New Mode of Harvesting.
A gentleman near Salem has been experimenting a number of years on a combined header and thrasher, and has so far perfected it as to cut a crop of wheat with it this year. It takes but two men and six horses to run it, and the inventor claims that he can harvest as much in a day as is now accomplished with fourteen men and twenty-one horses. His machine weighs 3000 lbs. and is pushed ahead of the horses like the ordinary header, and cleans the wheat as well as the ordinary threshers do. The experiment will be watched with interest.

To the Public.
Interested parties have circulated a report that since the arrival of the steamer Benton, the Mary Hall has not been plying on the lower bay—such stories are false. Since June 18th the Mary Hall has only missed one daily trip. The Mary Hall leaves Newport for Elk City every morning between 7 and 9 o'clock, arriving at Elk City between 12 and 1 o'clock; leaving the latter place she arrives at Newport between 5 and 7 o'clock P. M. the same day. She will continue to make regular and daily trips and hopes to meet the public demand without resort to deception. R. A. BENESS, Newport, Aug. 20, 1882.

Run Away.
Last Tuesday, we are informed, that while Chas. Read was running a self binder, his team became excited and unmanageable and ran away, which resulted in breaking the machine and demoralizing things generally. Our informant could not tell the extent of the injury.

Crippled.
Joseph Gerhard on last Tuesday morning while hauling a load of straw, it is supposed the straw slipped with him letting him slide down onto the horses which ran away with him. His side and front is badly hurt and perhaps some ribs broken. He also got bruised in and about the head and face considerably.

Young Man Gone West.
Wallace Baldwin started westward last Wednesday morning. He was accompanied by Mrs. Baldwin whom he expected to leave at Philomath. It was his intention to proceed from there down towards the ocean beach where he might engage his attention with the roll and line. His outfit was a peculiar one consisting of a couple of reels, a fly box, about a half dozen artificial flies, and a vessel that looked like it had once contained snake bits. There are likely serpents to be found down in that direction. When discovered they need to be fed.

Murder in Yamhill County.
Thursday afternoon about 5 o'clock Mrs. Petch, who lives at the foot of the mountains on the Tillamook road from North Yamhill, was returning home from North Yamhill in a wagon accompanied by her step-son, a young man of about 16, and when within a short distance of her house, some one concealed in the bushes along the roadside fired three shots, one of which struck Mrs. Petch in the neck, passing through. She fell from the wagon, dead. The horses ran off at the sound of the shots, but the young man managed to check them in a few rods, and after tying them up, returned to his stepmother, whom he carried home.

A Business Education.
The Portland business college established sixteen years ago has proven a success, and during the school year just past, was attended by over 150 students from 14 to 40 years of age, among whom were a number of married men and women. The school has a good reputation for thorough work, and is held in high esteem by those who have attended it and its graduates stand well among business men. Messrs. J. O. Wilson, J. W. Foster and F. L. Wright of this county have all been students in the school under the present management. The school is under the management of A. P. Armstrong as principal assisted by secretary J. A. Wesco who is one of the finest penmanship in the coast. The advertisement for the present year will be found in another column. It is needless for us to comment upon the importance and necessity of obtaining a thorough business education by all who can possibly do so.

Sherman's Circus.
The first performance of Sherman's circus company took place last evening and was attended by an audience which packed their large tent so that standing room was the order early in the evening. Since the appearance of this troupe nearly two years ago several important changes have been made to the variety of the exhibition due to the addition of artists of singular merit in acrobatic and gymnastic acts. The strong feature of Sherman's circus has always been the wonderful performances of his trained horses, and each season sees some new trick done by the intelligent animals which makes one wonder where the limit will be.
Last evening the two horses "Tommy" and "Barney" went through their lessons with all the precision of veterans, and the former seemed to enjoy his low comedy part thoroughly. The barrel-riding and vaulting of Mr. Joe Williams with his hairless horse was very daring, and Miss Kate Cross with her dashing steed "Danger," gave a brilliant exhibition of horsemanship. The most interesting part of the performance was that of August Siegris on the tight rope, who reminded us of the unequalled Gabriel Ravel. This afternoon a matinee will be given at 2 o'clock, when the prices of admission will be reduced to one-half. In the evening an entire change of programme will be given.—Chico Chronicle.
