Mexican Silver.

SAN ANTONIO, Nov. 4.-Silver ore from Mexico is being shipped to New Orleans, where the mint is more accessible for mines tributary to the Saltillo mint of Mexico. Five hundred pounds of pure silver passed through San Antonio yesterday.

Condition of the Northern Pacific.

Sr. Paul, Nov. 2.-General Manager Haupt, in an interview with a reporter of the Associated Press last evening, said that his resignation was entirely due to the policy of radical retrenchment adopted by the Northern Pacific, which practically tied his hands, and prevented the proper running of the road. At a meeting of the stockholders it was decided to cut off all possible expenses, and he had received inmuch in excess of the receipts. General were built, no side tracks were put, and, the cost of it had to be met by the 'opera- Oats are gradualy growing scarce. ting department, supposably out of surplus earnings which did not exist, instead of by the construction department. This, of corse, made the expenses very heavy. Another reason was that practically all work of the year has to be done in June, July and August. After August it is difficult to get men to work on the road, as the harvest fields pay so much better, and after harvest wet weather begins, and it is impossible to do any work until the ground dries in the spring.

He says that until congress does take some action looking to the forfeiture of the land grants of the Oregon Central and other roads it would seem to be his duty to recognize the grant as subsisting and valid.
