If you want printed in the latest style nice letter heads, bill heads, envelopes, visiting cards, business cards, programs, ball tickets, note books, order books, receipt books, legal blanks, druggists labels, gummed or ungummed, or fine book or job printing of any kind, you can get them at the GAZETTE office at a trifle more than cost of labor and material. Call and examine them.

What successful man says of Advertising. My success is owing to liberality in advertising—Bonner. The road to fortune is through printer's ink—P. T. Barnum. Success depends on a liberal patronage of the printing offices—J. J. Astor. Frequent and constant advertising brought me all I own—A. T. Stewart. My son, deal with men who advertise you will never lose by it—Ben Franklin. How can the world know a man has a good thing unless he advertises the possession of it—Vanderbilt.

George left for San Francisco on the Queen last Thursday, on his way to Washington. Two dogs attacked a band of 32 sheep recently, belonging to Jesse McGee of Linn county, and killed six and wounded 13. Corvallis is being frequently visited with men selling patent rights of various kinds lately, some of which are indeed valuable. The weather has been fine and a better time for holding court could not have been selected by the best weather prophet in the country. We are requested by Nick Eessen to here by notify all persons indebted to him to come forward and settle up without any further delay. New goods just received and constantly arriving at A. J. Langworthy's Cash store, Corvallis, Nov. 10, 1882. Parties wishing to attend either of the business colleges at Portland, Oregon, can save something by calling at this office to purchase scholarships. An exchange says that fully 10,000 acres of land has been taken up in the northern part of Whatcom county during the past month by actual settlers. The latest improved sewing machine—not to be beat. Also guns, revolvers, ammunition, fishing tackle etc., at G. Hodges gun store, at bedrock prices. Large stock of candies a Sawtell's. We keep constantly on hand at this office a large lot and variety of stationery letter heads, bill heads, envelopes, and papers of different kinds which we furnish at the lowest possible prices. The Corvallis GAZETTE is one of the best advertising mediums in Oregon, because it goes to a large paying list of subscribers who are able to buy and pay for any article they see advertised if they want it. A wrestling match between Ed. Thayer and a young man from the rural districts was among the attractive features on Monday. The latter proved too strong for Ed. and the match was only of short duration. Why will people continue to use plain envelopes, letter and bill paper, when they can get them with a nice stylish business card or head printed thereon at the GAZETTE office at about what it costs to buy the blank material at retail. You will save your money by getting your printing done at THE GAZETTE Job Printing office. We have compared prices from lists furnished, and will guarantee to do as good work for less price than you can get done elsewhere. We don't ask patronage as "a favor" or "to help us" but purely on business principles. Why will people continue to use blank envelopes, letter heads and bill heads, when they can get printed heads and envelopes at the GAZETTE office in the most approved style at only a little more than the cost of paper and about what they buy them by retail. They tell us that the maddest preacher who ever trod the soil of Yamhill, was the one who was engaged to marry a couple a few days ago. The hour for the ceremony having arrived and the said preacher not being at hand the services of a Justice was secured and the "knot tied." In an hour or so the clergyman arrived and when informed that the contract had been sealed he was so wrathful that he would not even so much as sit down to a dinner where was served the highly prized "yellow-legged chicken." This will perhaps teach the reverend gentleman to be prompt on such occasions.—Reporter.

A fine variety of holiday goods just received at P. P. Grefcox. The steamer Bonanza pulled up to Cannon wharf on Tuesday. Your attention is called to the new advertisements in this issue. Read and be profited thereby.

Miss Rellia Wren, sister of Miss Becca, is at present visiting in the city and stopping at the Vincent house. Claude Warren of the Summit, passing through the city on Wednesday morning on his way to Portland, where he will spend a few days in business and pleasure. The Knights of Pythias are making the necessary arrangements to give a first class ball on Christmas night. Everything possible will be done to insure an enjoyable evening. If you want a good and fine job printing done as can be done anywhere on the Pacific Coast, bring your jobs to this office. We are prepared to execute it at the lowest possible prices. Our exchanges forgot all about the comet last week, but the gush of eloquence on the aurora borealis surpassed any effort perpetrated to describe the beauty of the long tailed wonder. Max Friendly has recently purchased all of the timber growing upon a large tract of land on an island above town. He will, in consequence thereof, be able to better accommodate those wishing lumber. Scarlet fever and diphtheria at New Tacoma W. T., are now under control. Extravagant reports have been made concerning these dreaded diseases but physicians say there is no further cause for alarm. Mr. Richard Nichols and wife, of Benton county, and Rev. John Wigle, of the same neighborhood came over on last Saturday and spent the Sabbath in this place. Mr. Wigle preaching in the Christian church in the morning.—Harrisburg Disseminator.

Messrs Cressy & Middleham, musicians and dancing teachers, have recently arrived from California and expect to make Corvallis their future home. They will soon open a series of social parties which cannot fail to be a source of amusement to the young people of our town. Mr. Will C. King organized a Good Templar lodge at Wells station one evening last week with sixty charter members. Mr. K. is doing a good work in this vicinity and members are being added to the several lodges throughout the country nearly every week. It will be seen by an advertisement in another column that E. C. Walker is prepared to buy wheat at the highest price, and farmers who have any of this cereal yet to dispose of will do well to call on Mr. W. at the Vincent House before selling. The best of reference given to parties desiring of selling. Cash advanced on wheat receipts. Through some oversight our issue of last week was made to say that D. B. Irvin, P. W. Ross, R. A. Bennell, Clark Copeland and Wm. Dundon with others there named, were admitted to citizenship, when it was intended to state that they were excused from acting as jurors for the term. Mistakes will sometimes happen in any event. The road between here and the Bay is in an almost impossible condition making it nearly impossible to make daily trips with the mail. The proprietors have made arrangements, however, to have the mail carried from Elk City to Little Elk postoffice a distance of ten miles, by other parties, so that the trip can be more easily made. Grand lecturer, W. C. King, accompanied by Mr. Bart H. Allen, C. H. Whitney and Dr. Embree, of Corvallis, on last Friday went to Philomath for the purpose of organizing a lodge of Good Templars in the event the people of that place desired it. But to their astonishment when they arrived to their destination they found that there was no room for temperance work there because all were temperance people and hence had no use for such a lodge. A good joke is told on some of Corvallis' saloon keepers which runs thusly: A young man who has been in our city for the past week informed several of our beer dispensers that he had accepted an invitation to lecture at one of our places of worship on last Sunday evening and that he would like to see them all present. The new lecturer being "one of the boys," on the appointed evening the church had quite a number of saloon men in attendance who expected to hear something rich, rare and racy. Their disappointment can be imagined when they discovered that it had been a "put up job" to get them to attend church, and were compelled to sit and listen to a few wholesome facts for nearly an hour.

Mistaken for a Deer. Another piece of careless shooting is reported on the Calipsoos, says the Albany Democrat. Two brothers named Murphy, were out hunting when, having separated, one mistook the other for a deer and shooting, sent a ball into his breast, inflicting a bad wound, if not a fatal one. These kind of accidents are becoming too common and it is time that more care was exercised by hunters. Human life is more precious than the possession of a deer.

Subscribe. Will furnish the American Agriculturist together with the GAZETTE both for one year for only three dollars and fifty cents.

A Desirable Purchase. 7 acres in the north portion of the city of Corvallis to be sold immediately. House and improvements. What offers? Apply at once to C. H. NASH, Corvallis.

COHEN-JACOBS—At the residence of the bride's parents in this city, on Thursday, Nov. 23, 1882. Mr. Charles Cohen of San Francisco, and Miss Dorena Jacobs of Corvallis. The wedding was a grand affair and a large number of friends were present who expressed themselves as having spent a very enjoyable evening. Mr. Chas. Cohen is a young man well known in commercial circles of this coast as an honorable straight-forward gentleman. Miss Dorena Jacobs is one of Corvallis' talented young ladies and her many friends wish her all the happiness imaginable. The list of presents received was very large, many of which were indeed valuable. Complimentary telegrams were received from various portions of the country, and two from Europe to Mr. Cohen.

Correction of a False Impression. Corvallis Or. Nov. 28th 1882. I take this method to correct an impression that has been put in circulation by some few individuals, residing in this city, as the Portland Standard, wherein they charge Judge H. Harley, of Yamhill county, with the false accusation of causing the arrest of Miss Mary Hurley, on the charge of insanity. I wrote to Judge Harley first telling him that Miss Mary was wrong and that there had to be something done with her that I could not get along with her any longer. He came up here at my request; I take all the responsibilities on myself for the action taken in Miss Hurley's case and if any soft brained attorney or town meddler wants to crack their whip over my man's back, I am their man. Judge Harley has had to bear his share of his sister's afflictions without being libeled by a set of busybodies in other peoples matters. The daily Standard please copy. ANDREW EMERICK.

Items From King's Valley. EDITOR GAZETTE:—The general health of the people of the valley is good. Miss Mary Jeffries of Newport, is visiting here, the guest of Mrs. Samuel Chambers. Miss Wood of Blodgett's valley is stopping here to attend the meetings. Censer and Croeno are doing a lucrative business with their general merchandise store at the Summit. Mr. Henry Chambers and J. Frantz are jurors at the present term of court in Corvallis. Mr. J. Conner, Wm. Baggett, and others are absent attending circuit court. The saw-mill of Conner & Frantz, will close for the season in about a week. This enterprising firm furnished a large amount of dressed and rough lumber the past season for the general market. A series of meetings are in progress at the Evangelical church under the auspices of Rev. J. Hollenbaugh, of Albany. The large attendance and fixed interest harbingers a very successful meeting. Apparently the recently passed game law is non-effective in this part of Benton county. The people here favor protection for deer, and other game, but they do not acquiesce with our law makers in passing a law to favor city sports and chronic loafers. They propose to get even with them by stringently enforcing the trespass law. Every day hunters are seen going to and returning from the mountains. Much to the regret of many citizens here no school was opened this fall. At the proper time no teacher could be secured and now as it has grown late in the season they do not wish to hire one. A Good Templar order is in operation here, it was organized under the supervision of W. C. King, of Wisconsin. The membership numbers 40 and the interest is excellent. Mr. Dillard Price and family left several months since for California; when they reached Jacksonville they concluded to stop until spring. The sad news reached here last week that his wife died; accordingly Mr. Mr. W. Price went there to have her brought here if possible for interment. She was a sister to Mrs. W. Price and Mrs. Plunkett who feel much solicitude for the bereaved husband and motherless children. They have the sympathy of the entire valley. ROYEN. Nov. 24, 1882. Good assortment of stationery at Sawtell's.

A Steamship Race. The Danish steamship Volmer left Hong Kong for Portland Sept. 29th, carrying the invoices of the British steamer Madras, also bound for that port. The Madras sailed from Hong Kong six days afterward, passed the Volmer coming out as she entered Fuca straits, discharged cargo and passengers at Victoria and overtook the Volmer off Columbia river bar. Steaming past the latter in the river, the Madras arrived in Portland 13 hours ahead of the Volmer and her invoices. Theatre. The theatrical loving people will do well to examine closely the ad. of Andrews & Stockwell, whose troupe performs one of their star plays at the City Hall on the night of Dec. 5, 1882. Chinese Must Go. It will be advisable for all concerned to see the ad. of John Wm. Moore, under the head of new this week, in which he promises to do better and cheaper work in his line than ever done before. Steam power and quick work.

Clatsop County. Astoria. Mr. C. J. Tranchard has resigned his position as agent for the tug Pioneer. Mr. Cherry succeeds him. The British ship Peter Stuart, Vanstone master, 1447 tons, 50 days from Otago, arrived in yesterday. The two young men—Jarvis and Parker, who started from Hennis' place for Naselle, about two weeks ago have been given up for lost. Yesterday afternoon a new boiler was launched from the boiler works of the Astoria Iron Works. It is nothing but a boiler just a plain boiler, but it is the first one ever built in Astoria, and therefore deserving of special mention. It is reported that Z. J. Hatch, the former proprietor of the steamer Yaquina, contemplates the building of another vessel similar to the one lately sold, to be used in the trade between Yaquina bay and Portland. Another vessel will be put on that route, owned and run by a joint stock company, next season. Mining News. Jacksonville Times. The miners of Foots creek are ready for water, while Goldworthy & Justus, Cook & Co. and some others are already washing some with the aid of reservoir hands. Derickson & Co.'s mill on Horsehead is not running, as some necessary machinery still lies at Riddleburg. They are taking out a large amount of excellent quartz while waiting. The Sterling Co. has enough water to run three-inch nozzles. Unless freezing weather, or interferences, Sept. Ennis expects to have a good supply soon. So far, the season is more favorable than last. Lames Klippel and W. S. Brodbeck who have been mining on Dividend bar, returned to town this week, finding the weather too cold for expeditions mining. They made good wages while at work. R. J. Cameron informs us that Gin Lin has a good supply of water and is running two pipes. The ditch leading to his Palmer creek diggings is nearly completed and that piece of property will also soon be put in shape for work. Bybee, Newman & Hawckett have completed the ditch leading to their claim near Waldo and will soon be ready for work. This line of ditch is several miles long and was completed under adverse circumstances, requiring a vast amount of fluming and hard work. Call at Sawtell's for Christmas goods.

How a Mistaken Theory Nearly Cost a Well-Known Minister His Life. Chicago Standard. The following remarkable statement, made by a well known Baptist clergyman, besides the usual matter of value it contains, will be found most readable and interesting: MISANS EDITORS: I have always believed most firmly in the brotherhood of men, and that every human being is in duty bound to assist his fellow man to the fullest extent of his power. The relation, therefore, of my personal experience will, I trust, prove of benefit to many thousands in this land. My earlier years were full of health and pleasure. After the completion of my educational studies I undertook the profession of teaching, and under the strain to which I was subjected I gradually became reduced so that the least exposure or excitement would bring on sick headache, biliousness and general prostration. I gave up teaching and began to prepare for the ministry, and although I studied hard my health seemed to grow no worse. Finally I commenced preaching, and then my old physical troubles returned. The slightest amount of certain kind of food distressed me and brought on heavy dullness, dizziness and often great depression of mind. A change of room, atmosphere or clothing was almost certain to cause a cold, accompanied by most painful suffering. I attributed all this to the severe work I was obliged to do in the ministry, and so did not attempt to remove it. I next began to grow nervous and noticed that my feet were cold, while my left side and back frequently pained me. I felt a drowsy and sleepy sensation after eating, while a little excitement caused me to lose my appetite entirely. At times my spirits would be light and I would feel as if I might live to a good old age, when possible in less than an hour my head would reel, my body ache and I would be overcome with a deadly sickness. After such an attack a cold sweat would break out upon me and this would be followed by complete prostration. It would be impossible to de-

scribe the suffering I endured at these times and yet I attributed it all to overwork and not to any special trouble or disease. It was more than year from the time the attacks first began that I consulted a physician. He examined me and declared that my lungs were affected and that I was on the road to consumption. I decided this idea and so I called upon another doctor. But he told me the same thing, as did also the other medical men whom I consulted. Indeed, they all informed me that unless I went to Colorado, Dakota or the sea coast there was little hope. However, I did not change climate, but tried to continue my work as best I could. A year ago last May in the November and December following I had three severe attacks of what the doctors said was lung fever or pneumonia. I recovered from these by the faithful nursing, but I felt all the time as I know now that my troubles did not originate in my lungs, but in some great organs of the body. It is true, I felt severe pains in my lungs and I experienced a great deal. I was extremely sensitive to colds, and the least draft or change of apparel tended to bring on a cold. My breathing was often most difficult and it frequently seemed that with all my exertions I could not get enough air into my lungs to satisfy them or keep my blood pure. As I am large in stature, weighing over 200 pounds, and being in the prime of my usefulness, you can imagine how I shrunk from the inevitable fate which seemed to stare me in the face. On Sunday, last February, upon coming down from my pulpit, almost prostrated and feeling that possibly it would be the last time I should ever enter it again, a member of my church appeared to me and said: "Brother Humphrey, I know just what you need to restore you to health. I have been troubled just as you are and am perfectly well now." I thanked him for his suggestions, but shook my head sadly, for I felt that there was little hope for me. However, after I returned home I began to reflect upon the subject, and finally sent my son to procure some of the medicine which had been so highly recommended. If faith were an element necessary to the success of a medicine, it was certainly lacking in this case, for I was really hopeless. Greatly to my surprise, however, I began to feel much better, and the following Sunday I was able to preach with comparative ease. I continued to grow better as I continued to use the medicine, for it seemed to reach my entire system. I was able to preach, sing and work without exhaustion, and today I am a well man, sleep soundly, eat heartily, feel no lung trouble, and I believe I owe my life and health wholly to Warner's Safe Kidney and Liver Cure, which I consider a benefaction to suffering humanity. It is natural that since my recovery I should feel enthusiastic over the remedy which has restored me and also observe its effects upon others. As a result, I am forced to the conclusion that very much sickness which is supposed to originate in the lungs, arises wholly from disordered kidneys and Liver. I believe thousands of people are suffering to-day and are looking forward, as I was, to a consumptive's grave, when their lungs are wholly sound and they might be restored to perfect health by the same means that I employed. Believing these truths and realizing their importance to the world, I come thus out openly, and say that I believe, under God, this remedy is a public benefaction, and I would most cordially and earnestly commend it to the world as a blessing to humanity. (Rev.) R. F. HUMPHREY, Pastor Baptist church. AMBOS, Ill., July 24, 1882.

STEAM POWER! Chinaman must go—its cheap to use steam and cut ones. Your wood will burn better and last longer if you get JONNY MOORE'S STEAK SAW a hold of your wood. Try it and you won't have any other. He is always ready. I would state to the farmers of Benton and Linn counties that I have a small portable steam saw mill and am ready to make contracts to saw FUR POLES FOR FENCING. They make a very heavy fence. Commence now and cut your fur poles and pile them in piles or risk them and come and see me. I mean business. JOHN WM. MOORE. I am now building a PILE DRIVER! to be used on the Willamette river and will in a few days be ready to drive piles any where along the Willamette river. Warehouse men and saw mill men will do well to GOME AND SEE ME. I also have a land driver and will take contracts to drive piles anywhere in Polk, Benton, Linn and Lane counties. Use steam power.
