### MURDERED NEAR ONEATTA.

**An Old Man 75 Years of age and Youth 14 Years Old.**

Top of Their Heads Blown off with Shot Gun by Unknown Parties.

A telegram from the line of the O. P. R. R. from Yaquina, brought the following startling news:

YAQUINA, Aug. 17, 1882.  
On Wednesday morning Dr. B. F. Hutchison, aged 75, and an adopted son named Melvin McKee, aged about 14, were discovered at their place on Coffey Slough, about one mile southwest of Oneatta, murdered. They had both been shot in the back of the head, probably at close range, as the top of their heads were literally blown off. A shot gun or musket did the work.

Deceased had sold some cattle on Monday and had received a considerable sum of money in coin which could not be found. Supposition points to a certain person who has disappeared and the search for him so far has proved unavailing.

W. P. Stout, J. P., of Newport, held an inquest. The jury returned a verdict "that Hutchison and McKee were killed by gunshot wounds by unknown parties."

The people of the whole region are greatly excited and if the party, or parties, guilty of the murder can be caught, it will go hard with the cold blooded wretches. Mr. Thos. E. Parker was the first to discover the murdered ones.

**Run Aways.**  
Last Saturday Mr. W. A. Wells returned in the morning from the Brownsville warehouse and arriving at the postoffice here he found a letter which required an answer to founder station. The cars being about ready to start he turned his horse and buggy about and started for the depot under whip. When a short distance this side of the depot one of the shafts of his buggy came down and scared the horse. The horse started running and kicking at a hasty gait. He soon threw Mr. Wells out of the buggy bruising his head quite severely. Mr. Wells picked himself up after rathering himself all together, and proceeded to the depot to transmit his instructions down the road. The horse, however, retraced his steps and came tearing down street at break-neck speed. When he came to the corner at Mrs. Hemphill's restaurant he took the sidewalk going north running on the sidewalk all the way until he came to Jeffrey King's livery stable where he attempted to go into the stable, but the turn was so short that it caused him to end all heels up in the air, where he was compelled to remain until the buggy was taken loose from him. All occupants of the sidewalk gave way to him without a second invitation. The buggy was considerably demoralized and the horse badly bruised. All things considered it might have been worse.

**Child Drowned.**  
A report reaches us that the young 3 or 4 year old child of Abe Rizeror was drowned last week, in the lower Alsea valley.

We did not gain much of the particulars excepting that all except the child were absent from the premises and the river ran near the house and when the remainder of the family returned the boat in the river was turned up side down and the child was missing.

**A Boy.**  
We will pay a boy the cash twice each week who will come promptly at the appointed time and roll for printing the GAZETTE. Or we will pay a good active prompt and industrious boy the cash every Saturday night for his services who desires to enter our office to learn the printing business and continue until he learns the trade. The contract to be made with his parents.

**Broken Arm.**  
A report reaches us just before going to press, that Henry Elliott had again met with an unfortunate accident. The arm which he had broken a few weeks ago was getting well and the splints had been taken off, but it had not become stout. During night before last he fell down stairs, breaking the arm over again. Any further particulars we did not hear. It seems that his misfortunes come thick and fast.

**Moved for Health.**  
Mr. Cyrus Powers started with his family last Tuesday to his place about six miles from the Dalles, where he intends to remain in hopes of regaining his health. Mr. Powers has long been one of our most active firemen and the companies will miss him very much.

**Broken Leg.**  
On last Thursday at Monroe one of Mr. Wm. Garlinghouse's large stallions met with a severe and perhaps fatal accident in which one of his fore legs was broken near the body. He telegraphed to Portland for a horse farrier to come and attend to him.

**Business Education.**  
We can furnish at this office, to any person desiring a thorough business education, a certificate for a scholarship in the Columbia business college of Portland, Oregon, which will entitle the purchaser to a thorough course of instruction at this school.

**After All Else Had Failed.**  
SANTA CLARA, Cal., May 3, 1881.  
H. H. WARNER & Co.: Sirs—I suffered from Catarrh of the Bladder for three years. I employed the best medical aid to be obtained, but received no permanent relief. I tried your Safe Kidney and Liver Cure, and can now say I am well.

**MARRIED.**  
FOX—LEWIS—On last Tuesday Mr. Ignatz Fox of Albany, to Miss Fanny Lewis of Shedd Station, Linn county, Oregon.

**Philomath Items.**  
The health of the community is unusually good for this season of the year.  
Mr. Stroup who had his leg fractured a short time ago is doing well and will be around again in a week or so.  
Dr. Whitney is having a well dug and a large tank built for the purpose of irrigating his garden and shrubbery. The tank will be supplied with water by a wind pump, so by attaching hose to various places on the tank quite a large area of ground can be watered and kept green during the dry season.  
The Dr. while walking on the sidewalk stepped his toe, fell and fractured two of his ribs. If the Dr. was not a strict temperance man people would say that he had been to Hodge.  
Mr. J. E. Henkle will soon commence the foundation of his new residence in the east part of town. The building when finished will cost about fifteen hundred dollars and much to the beauty and appearance of our town.  
A nice baby chair passed through town the other day from Mr. Holmes Blair at the bay. This looks a little significant.  
Mr. E. Hartless' health is still in a critical condition.  
From the present indication both the college and the public school will be crowded with pupils the coming winter. A great many families are coming here to school their children.  
Philomath can boast of her pretty women, big babies and grand scenery.  
Prof. Walker and family have just returned from a sojourn at the sea side much improved in health.

**An Interesting Account.**  
MR. EDITOR.—I have not the time, nor have you the space, to allow an itemized report of another very enjoyable trip of mine. Last Monday, through the kindness of Mr. Johnson, my friend Mr. — and self, took passage for Long Tom, both of us having through tickets free. I went to say of the stream, that I have heard of Tom Walker of Nicanungus, and of Tom Marshall of Kentucky and some others, but this Tom is the Longest Tom I ever heard of, or saw. However it is bordered on either side with the most beautiful and fertile farms I have seen for some time. The far-stretching landscapes, one after another, all covered with golden grain, presents at once a scene unsurpassed for beauty and profit, and how harmoniously these two qualities blend. And along the stream with its green embroisery, ever and anon, you find the frugal granger strictly attending to his own business. A quality much to be desired. Along the road en route we pass in succession the farms of Hon. Greenberry Smith. Threshing is under full headway, and we see "rick" after "rick" of sacks of Oregon's valuable commodity. Now we reach the farm house of Rob't. Buckanan Esq., where we pause for a day or two. His well arranged and productive farm shows two essential elements in successful agriculture, skill and labor. What has been learned in the science of agriculture in college, is being practically applied by his sons. Unite muscle and brain, then
