dates for the various city offices. MANY CITIZENS. New Hall.

Messrs Crawford & Farra are furnishing the new hall in their new building in a very lease to Valley Lodge No. 11, Knights of Pythias. It is expected that the hall will be ready for occupancy in two weeks, and when the Knights get into their new quarters they can boast of having as fine a meet.

ing place as any Lodge in Oregon.

City Election. EDITOR GAZETTE:-Can some one inform the voters of this city why a certain holdover member of the council, who is a candihis boom near Mary's river bridge, all the date for Recorder, has not resigned, so as to to elect two councilmen, instead of giving the warm sunshine that has prevailed since the event of this hold-over member being

TEMPERANCE.

Valuable Investments. 80 acres of land, 14 miles east from O. P. R. Co's terminus on Yaquina Bay. small house, but good barn. 40 arces of very fine tidal land, producing the most luxuriant pasturage. Would make a fine dairy ranch; warm and sheltered location; ome good timber. Price \$1,200, 4 down balance on time. Apply to C. H. NASH, Corvallis, Oregon.

Imporant Postal Ruling.

A recent ruling of the postoffice departaent is to the effect that hereafter no matter can be forwarded in the mails after it reaches its original address without a new prepayment of postage, except letters which have one full rate paid thereon, namely three cents, and newspapers or other periodicals which are to be forwarded to subscribforwarded is published.

For the East.

Rev. H. P. Dunning, pastor of the Presby-

Ala Harris whom many of our readers traveling salesman for their eigar and tobaccountry. Mr. Harris leaves a host of warm much regrat his departure.

Born. Lee Henkle, from near Philomath, dropped into our Sanctum recently. He seemed to have an excited and bewildered appearance We shook hands with him and invited him to a seat but no use, he plead lack of time; we then asked him the news to which he replied that he had none, said he couldn't reember any but after stamering for a while he finally articulated the words in an intelligable tone of voice to the effect that he had a girl at his house and that it had been born on Tuesday of last week. When this revelation broke upon our ears we could then account for his appearent excitement.

Lost in the sreakers. The life of a Columbia river fisherma is a perilous one, and every year witnesse the make up of a melancholy roll of poor fellows whose bodies are swept to the ocean. The first lost this season, started down in boat No. 2 of Geo. Hume's cannery, last Tuesday morning and were last seen that was found full of water, at Sand Island: learn. - Astorian, April 20.

Good Sense. An old lady who had purchased a new onnet received it the other day. Not long after she was missed, and her absence was so protracted that the family became alarmed about her and instituted a search. After looking the premises all over, her daughter found her in the chamber, sitting quietly with the new bonnet on. The daughter ex-

claimed:-"Why, mother what are you doing here?" "Go along down," the old lady replied 'I am only getting used to this thing so that shall not be thinking about it all the time in church to-morrow.

Henry Levens Killed by James W. Beckley On Wednesday evening, April 18th, at 6:30, J W. Beckley shot and killed Henry Levens, at Elkton, this county, says the Roseburg Plaindealer. An old grudge has existed between the two parties, which has recently been renewed. Levens and Beckley were neighbors, but have never been on good terms long at a time. Once before Levens ki le l one of Beckley's cattle and recently they have had trouble about their stock and range. On the evening of the tragedy they met in the town of Elkton and engaged in a quarrel; Beckley says deceased his pocket, as if going for a pistol. Beckley then drew his pistol and fired the fatal shot. It took effect about an inch under the right eye, and caused instant death.

The pistol was a 41-calibre. Lost a Job. A well-known medical man of this city

was called up by telephone the other day, day when the following conversation tool

"It has come doctor!" The doctor thought he knew the voice,

for, shouted back :-"It is all right?"

roice, which was that of a woman; "but it ford and son, prominent capitalists of the will do if we take bains."

The doctor caught the last word and called listinctly:-"Give it paregorie!"

ould not hear, and then the voice called:-"Is this Doctor-"

"No! It's Doctor-Then he heard a chorus of mirth, and was nformed that he was in communication with t was a silk dress for Doctor-'s wife the wrong man, which, under the circumstances, was rather a relief to the physican.

Help Your Town.

The following from an exchange very apropriately says what if everyone would take under consideration and act accord ingly would have the effect of making the ommunity in which they live more proserous and the people more happy: 'It is a well-established principle that the people make the place; not its facilities for ousiness. It is true that an energetic and prosperous people may be kept back by lack of natural advantages, but this is not often the case. A thousand towns are kept in check by the greed and lack of public spirit of the people, where one is kept down by the location. Push and energy overcom all obstacles; greed and want of energy will kill the most promising locality. So a village is to be just what its citizens make it. If its land owners hold its lots so high that nanufactories are kept out, this will act as weight to keep it down, If the citizens prefer to patronize the merchants and nechanics of other places, that helps to keep the place down. What is wanted is for the people to be united as far as public good is concerned. Patronize each other as far as possible, any new enterprise, especially manufactories, give a warm greeting to any new settler, and give aid so far as may be in everything that shall tend to the public good. If this policy is pursued, a government works at south beach, met with village will rapidly grow, and become a a serious accident last Tuesday. His foot thrifty and prosperous fown. The grain that is not drowned out is growing rapidly and looking well.

Communication: Mr. James T. Philips formerly of county who recently started to find the promised land, under date of April 15th at Theon. W. T., near where he has settled.

he writes as follows: "I left Corvallis on the 26th of March by cars to Portland and by boat to the Dalles and from the Dallos to this place I came with a four horse team arriving here on the 13th inst without the loss of life although we had some close calls. In fording ten mile creek we came near drenwing a valuable horse. The horses foot became caught in the stretchers which throw it down in a strong current of water of sufficient force to float the horse when cut loose from the harness. We cut tugs, haimstraps and checks. I think we have found the promised land of bunch grass and expect to the purchase of all the flowers in the prinstop here.

Saw Mill Burned. The saw mill at Parkersburg, on the afternoon. Yesterday morning the boat Coquille river, says the Coos Bay News, was burned last Saturday. A heavy wind but no sign of the two who maned it. The had been blowing during the forencon, and captain's name was Otto Anderson, the due caution was observed by the men emname of the boat puller we were unable to ployed in and around the mill to prevent danger from sparks from the sawdust pile. About noon the wind shifted around so as to blow directly from the sawdust pile to the mill, and at 1:30 o'clock the roof of the building took fire, and in a short time the structure was burned to the ground. The abip yard, close by, in which a vessel is at present being built, narrowly escaped a similar fate. The machinery and running gear are a total loss, and also a new planing machine which was lately added to the mill. The loss is estimated at \$15,000. No insurance.

Mr. Cauthorn fleard Prom. the time at sea, From San Francisco he very pleasant visit with his brother-in-law. C. D. Brooke, Esq., and family. From this Hangtown, where, thirty-four years ago, he pitched his camp as a gold hunter. Alsince Mr. Cauthorn left Hangtown, and the barren hills, which were then covered with the clustering tents of the argonauts, have been transformed into fruitful vineyards, blooming orchards and beantiful homes, he places where he mined, and the very spot where his cabin stood, which is now occupied by a fine building. Mr. Cauthorn was joined at Sacramento by Mr. Look, of this city, and together they started across the continent on the 19th.

The Walla Walla Statesman says that o late considerable attention is being attracted toward the working of the innumerable sand bars on Snake river, for fine gold Heretofore no process has been invented by and wondering why he had not been sent which the flake gold could be retained, it being so fine and light as to float off with the water, regardless of riffles and quick-"It is a very small pattern," answered the silver. It now appears that Mr. John Har-Upper country, have a patent by which this mining enterprise can be earried on with profit and success. It is a machine built something like a cabinet, with a wide There was a mumbled discussion which he hopper on top, into which the gravel and sand are shoveled. The coarse works off while the finer substance keeps going down into a succession of planes, underlaid with nickel sheeting, covered with quicksilver. By the time the aubstrace seaches the bottom plans fashionable dress-making house, and that nothing is left but black sand and gold. In this method there is no force to carry the that was under discussion, and that he was gold out of the machine, consequently it sooner or later is bound to be caught by the quicksilver. As the fine gold of Snake river is similar to that found in the black sand on the ocean beach in Benton County, the apparatus mentioned would doubtless be of great benefit to our coast miners. The machine has been thoroughly tested, and is highly recommended by those who have used it.
