Keeton and Klippel's claim on Poorman's creek.

Other diggings in that vicinity are paying well.

Winaer and Simmons, of Josephine county, are running their hydraulic claim night and day. They do not expect to make a claim up before the last of August.

Another cleanup was made at the claim of Chas. E. Chappel & Co. on Star gulch last week, which resulted satisfactorily. Over 35 ounces of gold was obtained. Their reservoir is now being used to a good advantage.

The claim of Bybee, Newman & Co., of Josephine county, although operated only two-thirds of a month, yielded over \$1,300.

A full line of Fishing Tackle at Will Bros'.

New Boot, shoe, and Hat Store.

Sam'l H. Root comes out with a new flaring advertisement in another column. Sam intends to sell boots, shoes, hats and everything in his line on the most favorable terms. It is a good time to call on a man to buy his goods when you find his standing advertisement in the paper because at such times they are anxious to do business and as a consequence they advertise for the purpose of extending their business. A man who advertises thoroughly will always offer superior inducements to customers for their trade. Mr. Root is a thorough and accomplished workman, a nice accommodating gentleman, and spares no pains to please his customers. He has a large and increasing trade and deserves more. Persons desiring to purchase gentlemen's boots and shoes, ladies' shoes, slippers, and fancy wear, children's wear, gentlemen's hats or any other things in his line, can do no better than to call upon him. See the Eureka Sash Fastner and Look at Will Bros.

Blasting has commenced at the approach to the bridge across the Umpqua.—Times.

Says the Jacksonville Sentinel: Postal Inspector Simpson left for Portland to-day having in custody a young man from Lakeview charged with robbing valuable letters while acting as assistant postmaster of that place.

It is probable that within the next four months \$50,000,000 additional of the 6 per cent bonds will be called says the New York Banker and Broker. This will exhaust that class of bonds, leaving only the five to be redeemed. The price of the latter is consequently affected by the possibility of their early redemption, although there are \$400,000,000 of them outstanding.

Last week a car load of oak from the new mine, near South Prairie, was brought down. Some of it was sent to San Francisco, and numerous samples of it were distributed here. It is hard, burns with a clear flame, and appears to be a first-class article for steam purposes. Last Saturday two vessels, laden with coal and lumber, loaded sail in Commencement Bay and passed under a full spread of canvas, on the way to the straits of Fuca. The James R. Thompson arrived at Hanson & Co's. mill last Wednesday evening, where she will load lumber for Melbourne. The vessel will carry 1,300,000 feet of lumber.—New Tacoma Ledger.

MARRIED.

CHILCOTT-KIGER—On April 19, 1882, at the residence of R. C. Kiger, in this city, by Rev. J. Bowers, Mr. Newton W. Chilcott of Multnomah county, Oregon, and Miss Francis Kiger of Corvallis, Oregon.

BELL-TULLER—In this city, April 27th at the home of the bride, by Rev. H. P. Dunning, A. B. Bell, of Multnomah county, Or., and Miss C. M. Tuller, of Corvallis, Oregon.

TELEGRAMS.

Charleston, S. C., April 25.—In the United States court of this place, under the sanction of Sumner county grand jury of neglecting and refusing to call the votes of three election precincts of that county. The district attorney did not press the other counts of the indictment. After a statement by counsel in explanation of the action, Judge Bond said that all the government wanted was vindication of law, and that he would not start a fire with coal oil, and the case was closed with a unanimous acquittal. Laramie City, April 22.—A Boomerang special from Carbon says: A horrible accident occurred here this P. M., resulting in the burning to death of Mrs. Theodore P. Henkle. So far as learned she was attempting to start a fire with coal oil, and the case was closed with a unanimous acquittal. The body was buried so as to be unrecognizable. Mr. Henkle is a carpenter in employ of the U. P.

Chicago, April 22.—Socville, in withdrawing from the Galena case, sends to the Washington supreme court a letter a column long, stating his reasons, which are personal and partly because he believes his client has not received fair judicial treatment.

Washington, April 23.—Mrs. Scoville states that she intended to prepare a petition to the president for commutation of Guiteau's sentence to imprisonment for life, and travel around the country lecturing and circulating the petition for signatures.

Denver, April 23.—A case of forgery by mail robbers came to light to-day. An U. S. treasury draft for \$5000, sent from Washington payable to the German national bank of Denver on the 31st of March, was never received here. Inquiry shows the same cashed at Washington on the 10th inst. The thieves probably obtained the signature from another store on letters.

Fortress Monroe, April 24.—Extensive preparations are being for a grand military and naval display during the week, at which the president, secretaries of war and navy, Admiral Porter, heads of bureaus and other distinguished visitors will be present.

New Orleans, April 23.—A Morgan City special says: Cattle and horses are dying in this vicinity where they have been placed on mounds and platforms. People are actually suffering at places near here on Monday the work of Blaine's political enemies is hourly made for food.

Chicago, April 24.—Washington special: It is triumphantly to-day that Blaine came out in the shipyard affair. Belmont's attack on him is recognized as having been the work of Blaine's political enemies in his own party. Belmont being made a cat's-paw by Conkling men. Blaine is evidently coming out of the investigation in excellent shape.

Grass Valley, April 23. A. D. Mason, a prominent attorney of this place, was shot last night by E. A. Roberts, son of Judge

E. W. Roberts, an old and leading lawyer. Eye witnesses of the affair refuse to be interviewed. Mason's wound is pronounced fatal.

New York, April 24.—Collector Robertson has ordered careful investigation in regard to recent importations of sugar. It has been represented to the collector that certain parties, whose names are withheld for the present, have been evading paying duty by bringing sugar from the East Indies to the United States via the Hawaiian islands. After being taken to the Hawaiian islands in a raw state, the sugar is put through the centrifugal process, then it is shipped to San Francisco, where it is entered as an Hawaiian product. From San Francisco it is sent direct to New York importers, thus evading a duty of three cents per pound, which they would be required to pay if importations were made direct from the East Indies. The matter is causing much excitement among the sugar importers and refiners of this city. The secretary of the treasury at Washington has stated that he is in doubt as to whether this method of importing sugar in the roundabout way above described is illegal or not.

New York, April 24.—The Herald reports the formation of a gigantic whisky ring and that Kentucky speculators are in the scheme. It says an enormous quantity of distilled spirits are now in bond, near a gallon and a half for every man, woman and child in the United States, including Chinese and Indians. This act shows the magnitude of the game the ring is playing.

Chicago, April 23.—Times Selma, Alabama: On Saturday night, points east and south here for a distance of from 14 to 20 miles, were visited by a combined wind and rain storm that in fierceness surpassed any similar occurrence there. The cyclone proper lasted only five minutes, and ranged over a track about 12 miles in length and a quarter to a half mile in breadth. Everywhere in its course houses were blown down, trees and brush were uprooted, and immense forest trees twisted from their trunks and carried away. Several brick houses were blown off smooth with the ground, and brick and mortar found hundreds of yards off. Five lives were lost, and when complete returns are in it is thought the death list will be at least doubled. At Dr. J. H. Wheeler's plantation near King's Landing every tree, bush, fence and house on the plantation was swept clean of the face of the earth. The doctor and his wife and family and all other whites on the plantation escaped with only a few bruises. Two negro women and one boy were killed outright, two women are expected to die, and two children were painfully hurt. One woman was pierced through and through by a piece of splintered plank. The ragged lance entered from the rear and passed directly through her body.
