will please deliver it soon. We cannot

wait until after harvest for it. Church Sociable. A church sociable for the benefit of the Christian church will be given at the residence of Prof. McElroy on this Friday oven-

ing. Ice cream with other refreshments will be served. All are invited.

Came Ashore. The hind axle of a wagon ironed with hind hounds attached, recently came ashore on the coast near the mouth of the Alsea river. It is supposed that it has been washed from somewhere south of where it was found.

Commencement at Philomath.

The Baccalaureato sermion will be preach ed by the President on Sunday, June 25th. Commencement day on Wednesday June 28th, with exercises beginning at 9 A. M. Pregramme of the Alumni in the afternoon. Everybody invited to attend

Wreck.

Geo. M. Starr, of Alsea bay, was in town last Friday, who informed us that the wreck attle by a railroad. of a two masted schooner came ashore recently on the coast south of Alsea rive and below the mouth of ten mile creek. No traces of its name or anything else to indicate where it hailed from could be found.

Pacific Conference.

At the Pacific Conference of the Evangelical Association lately held, among others, the following appointments were made:

J. Bowersox, on the 'Oregon District.

Aug Krecker, Corvallis, J. L. Hershner, King's Valley.

J. A. Hollenbaugh, Albany. W. Ackerman, Salem.

S. E. Davis, Yambill.

C. Welte and H. I. Bittner, Portland.

Fast Work. We are reliably informed that the saw-

mill situated between here and the coast belonging to Mr. William Bagley, and place. which has been engaged for a long time sawing out ties for the Oregon Pacific Railroad, during 6 days between the first and fifteenth of the present month, cut out two Salem, where they have decided to erect as rapidly as they can. They change their thousand eight hundred and fifty-two ties the new flouring mills, instead of the place force of workmen and keep the work going which is equal to one hundred and fourteen where they commenced work. This is done on both night and day. thousand and eighty feet of lumber, or an average of over nineteen thousand feet per day. This is certainly rapid work. Festival.

The ice cream and strawberry festival held at the City Hall last Tuesday evening, the proceeds to go for the benefit of improving the college chapel, was a grand success, the gross earnings of which amounted to \$78 and after paying all expences they had \$51. One of the tables was presided over by the Misses. Callaway and another by Miss Abbie Right where ice cream and strawberries was dealt out to the bungry throng. The interests of another table was guarded by Miss Ethel Johnson and Emily Brooks where the dry could proeure a cooling draught of lemonade. Some of the smaller girls amused themselves by selling boquets for the benefit of the common fund. Other ways of advancing the object for which the festival was held was of granite found on the Pacific coast. He made use of and everybody had a good time.

A New Warehouse.

Mr. A. Samuels of DeClark & Samuels Remaining in the Postoffice at Corvallis, was in town last Monday and Tuesday, look-ing after the preliminaries preparatory to building a new warehouse for the building the railroad depot in this place. Parties below have been bidding on the building Hodges, Mort. Hill, Thos. J., Kintner, Hiram F., Milvin, Jos., Witson, J. W., Witson, J. W., N. R. BARBER, P. M. building a new warehouse for the firm at advertised: The main building is to be forty by sixty and is to be in one large room used for the Corvaliis, Oregon. purpose of sacking and storeing sacked grain. June 21, 1882.

The upper story will be twenty feet high, built sollidly with one and a half inch plank by eight inches wide laid on top of each ther and nailed down sollidly. This story will be divided into six large bins and will serve the purpose of storing grain in bulk. Adjoining the main building will be constructed an addition to it twenty by forty feet which will be used for the purpose of cleaning and elevating the grain. So that there will be no machinery in the main building where the grain is to be stored. This building is to be constructed on the spot of ground where Mr. Wells' house burned last winter. It is expected that work will begin on it next week and will be ompleted in ample time to provide for the torcing of the present year's crop. The onse when completed will hold about 60,-000 bushels. If the present year's business develors that a demand for more room is required, the company intend to build an addition for warehouse room next summer. Messrs, DeClark and Samuels already have a warehouse at Suvers station and another at Derry. Mr. Samuels will move his family to Corvallis soon.

Resolutions Upon the death of Companion Jas. A. Yantis, reported by the committee and adopted by Ferguson Chapter, No. 5 R. A. M. at its stated Convocation held on the 13th day of June A. D. 1882, A. L. 2412. WHEREAS, it has pleased God in his al wise Providence to remove from our Chapter by death our Companion James A. Yantis,

we feel it our duty to pay this last tribute of respect to his memory; therefore be it resolved:

1. That in the death of Companion, James
1. That in the death of Lordon has lost a good

A. Yantis, this Chapter has lost a good member, his brothers sisters and relatives a kind and loving brother and relative, and

the community a kind and generous hearted 2. That while we feel that no words o consolation that we can give can heal the wounds that the death of Companion Yantis

has caused in the hearts of his relatives and at II a. M. and 7 r. M., at the college chapei. Sunday school at 9:30 a. M. Prayer merting Friday evening at 7 e'clock. Public cordinally invited.

J. R. N. BELL, Pastor. Compunions.
3, That resolutions be copied upon the

minutes of the Chapter, a copy under the seal of the Chapter be furnished to Mrs. B. W. Wilson for the benefit of all the relatives of our deceased Companion, and a copy be furnished each of the city papers

with a request to publish

On last Friday the 9th inst a frightful accident occurred at the rock point near Myrtle Creek, which resulted in the death of one white man named Berry and three Chinamen. The particulars as nearly as we can learn them are these: It seems that Berry, who was boss of a "China gang," was tamping with the spoon used to clean out the drill holes, and it is supposed that a spark caused by friction between the iron moon and rock, ignited the powder, and the blast went off blowing Berry and three Chinamen all to pieces as it went. As they were standing immediately over the blast. and knew not that it was going off, they were blown, some of them, way out into the river and frightfully mangled. All that could be found of Berry was burried at Myrtile Creek, and the Chinamen or all that could be found was taken to Portland.

Mays The Mountain House is situated about midway between Pioneer and Corvallis and in the last grove of green timber, of any note, on the road. It is a first class house in all its bearings.

The people at the Summit have made ar angements to have a celebration this coming 4th as they made such a grand success last year, and as it is too far to Corvallis to think of going there. We extend a cordial invitation to those living in adjoining neighborhoods and hope they will give us a good turn-out. I am not prepared to give the programme but will aver that the portion which will take place about 12 o'clock will be particularly interesting. June 19, 1882

Slater on the Oregon Election.

Philadelphia Times. The average reader of the Oregon dispatches would suppose that the republicans carried the state because they had the most votes. Not so thinks Senator Slater, who says democratic defeat was due to "several circumstances," whatever that may mean. paign. What a high opinion he must have ow. She is a splendidly built craft and of the unterrified voters of his state when he thus covertly asserts that it requires a fair amount of moneyed persuasion to induce them to vote their own ticket. The dem-The Laurige Hall, the first of the fleet to ocrats of Oregon will hardly feel like thankclear with this season's yield, is ready for ing the Senator for his explanation of how

A Decter's Opinion.

Mr. J. L. Knapp of Santa Clara, Cal., who was cured of acute inflamation of the bladder by Warner's Safe Kidney and Laver Cure, after the doctors could do nothing for him, met one of his old physicians shortly after his recovery, and asked him what he thought of the effect of the medicine. Said Dr. Carpenter: "I think that annehed at two o'clock next Thursday medicine one of a thousand the way it has acted in your case "

> BORN. RANNY-On the 17th inst., a girl and heir

Well-Merited Success. A gentleman once asked a distinguished dispensing druggist to explain the secret of the almost universal demand for Dr. Richnond's Samaritan Nervine. He said that it was in fact a genuine medicine—such a compound as every good physician would prescribe for the disease which it was ad-vertised to cure. Of course it cost less than any druggist would charge for the same ar-ticle supplied on a physician's prescription, and besides, there was a saving of the doctor's fee in addition. Moreover, by tuying the drugs in such enormous quantities, and having a perfect a perfect of the state of the st having a perfect apparatus for compounding the mixture, he was not only enabled to has arrived at Antwerp, having originally get better articles in the first place, but also to present the medicine in better form and at less price than the same preparation could be possibly obtained from any other source. Dr. Richmond has devoted all his energies to the alleviation of human suffer-With this end in view, and with his ing. With this end in view, and with his whole heart in his great labor for the bene-flt of the afflicted, he has achieved marked and merited success. There can be no real success without true merit. That his suc cess is real is evidenced by the fact that his reputation as a man and physician does not deteriorate, and the fact that there is a stalley does not seem to be very encouraging at this time and unless we get a good rain toon the harvest will be quite small.

Two horses and a sadlo and bridle were tolen from Milo Walker's barn near Ashand last Monday night. No traces has yet to been found of the horses or this year to be a seen found of the horses or this year. It may be urged that some of these diseases are so widely different that it seems absurd to prescribe the same remedy. They may differ in symptoms, yet in character be pre-

cisely similar; and then we must take into consideration the fact that remedies may possess various properties. Thus, some medicines are both tonic and alterativo; thers may be tonic and laxative, the properties differing according to the quantity administered and the time and circumadministered and the time and chean-stances which demand its employment. In the manufacture of any pharmaceu-tical preparation the purity and strength of the materials used, and the requisite The English Co.'s mines at Galice creek machinery to be employed, are among the machinery to be employed, are among the chief essentials. The first is insured by purchasing the ingredients in large quantities, whereby the exercise of greater care in selecting the materials can be afforded; and the business is sufficiently extensive to war-rant a large outlay of capital in procaring chemical apparatus. Those facts apply with especial force to the manufacture of our medicines, their quality having been vastly improved since the demand has be-come so great as to require their manufac-ture in very large quantities.

These ideas are not mere speculative remarks to mislead the reader, or to imbue him with false views of the superiority of our medicines. While inspecting Dr. Richmond's establishment you would be sur-prised to see the admirable facilities, both chemical and mechanical, which he capillys complete, four Salem boys played with them. The Lafayettes won the laurels easily, the score standing 24 to 13 in their observer there appears to be no room for improvement, yet new apparatus and me-chanical appliances are constantly being procured for the establishment.
