

SIX SIX INEFFECTUAL BECAUSE NEGLECTED BY THE COUNCIL.

A good efficient company has been under organization for two or three years under the name of Monumental Co., for the purpose of manning and keeping in repair the old fire engine which did such efficient work in days gone by. Yet there are three or four in our town who have continually pressed against doing anything with "Big Six" ever since the time the new engine was procured.

Must we turn back the hands of the clock? At the Democratic jollification meeting at Hamilton, Ohio, on Saturday night, says the Cincinnati Gazette, one of the orators gloried in the fact that his first vote was cast for Vallandigham; that he had continued to vote for him, and that he was a glorified Democratic saint.

President Arthur has decided that he will not appoint any more non residents of Territories as governor of such Territory, but in all cases will make his appointments from the residents of the Territory to which he appoints a governor.

compelled to flee to escape perishing they can manifest their purpose in no better way than to neglect such matters as this under consideration.

SCARLET FEVER EASILY COMMUNICATED. The scarlet fever in a very malignant form seems to be raging in different parts of Oregon with great fatality. It has been in Polk county, Linn county, and now in different parts of Lane county and at Monroe in this county, both young and aged are dying almost as rapidly as they take it.

A DEMOCRATIC JOLLIFICATION--WHAT THEIR SUCCESS IN OHIO LEADS TO. Must we turn back the hands of the clock? At the Democratic jollification meeting at Hamilton, Ohio, on Saturday night, says the Cincinnati Gazette, one of the orators gloried in the fact that his first vote was cast for Vallandigham; that he had continued to vote for him, and that he was a glorified Democratic saint.

It is said that the postmaster general will strongly adopt the postal telegraph system.

THE NATIONAL DEBT AS VIEWED BY THE CINCINNATI GAZETTE.

There was a time when it was thought it would be difficult to carry the National debt. There are Democrats living, and at the front to-day in their party, who predicted that the bonds issued to provide funds to carry on the war for the Union would not be worth the paper on which they were printed.

The banking system of the country, which is the best we have ever had, better than we may expect if it should be overthrown, and better than any country possesses, if we may except the Bank of England, rests upon national bonds. If these should be withdrawn it would be necessary to provide a substitute, or change the system.

The emergency has brought out many suggestions, and one of the most absurd is the proposition to import foreign securities to take the place of National bonds.

How do we pay our debt? By taxing the people. It is proposed to levy taxes upon the industries of the country to pay a debt that can be carried at two-and-a-half or three per cent, and import foreign securities, sending our coin abroad to pay for them, to serve the purpose of a basis for National banking, and as security for trust companies.

THE OREGON PIONEERS. Newark Evening News on the Oregon Pioneers makes the following appropriate comment: "The 200 Oregon pioneers, the youngest of them a settler of 1854, who have just arrived in New York on an excursion, could tell some wonderful stories of progress, heroism and trial.

It is claimed by merchants in the China trade that there is danger of a general uprising of Chinamen against all foreigners at Canton.
