Why will people continue to use plain
envelopes, letter and bill paper, when they
can get them with a nice stylish business
card or head printed thereon at the GAZETTE
office at less than it costs to buy the blank
material at retail.

While Mr. Williams who lives west of
Monroe, on last Monday evening was coming
to Corvallis, he accidentally stepped over a
bank and fell so heavily that some of the
bones of his foot were dislocated. With the
assistance of his crutches, he can walk.

Why will people continue to use blank
envelopes, letter heads and bill heads, when
they can get printed heads and envelopes
at the GAZETTE office in the most approved
style at only a little more than the cost
of paper and a great deal less than they
buy them at retail.

The program of the State teachers Asso-
ciation to be held in Legislature Hall at
Salem, Oregon, commencing Monday even-
ing August 21st, and ending August 23,
1882, is on our table. It is quite lengthy
and varied in the number of exercises and
no doubt the occasion will be one of profit.

Wilson Bump of King's Valley, informs
us that his threshing company started re-
cently with a Pitts thresher 32 inch cyl-
inder. That they had run three days and
threshed three thousand bushels. One day
at Isaac Zumwalt near Lewisville the
machine threshed 1200 bushels. This seems
to be pretty good for a beginning.

A young gentleman from the surround-
ing country while in town recently com-

over. The recorder told him it would cost
about thirteen dollars which he paid thus
becoming a wiser man. We did not learn

sent him around to kick it over.

A CLOSE CALL.

Two Families in Water Twenty Feet Deep.

Last Thursday while Messrs. A. Pygall
and Mr. Hyte accompanied with their
families, undertook to cross Siletz river at a
spot where an Indian directed them,
although they had misgivings relative to
the undertaking, yet they started across.
The water, which was swift, became deeper
and deeper till all at once they went over
a "jump off" twenty feet deep. The wagon
became uncoupled and Mr. Hyte took the
two horses ashore. The bed of the wagon
arose with some of the children and floated
at a point within two feet of the top. The
ladies were holding to the bed, and Mr.
Pygall was swimming and helping the
children by pushing them forward when-
ever they came up, till all got out on dry
land once more. Mr. Swann afforded all
the accommodations possible as soon as he
came to the spot. Four Indians for the
sum of one dollar apiece dove into the
water and secured wagon, spoons, etc.
The Indians say it is impossible to cross at
that place at any season of the year. When
the first came to hand he began to explain
that he meant they could cross at that
place with a ferry boat which was on the
other side of the river. Both families ar-
rived safe and well in Corvallis last Sunday.

Fire at Albany.

Last Friday afternoon telegraphic infor-
mation was received here that an extensive
fire was raging in Albany. It appears that
the fire caught in an empty wooden build-
ing which had at one time been occupied
as a China house. This building was situ-
ated just across the street and down the
river from the St. Charles hotel, and at the
rear of another empty building fronting
south on the street. The fire extended to
the empty building adjacent to which had
been used as a saloon, consuming it en-
tirely, along-side of this building one door
farther down stream stood another wooden
building occupied as a furniture store which
was also consumed. Messrs. Tompkins
and McFarland's tin store along-side of the
latter building the tin roof of which was un-
soldered and damaged very much. The fire
extended across the street to the St. Charles
hotel burning the roof off from that build-
ing. The fire companies of Albany ex-
tinguished the fire from the St. Charles
hotel after the roof was entirely burned off.
Mrs. Hook who occupied the hotel removed
the furniture therefrom resulting in much
breakage and damage to it.

Send us News Items.

Our readers can greatly assist us in gather-
ing news items by sending us any news
that they may have in mind at any time.
Should a death occur in your neighborhood
you are under obligations to the public, in
general, to let the people know it. The main
object of the performance of the nuptials
is to give publicity to the marriage, and
this is all right; yet there are ministers
who perform these sacred rites, receive
their five dollars, and never send an item
of the matter to the county newspaper.
Now we want to know if this is right.
Educational matters are of intense interest
to the public. On account of the silence
some neighborhoods exhibit, readers would
readily conclude that nothing of a religious,
political, mechanical, professional, agricul-
tural, accidental or criminal nature ever
occurred in their midst. Send us news in a
brief style, and it will appear as neatly in
our columns as our facilities will allow.

Runaway Team.

Quite a severe accident happened last
Sunday. While Mr. Wallace Baldwin and
wife were riding in a two-horse buggy
with a team which had hitherto always
been quite gentle, on their way to visit
friends at Philomath, one of the horses be-
came restless and uneasy growing worse all
the time until she finally started to run.
She ran some distance and while crossing a
small bridge the buggy ran off tipping it
over and hurling both occupants headlong
to the ground. Mrs. Baldwin was severely
bruised in the face so badly that one side
of her face was swollen so badly that her eye
is almost closed. She received some other
injuries. Mr. Baldwin was quite severely
jammed on the arm, hand and side. His side
is perhaps injured the worst. It is sup-
posed that the fractious horse had a severe
attack of the colic and was trying to get
away from it.

A Fire Brand.

A rather curious circumstance came to our
ear this week. Mr. John Blanford who
stops at Mrs. Stilson's residence in the south
part of town, informed us that one morning
of last week Mrs. Stilson discovered under
the sidewalk in front of her house a large
piece of burned oak wood several inches
both in length and thickness. It was al-
most burnt to a coal and when found was
yet warm. One would suppose that dur-
ing the night some scoundrel had been on
his way to some place to commit destruction
and fearing that he was watched or pursued
put the fire brand under the sidewalk to
hide it. It is possible that the same party
got down as far as Albany about the time
of the recent fire there.

New Carriage.

The new carriage of which we made men-
tion of the top being put on last week by
Mr. Hemphill of this place, is a Corvallis
production all through. The wood work
was nicely and neatly made by Mr. L. L.
Hornung of this place. It was ironed in a
durable manner and in accordance with the
latest designs by Messrs. Hutton and
Hilliard, blacksmiths of this place. The
finishing touches were put on by Hon. F.
M. Wadsworth fine wagon and carriage
painter. It is an elegant piece of work and
a credit to the town.

Returned.

Cyrus Powers, who went East of the
mountains last spring in hopes of benefiting
his health, returned last Friday looking
somewhat improved although quite a severe
cough lingers with him yet. He has per-
chased a tract of land about six miles from
the Dalles, Waco county, and intends to
remove there with his family in a few days
to make that locality his future home.

VAMOUSED.

A Husband Crawls out of Bed and Deserts the Premises.

Not quite one year ago a man by the
name of John Parent, was married to a Mrs.
Hannon who lives just across the river from
Corvallis. Parent was not well known in
the country, but for a while apparently
acted the part of a citizen quite well.
However he exhibited a natural antipathy
to work. The family lived together moder-
ately agreeable till Sunday night July 30th.
All that is known is about as follows: Mrs.
Parent is a very sound sleeper. Her hus-
band got up some time in the night evident-
ly dressed only in his night clothes; he took
what clothing of his he could find and like-
ly went out of the back door, as a jar of
some kind in that direction partially awak-
ened her. Though she knew nothing of
what had occurred till morning revealed the
story. It was then that fresh boot tracks
were found leading in the direction of
Albany. On tracking them some distance
the tracks of three other parties were seen
to come together. These facts with others
very strongly intimate the idea that there
was a premeditated plan that he should so
leave, and others should accompany him. Why
one should act so in this land of justice and
liberty, is a mystery. We do not intend to
participate in family troubles; but we say
there is a proper way to adjust all unpleas-
antness, and when a man leaves under the
darkness of night, a greater darkness must
shadow his character.

A Chinaman Juggled.

For the past year there has been working
for the Warren Bros., near the Summit, a
Chinaman whose duty it was to do the gen-
eral house work, while the boys tilled the
ground and played the part of the "sturdy
farmer." Things went along very well until
last Tuesday when the almond-eyed in-
dividual got his "back up" about something
and concluded to come to town. The War-
ren boys didn't particularly object, but
knowing that he had rather a "taking" way
about him they thought best to have him
searched. A warrant was issued for that
purpose and placed in the hands of Constable
Smith, who, after some investigation, found
quite a number of articles in his posses-
sion belonging to the boys. He was then
arrested for petit larceny and brought
before Justice Aldrich, after which a jury
was empaneled and the Chinaman tried.
The prisoner was found guilty and sen-
tenced to a term in the county jail. Con-
stable Smith, accompanied by Mr. Claude
Warren, brought the heathen to Corvallis
last Wednesday and delivered him over to
Sheriff King, who showed him a suite of
rooms in the "calaboose" and is now a
guest of Benton county.

Received Orders.

Mr. Albert J. Ray of our town received
recently a photograph of Mr. Elvin Glass,
formerly of our town, who last summer was
appointed to the United States Signal
Service. His photo, looks natural. He
was one of twelve out of fifty who passed
a first-class examination and was the first
of his class to receive orders. He was ap-
pointed to go to Cincinnati Ohio.

Card of Thanks.

We desire to return our sincere thanks
to the friends who were so kind to us dur-
ing the illness of our little Hans, and so
tenderly assisted in caring for the little one
so near and dear to our hearts. Especially
those that were with us to the last sad
moments of his life; also those in the vicinity
of the cemetery who so kindly assisted in
placing the remains in their resting
place.

Steamer Benton.

A telegram over the line of the Oregon
Pacific Railroad announced that the ill-fated
steamer Benton had been repaired and made
her trial trip from Newport to Elk City on
last Saturday carrying the United States
mail. It seems that the reports of damages
that had occurred to her when she was
launched a second time was much exag-
gerated. It is fortunate that the news was
bad and not the steamer.

Thumb Out.

A severe accident occurred last Tuesday
to Mrs. Huffman. She was in Albany visit-
ing her sister and was holding a chicken
while another party performed the act of
cutting its head off. In making the stroke
the hatchet or ax glanced and struck Mrs.
Huffman on the thumb cutting the leader
and making a very severe and painful
wound.
