Weekly Corvallis Gazette.

FRIDAY MORNING, APR. 6, 1883.

Entered at the Postoffice at Corvallis Oregon, as second-class matter.

—EDITED BY—

M. S. WOODCOCK,

ATTORNEY AT LAW.

OFFICIAL PAPER FOR BENTON COUNTY

In America are the most extensive fire departments in the world.

Bismark's war on the American hog will likely be followed by preventing German wine from coming to America.

Six thousand men are at work on the Panama Canal. More than half of the line is under contract and the company is at work on the other parts.

It was announced that President Arthur would leave Washington last Monday or Tuesday for a visit to Florida for rest and quiet. Secretary Chandler will accompany him.

The diamonds worn by New York bar-tenders are said to be worth $350,000. The Philadelphia News remarks that the carbuncles worn on the noses of New York bar patrons probably cost about $5,000,000.

A lady of experience observes that a good way to pick out a husband is to see how patiently the man waits for dinner when it is behind time. If he doesn't do anything more violent than kick the furniture and blaspheme he is a mighty patient and good-natured man.

Morgan, presiding elder of the Mormon church, left Chattanooga, Tenn., recently with 150 converts for Utah, from all parts of the south. Ninety missionaries in the South claim 600 converts annually. Such is the manner in which the United States government exterminates Mormonism.

The question as to whether a husband has a right to exact that his better half shall build the fire is to be settled in Indiana. A minister's wife has raised the issue in a suit for divorce. The jury in the case have a solemn duty to perform. This is a time when married men should stand together.

Five sharp and distinct shocks of earthquake were distinctly felt about twenty minutes before eight at San Francisco last Friday morning. Farther south crockery and plastering were broken. At Hollister, San Benitis county, plate glass windows were smashed and brick buildings cracked.

It is said that the department of agriculture near the city of Washington will soon establish an experimental farm and hospital for the treatment of domestic animals, with a view to ascertain, by a series of experiments, what are the causes of diseases like Mexican fever, pleuro-pneumonia, &c., and the best methods of prevention and cure.

The treasurer of the United States on the first of the present month showed in the treasury of gold coin and bullion $184,324,368, silver dollars and bullion $107,270,694; fractional silver coin, $27,802,422; United States notes, $44,536,262; total $363,833,738. Certificates outstanding gold, $45,179,910; silver $75,088,490. currency $9,680,000.

At the meeting of the Woman's Suffrage Association one evening, one of the speakers said: "We come armed with the knowledge of the past." Every married man knows that when his wife comes at him, armed with a knowledge of the past, he has got to do some pretty tall talk to make that past seem all right.—*Boston Post.*

The Niagara Falls Bill, which has passed the New York Assembly and is now in the Senate, provides for the appointment of a commission to select ground around the Falls which shall henceforth be reserved by the State in order to preserve the scenery of the Falls and to remove such defacements as owe their presence to the greed for money.

Six railroads in Missouri received aid from the State to an aggregate amount of $20,701,000, and all six have been sold, the State realizing 5,936,300. There was a net loss, therefore, on these roads of more than $14,000,000, besides several millions of interest on the railroad-aid bonds, which the roads failed to pay, and the State was obliged to provide for. For $3,000,000 of bonds issued to the Hannibal and St. Joe road no settlement has yet been made.

TRADES UNION SUED FOR CONSPIRACY.

A case of much interest to Trades Unions was begun in the Courts at Denver, Col. Frank & Putnam, merchant tailors, sued the Tailors' Union for conspiracy and fraud, charging that the Union forced journeymen to quit work if wages agreed upon were not increased. They refused, and the workmen quit. They charge that a large amount of work was contracted for on the basis of these prices, of which the Union was cognizant, and threatened if their demands were not conceded they would destroy their business. All such proceedings where men combine together to induce others to strike for high wages or for any other cause are certainly punishable for conspiracy.

FREIGHTS AND CHARTERS.

After a long cessation of business a British iron ship has been taken for Cork, U. K., at £2. Since then an advance of 2s 6d is demanded. March has been a dull month for grain charters, but as there is quite a surplus stock of wheat yet in the State, we look for a renewed demand particulary as within three days past we have had a rainfall of about three inches over most of the State, which would seem to settle the question of an abundant harvest. There is now on the berth only 9,000 tons for wheat loading, against 62,000 tons one year ago. The disengaged fleet is 67,000 tons, against 13,600 tons same date last year. The fleet to arrive is about 176,000 tons; same time last year, 242,000 tons, and 176,000 tons in 1881. The present outlook is certainly very encouraging to ship-owners for another good freight year. —*San Francisco Commercial Herald.*

LAND GRANTS AND STATE CLAIMS.

As predicted, the corporations whose land grants are subject to forfeiture, are making hay while the sun shines, during the recess of Congress, expecting to make so much progress before December, that it will not be possible for Congress then to forfeit their grants. The President, for instance, has recently accepted a very considerable section of the New Orleans and Pacific Road in the State of Louisiana. This is the road which the Attorney General said last fall was entitled to its patents. But Secretary Teller withheld them, in the expectation that Congress would take some action concerning them. This has not been done, and the acceptance of the finished road by the President carries with it the patents for a considerable portion of the grant.

The Commissioner of the General Land Office has been notified that the Governor of Iowa intends to proceed against the department to recover the amount of public lands due the State, as shown by the books of the Land Office.

VALUABLE IMMIGRATION.

The Oregon City *Enterprise* of March 29th says: It is rather remarkable but nevertheless true, that ninety per cent of the immigrants which arrived during this month by ocean steamers are actual settlers and come well supplied with funds. Ten per cent. are mechanics and laborers. The agent of the bureau of immigration, who meets each steamer at Astoria, said that the average amount brought by a family is $1000. In one colony of 86 Swedes and Norwegians who arrived from Michigan, Wisconsin and Illinois last week, the lowest amount held by any one family was $500; and the highest amount $5,200. This was learned by the agent, one of whose duties is to identify immigrants so they can get their drafts cashed at the banks. About forty per cent. of the immigration is foreign born, and about ten per cent. come direct from foreign ports. Of the whole number who arrived this month about sixty per cent came from the Mississippi valley, and a considerable number from Southern California, principally from Los Angeles and San Bernardino counties. About half the arrivals have started to the Inland Empire to immediately select lands and begin cultivation while a good share of the other half have secured cheap homes in East Portland, in the outskirts of this city and in surrounding towns, and the "men folks" have secured employment for the summer on railroads and farms and in logging camps. They will add to their store of money and prospect for land this fall. A number of single men have been sent to Weidler & Ordway's logging camp, back of Oak point, where they earn $35 a month and board. Rogue river valley is receiving a large immigration from northern California all coming overland and taking up farms in the mildest part of Oregon.

HOME FINANCES.

The *Commercial Herald* of San Francisco says that the copious rains that have fellen since Monday of this week have imparted a most hopeful outlook to every department of trade inspiring all with renewed energy and inducing the advancement of enterprises that would surely have remained dormant for an indefinite period. The jubilant news comes from every section that good crops will be our portion, and that every enter rise will receive stimulating encouragement of a prosperous season. Here, in the Metropolis, it has revived the drooping spirits of financiers and commercial firms, and even the wide world will rejoice that California will not lack in returning a large cereal crop for these bountiful providential favors. The prospects of a drought here had already figured largely in the speculations abroad, and such comment had already been made upon the possible failure of our crops, so that it will be seen that our wheat product is an important factor in the world's consumtpion. Our financial resources continue to be fully adequate for all purposes, and its more ready employment under the favorable existing circumstances will bring better rates than have been heretofore obtained. With a somewhat lessened amount in bank, occasioned by shipment East and an otherwise more general call, fair discount rates may be named at 7@8 per cent for choice paper, exceptional accommodations being made at somewhat lessened figures.

THE UNTERRIFIED IN NEW YORK.

It is evident that Gov. Cleveland must very soon show his disapproval of the sordid and spoils-hunting policy of his party if he would preserve his reputation for fairness and elevation of purpose, says the New York *Times*. The Democratic managers who rule in Albany are bent on converting every scrap of official patronage into partisan capital. While measures of large public interest are neglected. The Democratic majority in the Legislature are engrossed with searches for new opportunities for place-hunters. Indeed, it would appear as if there were nothing so distantly removed from politics that is not reached for, and nothing too small and mean to sweep up into the party feeding-trough. The scheme to add 1,800 to the already large number of notaries public in the State is only one of many evidences of the absorbing greed of the Democrats. The general overhauling of the politics of the notaries now in commission is said to emanate from the office of Gov. Cleveland. It is in the interest of the Democratic Party. Petty schemes like this may not have the Governor's sanction. Their constant multiplication will ultimately compel the Governor to declare himself as opposed to or in favor of a policy of spoils-hunting.

SHIP BUILDING.

During the year 1882 there were built in nineteen ports of the United Kingdom ships having an aggregate tonage of 1,200,000, an increase of 20 per cent. The tendency is toward the construction of larger vessels than heretofore, the average now being 1,347 tons. The largest vessel built was of 7,500 tons burden. The cost of building is now 15 per cent greater than in 1880 and 1881, owing to the augmented price of iron and steel. But to offset this is the great increase in the commerce of the world, especially in the transportation of new products. Ex.

SENTENCE.

Laban Saunders who was found guilty last week by a jury of this county before whom he was on trial of taking too much liberty with a neighbors steer, was sentenced last Friday by the court to one year in the penitentiary. If he had commenced boarding at the States expense twenty years ago and continued there till this time it might have been the means of relieving his neighbors of much anxiety.

The amount of currency outstanding is greater than at any former time in the history of our country, and yet New York speculators seem able to make money tight.

The losses by fire in this country on the 16th of last month were over $700,000. We average in burning up a quarter of a million dollars worth of property every day of the year, Sundays included.

Horse Posters.

We have recently received at this office, a new Cut to represent the Percheron and Clydesdale stock of horses, besides having a lot other cuts on hand. All person wanting stock or horse posters we can print them with a cut to suit most any style of horse.

GENERAL NEWS.

Oregon City *Enterprise*: The greatest loss that Clackamas county has suffered in its history is the loss of so many valuable horses from staggers. This could have been prevented in a large degree by proper precautionary measures.

The Port Townsend *Star* says that Mr. Bartlett, of that city, who purchased a valuable coal mine on admiralty island, Alaska is in receipt of a letter from the N. P. railroad company asking for information, intimating a desire to purchase the full right to the property.

The Tacoma *News* says: The freight business by rail and steamboat is rapidly increasing. A daily freight train with three cars is now the rule between New Tacoma and Kalama, and every steamer brings and takes an increasing towage. The Elder brought this week 223 tons of freight for this port and 51 tons for Olympia. The great quantity of coal brought in daily from the coal mines and shipped to all parts of the coast, adds largely to the freight traffic of the Northern Pacific railroad, and to the business of this city and vicinity. Although but little noise is made about this business, its importance and almost certain growth indicates clearly New Tacoma's future as a shipping and commercial point.

The house of Mrs. Cattron, at Monmouth was destroyed by fire last Thursday night. Insurance, $800.

The Ballston Flouring Mills Co. has been incorporated by Henry Gable, Isaac Ball, S. A. Riggs, Cyrus Buell and others. Capital stock, $20,000.

Forty-two immigrants, from Kansas, arrived at Lewiston, Idaho Ty., last week, and will locate near that place.

The railroad survey up Snake river has progressed 51 miles. They are now in the hardest part of the canyon. Chief Engineer Clark is with the party coming down. The instructions are to hurry the survey and lay the grade stakes as they proceed.

Track laying on the Palouse extension began last week.

Another colony from Iowa has arrived and located in the Big Bend country.

The new uniforms for Columbia lodge, K. of P., at Walla Walla, have arrived.

Blankenship, the printer reported missing from Walla Walla, has turned up safe.

Mrs. Erance, one of the first women to locate near Spokane, recently died at her home near the falls.

The Dayton *Chronicle* will this week begin the issue of a daily edition. It will be a 20-column evening paper. As they publish a most excellent weekly there is no doubt but that the daily will be newsy and prosperous.

Crickets have already made their appearance in vast numbers in Sprague river valley, Klamath county. The unusually pleasant weather brought them out several months sooner than usual.

A drunken Indian in Pendleton one day lately, caused the entire town to rise up in arms, in anticipation of an outbreak, and after he was surrounded he quietly walked away about his business.

It is reported that the O. & C. R. R. Co. has bonded considerable property from Skipanon creek, past Tanzy point and down to Fort Stevens, for terminal facilities.

The Ashland Woolen factory is now running to its fullest capacity.

The Rogue river distillery is receiving grain and will soon be ready to commence operations.

The peach crop in Columbia county, W. T., will probably be a total failure. Apples and the more hardy fruits will be quite plentiful.

Strawberries are in blossom in Calapooia.

Elk Head, Douglas county, wants a grist mill.

The whooping cough is prevalent in and about Cornelius.

Mc Curdy, P. O. in Klamath county, has been discontinued.

The late rains have flooded some of the bottom lands near Beaverton.

A flock of Japanese sparrows were seen recently near Forest Grove.

The *Times* says: There is great demand for stock of all kinds from abroad and several thousand head will be driven out of southern Oregon this season.

Mr. Van Bremer of the Lava Beds, says the *Times*, has recently salted down a large quantity of white fish, caught in Lost river, which he proposes supplying the Yreka market with.

The belief has become general at Dayton, W. T., that the Northern Pacific Express company will not go into operation.

A large number of horses and cattle were killed by falling down bluffs or steep hillsides during the winter, in the Grand Ronde country.

The recent rains have reached Jackson county and farmers are happy.

John Ambrose, an old resident of Jackson county died recently from injuries received while mining at Willow Springs.

Frank Ball, aged 60 years, an early pioneer of Jackson county, died recently at Eagle Point.

A writer in the Dallas *Itemizer* says that grain sown on sod last fall did not winter kill while that on old land did.

The Phoenix, Jackson Co. mill property has been sold to parties from California, for $12,000.

Fourteen of the most intelligent children belonging to the Puyallup reservation school, were transferred to the Indian training school at Forest Grove, Oregon, last week. A number of the children who were sent there three years ago, have returned, and these were sent to fill the vacancy. The object of sending them there is to remove them from the influence of the older Indians, and thus hasten the civilizing process inaugurated by the Government.—*New Tacoma Ledger.*

The Jacksonville *Times* says: The railroad work on Cow creek valley has proved quite expensive, and has not progressed as rapidly as expected. And the roughest portion of the route, by long odds, has not been reached as yet.

The cars are now running regularly from Walla Walla to Blue Mountain Station.

Ducks and geese are reported as numerous in Powder river valley, and the hunters having a fine time among them.

According to the Grant county *News*, quite an excitement has sprung up over a prospect of gold recently found in upper Canyon creek.

Salem is to have a new school house, the directors of the district having been authorized to purchase additional grounds and erect the building.

The Grant county *News* says that the loss of stock during the past Winter in Harney Malheur, and Stein mountain sections has been much less than is usual.

The stages through Eastern Oregon are unable to carry all the mail on account of muddy roads.

Walla Walla is to have a new opera house building.

Fort Colville, W. T., is to be rebuilt and regarrisoned.

The Colfax mills are offering ninety cents for wheat and selling flour at $6 a barrel, retail.

Genuine soda springs have been found in Ahtanum valley, about 26 miles from Yakima City.

Philip Ritz has planted out 20,000 forest trees, principally maple, ash, walnut, elder and poplar, on his ranch in the Big Bend country.

Olympia will celebrate 4th of July.

Diptheria is prevailing in portions of Josephine county, Oregon.

The *Gazette* is the name of a new journal published at Heppner, Umatilla county, Oregon.

The Walla Walla *Union* completed its fourteenth year on the 31st of March.

There are 1881 patient under treatment in the Territorial insane asylum at Steilacoom, three-fourths of whome are men, and a large percentage gray-headed.

A new steamer named the W. R. Werwin is nearly ready for the Skagit trade.

The stage turned over twice, last week between Baker City and Snake river.

Columbian *St. Helen* says: Two or three portable mills will soon be set up in different localities in the vicinity of St. Helen. The Moore mill, removed from Scappoose to Albina, has changed hands, and will soon be returned to Columbia county. A large flouring mill will soon be erected at Columbia City. A greater part of the stock of this enterprise has already been subscribed by prominent men of the Northern Pacific Railroad company.

The Dalles Catholic College.

Plans and specifications for the proposed Catholic College to be built at The Dalles are complete, and bids are called for the work. The building is to be of the most modern architecture 60 by 90 feet, outside dimensions, and will occupy the ground where the academy now stands. The basement will be of stone, 11 feet high to the ceiling. The first story of the superstructure will be 14 feet high and the second 13 feet with tin roof, and bell-tower surmounted by a cross.

LEGAL.

NOTICE OF FINAL SETTLEMENT.

ADMINISTRATRIX'S SALE OF REAL ESTATE.

In the matter of the estate of Stephen King deceased.

Notice is hereby given that by virtue of an order of Sale duly made by the County Court, of the State of Oregon, for Benton County, on Tuesday the 6th day of February, 1883, at the regular February term of said court, and duly entered in the Journal of said court, directing and commanding me, Permelia King administratrix of said estate, to sell at public auction all the right, title, interest and estate, that the said Stephen King had at the time of his death, in and to the following described premises to-wit:

The undivided eight interest in and to 150 acres Real Property heretofore set off as the dower of Almeda J. King and more particularly described as follows, to-wit: Begining at the Northwest corner of claim No. 39, T. 10. S. R. 6 West. Thence South 35.92 chains, East 50.48 chains, North 14.00 chains, West 14.28 chains, North 21.92 chains, West 36.20 chains, to place of begining containing 150 acres in Benton County, Oregon.

Also as following: Commencing at the Southwest corner of claim No 39, T. 10 S. R. 6 W. Not. 5145. Thence running East to the Kings Valley road, thence following said road to the North line of South half of said claim, thence South on the west line of said claim to the place begining containing about 95 acres more or less in Benton County, State of Oregon.

Therefore in accordance with and in pursuance of said order of sale, I, Pornelia King, administratrix of said estate of Stephen King deceased will on

SATURDAY THE 7th, DAY OF APRIL 1883,

at the hour of one o'clock P. M. of said day, in front of the court house door in the City of Corvallis, in Benton County Oregon, sell at public auction to the highest bidder for cash in hand, all the right, title, interest and estate which the said Stephen King deceased had at the time of his death, in and to the above described premises, together with the appertenance thereunto belonging, to satisfy a mortgage lien in favor of L. Vanbibber on the 95 acre track above described and other debts against said estate together with costs and expenses of administering said estate,

PERMELIA KING.
Administratix of the estate of Stephen King deceased.

By CHENOWETH & JOHNSON,
Her Attorneys.
