### LESSON IN SPELLING.

Since the introduction of spelling matches, many words have come prominently into notice-wordsthat were previously, comparatively unknown. For-instance, we fird Antiseptic, meaning: preventing and stopping all fermentation and decomposition, and Analgesiant: painkiller. Then there is Antipyretic: cooling down inflammation and fever heat. These three words, so often mis-pelled, are three of the cardinal virtues of something that will cure many a-bad spell and that is Salicylica, pronounced Sal-i-cyl-i-ca.
