**Teachers' Institute.**

Prof. E. B. McElroy State Superintendent arrived in our town on last Saturday evening looking hale and hearty. He had just left Oregon City where he had been for the purpose of organizing and attending a teachers' institute at that place which began on Christmas day. He reported having had a good time there in the interest of education. In the published proceedings of that institute among other persons there present we noticed the name of B. L. Arnold, president of the Agricultural college, who was there tending his presence and counsel in aid of education. Teachers' institutes are certainly very necessary in assisting to bring about the best methods of teaching and they should be encouraged everywhere.

**DIED.**

THOMPSON—On Saturday, Dec. 30, 1882, at East Portland, S. H. Thompson died quite suddenly.

He was for many years engaged in the general merchandise business at this place and was an energetic and active man. Unfortunately however a niece and daughter of his deceased brother died a few years ago from the effects of diphtheria at which time the subject of this sketch took her loss so hard as to deprive him of his reason. Since that time his mind has been so badly affected that it was necessary to confine him in the asylum at East Portland. After his death his remains were brought home to his family in this place, and on Tuesday last they were deposited in the Union cemetery about five miles west of town.

**The New Years Ball.**

Not for many a year has the lovers of the ball room enjoyed themselves better than on New Years night at the hop given under the auspices of the Knights of Pythias, in Hamilton hall. A new canvas, the entire size of the room, had been procured and spread during the previous week which added much to the enjoyment of the giddy gliders. The attendance was large and several parties from our neighboring town were in attendance whom we hope feel repaid for their visit. An excellent supper was served at both the Occidental hotel and Mrs. Hemphill's, at near midnight, after which they again repaired to the hall and mingled in mirth and music until the halloings of the roosters reminded them that the "dawning of the morning" was upon them. All in all the affair was a decided success and was not only creditable to the managers but added handsomely to the lodge's exchequer.

**Collation.**

The cars ran into each other at New Tacoma on last Monday morning cars badly and injuring only one person the conductor.

**ANOTHER TRAGEDY.**

Vigilantes Turned Loose Again—One Man Fired Upon while Playing a Social Game of Cards.

Two Others Hung to a Juniper, and Afterwards Shot—Three Violent Deaths in a Single Night!

We received a letter from our correspondent at Prineville Thursday night of last week about the time of going to press and too late to get the news in our last issue. It simply announced the killing of A. C. Swarts at that place on the 22nd of last month by a shot aimed at him through the window of a saloon, and the hanging on the same night about two miles from town of Lester and Huston by unknown men. The following is the account given by an extra of the Prineville News on the subject:

"On yesterday morning the citizens of Prineville were thrown into a fever of excitement upon hearing of the shooting of Al Swarts, a resident of Ochoco, and who had been stopping in town for the past week. A party of six were playing a social game of cards at the Exchange saloon on Friday night, when suddenly a loud report of a shot gun was heard, and the glass from the window near the card table was shattered, and blown in every direction. Mr. Swarts, who sat next to the window said that, 'that was a-b-h-m-a good shot,' and then it was discovered that he (Swarts) was shot in the back and side of the neck, ten or twelve shot taking effect. The wounded man was taken to the Occidental hotel, and died at about 10 o'clock, on yesterday morning. To the law-abiding citizens this foul murder was shocking enough, but feeling was increased when parties came in from the country, and told of the discovery of two men hanging by their necks to a juniper. This last tragedy took place about three miles east of town, near the Ochoco. Upon hearing this the proper officers went to the place, and an inquest was held, the verdict of the jury being that the bodies were those of Syd Houston and Chas. Lester, and that they evidently came to their deaths by being hung by the neck, and from gunshot wounds in the head, all indicated by unknown parties. The verdict of the jury at the inquest upon the body of Al Swarts was that said Swarts came to his death by gunshot wounds in the neck and head inflicted by parties unknown.

Al Swarts has resided several years in the valley of the Ochoco, being engaged in the stock business. Syd Houston has also resided in this section, following the business of horse raising. Chas. Lester was a late arrival here, of no particular occupation, but claimed to be a practical jockey. Deceased came to this place from California a short time ago. He has no relatives here.

Under the above caption we have no comments to make now. The generally accepted reason for such work is repeated acceptances, many of which have been successful, at sporting houses out of this section."

**Shooting Match.**

A shooting match took place just south of and adjoining town on New Years day. Turkeys were put up for from one dollar and fifty cents to two dollars each and the contributors decided upon the manner in which they would shoot for the game. Chickens were tied three together and put up for a dollar a bunch. There were a number of persons present who were excellent shots. A turkey was shot at with a revolver about seventy-five yards by Ruben Kiger the shot taking effect in the birds leg. Mr. C. H. Whitney made another pistol shot at the same bird the same distance striking center in the body. Mr. Draper, Geo. Wagner, McLagan, and Frank Wright, Stroud Long et al appeared to be among the best rifle shots. All of them getting away with a turkey.

**Death.**

We received the sad intelligence last Thursday too late after going to press announcing that Thompson D. Hinton Son, living near Monroe died of erysipelas. He was an early pioneer of Oregon and was long and favorably known in the history of this state. He leaves a widow and large family of children and large concourse of relatives and friends who mourn his loss. His remains were deposited in the burying ground near Monroe on Christmas day. He was a very young man when he first came to Oregon. Peace to his ashes.

**Body Found.**

Arthur Brasfield who recently came out from Newport brought the news that the body of Simpson, one of the men who was drowned in the Yaquina bay recently, was found on— of last week near Cape Foulweather. The head was entirely severed from the body and gone. All of the clothing was also gone except his boots and socks. By the boots and socks they were enabled to identify the body.

**Copper and Iron Mines.**

A number of the residents of Jacksonville, Oregon have formed a stock company for the purpose of locating and working some copper and iron mines in Josephine county and parties are now out making the locations. Those who are posted say they have struck a bonanza.

**Dramatic Entertainment:**

Owing to the extended report of the late teachers' institute of this county our space was too limited to admit of giving an account of the entertainment at the City Hall held on Wednesday evening of last week. The spacious hall was well filled and the entertainment was a success. The music by various parties, "Fireman" recited by Sol Stock, "Death bed Scene," by Miss Bertha Neugass, Duette by Mrs. B. L. Arnold and Miss Julia White, "Daughter Arise," by Wm. Emery and "Donador Del Carlo," recited by Miss Lizzie Hamilton, were all performed quite well. To cap the whole affair the next was a drama entitled "Bread Upon the Waters," performed by eight characters and was performed in the very best manner entirely by Corvallis talent. Dr. Harlen an elderly gentleman a teacher and proprietor of a private school who stood well in life and whose mind was seriously affected by false accusations of forgery having been made against his wayward son, was well represented by Mr. N. L. Raber. Harry Harlen the Doctor's son, who was falsely accused by his schoolmate and false friend and pupil of his father, was well performed by David Osborn. Fred Hastings who falsely accused young Harlen and whose habits of dissipation had partially led the Dr.'s son estray was well represented by W. H. Losh. Bob Winders, schoolmate of young Harlen and Hastings and who was a fast under all circumstances, sticking by him under all circumstances, the stern engine. Our hopes however were doomed to disappointment. But yet we still have hope and by next Christmas, if what we hear be true, we shall be in communication with both Yaquina bay and Corvallis, and then our patience will be rewarded.

We are enjoying some lovely weather but the wind is a little bit too cold for a Webster. The weather has been unusually mild here this fall, there is abundant grass and stock is doing well.

A considerable land-slip occurred close to the entrance of tunnel No. 1 last week but no material damage was done. As they are about out of timbers, some more will have to be hauled from the sawmill. This will necessitate the repairing of the tramway which was badly injured by the late freshets.

Misses Dolly and Mary Savage have been very ill the past week. Dr. Smith of Corvallis has been attending them.

There was a shooting match at Jasper Miller's on Christmas day when several turkeys were placed hors de combat or night-fall. There is also to be another at Charlie Mayes' tomorrow.

Messrs. Connor & Cronos of King's valley have a branch establishment near the Mountain house and are doing a fine business under the able management of that polite and business like gentleman Mr. Thomas Fish.

My interpretation of the game laws is to the effect that from the 1st of January to the 1st of July, no deer of any kind whatsoever may be killed for food or otherwise. Is this correct? If so hunting with hounds is of course prohibited. Hounds do more damage to the game than all the still hunters in existence. Our legislature should have made war on hounds instead of on still hunters. A tax on dogs would have been in the right direction.

[Ed.—Our understanding is that killing deer is prohibited during the time above named in Mr. Nash's letter. Yet we are unable to say positively because we have not yet been able to get an authentic copy of the late game law, the same not yet having been published.]

T. SIDNEY NASH.
