Villard Makes an Assignment.
New York, Jan. 6.—Henry Villard made an assignment to-day, for the benefit of his creditors, to Wm. Endicott, Jr., of Boston, and Horace White, of New York. He transfers to them his property and mansion on Madison avenue, with instructions to dispose of them at public or private sale, and apply the proceeds first to the payment of interest of a mortgage of \$200,000 upon the property, and secondly to carry out any existing contracts for completion of the edifice. And provisions are made for the payment of any indebtedness of Villard to the Oregon Railway and Navigation company. The instrument further directs that the residue, after the entire indebtedness is disposed of, shall be turned over to his wife, Mrs. Fannie Garrison Villard. Real property included by Villard in the assignment is the block bounded by fifth and fifty-first streets and Madison and Fourth avenue, including the mansion recently erected upon Madison avenue front. The property is said to be worth \$1,000,000. The property recently conveyed by Villard to his legal advisers is expressly excluded from the conveyance to the assignees. Other real property possessed by Villard is a handsome summer residence at Dobb's Ferry, on the Hudson, worth about \$250,000. The amount of indebtedness to the Oregon Railway and Navigation Company is not ascertained, nor could any information be obtained as to liabilities. It is said he is the owner of a large interest in other companies, and that his wife holds government bonds to the amount of \$300,000. No accurate statements of his assets, however, are obtainable to night, and Villard is still too ill to receive visitors.

More of the Meeting of Directors.
New York, Jan. 4.—At the Northern Pacific meeting Messrs. Morgan, Billings, Cheney, Bullitt, Harris and Belmont were appointed a committee to consider what action should be taken by the board of directors to the retirement of Villard. Villard's resignation as director was laid on the table. The committee was authorized to call a special meeting for the election of a president. The directors adopted a resolution complimentary to Villard, and voted him \$10,000 a year for his services during the time he was president of the company.

A Terrible Homicide.
St. Louis, Jan. 5.—The convent of the Sisters of Notre Dame, at Belleville, Illinois, burned at 11 o'clock to-night, involving a loss of from \$100,000 to \$125,000, partially insured. The building was originally erected in 1857, since when two wings have been added. May Campbell, one of the inmates, jumped from a third story window and was picked up dead. One other life was lost and several persons are reported injured. The loss of life is much greater than mentioned in last night's dispatch. Instead of twenty, as at first supposed, the total of known deaths is twenty-seven, twenty-two of which are pupils, and five sisters, among the latter the sister superior.

Reporters who returned to Belleville to night state that search in the ruins of the convent was resumed between 10 and 11 o'clock this morning, and continued till about 4 o'clock this afternoon; that what was supposed to be the remains of six additional bodies were recovered, but the remains were so in indefinite a character that it was impossible to determine whether they represent six or more persons. The funeral of the victims will probably take place to-morrow. The remains of Miss Campbell and Miss Wierman were brought here this afternoon, and will be buried to-morrow.

St. Louis, Jan. 7.—Search for the dead at Belleville was resumed this morning. The bodies were all near each other, and the mother superior's body seemed to be in the center of a ghastly circle of black remains. A bone was picked up here, and on being drawn from the ruins came loose from some particles of roasted flesh. Her burned skull was found with an arm, while the trunk, burned into a solid crisp, was dug up immediately under them. It was an awful exhumation and more than once work faltered on account of the sickening sensation which overcame the workmen. It seemed that the great heap would never be exhausted, and every few minutes it was reported that new bodies had been taken out. Shreds of burnt clothing clung to the sickening masses, and it was impossible to identify several bodies, the fire having effaced every line of the countenance and form. Bodies in instances clung together, and the heap, as it was uncovered to the eye, was absolutely indescribable.

Tacoma to Become a Great City.
New York, Jan. 5.—The action of the Northern Pacific directors in ordering the completion of the road was the most important matter accomplished. The committee after thoroughly examining the subject, agreed upon Tacoma as the western terminus. Villard's identity with the Oregon Railway and Navigation Company led him to favor Portland. The result of this action will be that Washington territory will be suddenly populated, and Tacoma become a great city.

WASHINGTON NEWS.

DECISION IN A BOND CASE.
WASHINGTON, Jan. 7.—A supreme court decision was rendered to-day in one of a series of bond cases from Virginia, namely, Austin Smith against Samuel Greene Howe, treasurer of the city of Richmond. The question involved is the right of a state to refuse to take the coupons of its bonds for taxes, after issuing such bonds with a promise that it would take them in payment of taxes. The suit began as an action for trespass in a state court, but was afterward removed to the United States circuit court. That tribunal remanded it to the state court on the ground that it did not involve a federal question. The United States supreme court, however, decides that it does raise a general question, inasmuch as plaintiff alleges that the act of the Virginia legislature, which virtually repudiated the coupons, was in violation of that provision of the constitution that forbids any state to impair by legislation an obligation contracted. The judgment of the United States circuit court is reversed and that court directed to reinstate the case and proceed therewith according to law. The submission of the other Virginia tax-coupon cases, on printed briefs, was set aside, and it was decided that they be argued orally when reached. This will have the effect of postponing them three years.

DEMOCRATIC CAUCUS.
WASHINGTON, Jan. 7.—A caucus of democratic members of the house is proposed, for an early day. The object is to consider the policy of the party on subjects likely to come up during the winter.

A LAND GRANT BILL PREPARED.
WASHINGTON, Jan. 7.—The senate committee appointed to consider forfeiture of land grants met to-night and prepared a bill to be reported to the committee on public lands to-morrow. The bill provides for the forfeiture of land grants of seven railroad companies and covers five million acres. The roads are the Gulf and Ship Island, the Elyton and Beard's Bluff, the Savannah and Albany, the Tuccaloosa and Mobile, the St. Louis, Iron Mountain and Southern (formerly the Iron Mountain and Missouri and the Iron Mountain and Kansas), the Mobile and New Orleans, and the Memphis and Charleston. On a majority of these roads Cobb, the chairman of the committee, says little or no work has been done. The sub-committee will consider the Texas Pacific land grant at the next meeting.

AMERICAN HOGS VS FRENCH WINE.
WASHINGTON, Jan. 6.—Congressman Calkins proposes on Monday, on the first chance he has, to introduce bills arbitrarily to prohibit the importing of French wines and brandies so long as prohibition upon American hogs is allowed to stand in France. He thinks that congress will be forced to take remedial measures in order to remedy the injustice done to one of the chief products of American export. He thinks congress unquestionably has the power to regulate imports, in spite of a treaty especially where initiative discrimination was taken on the other side. In other words, he believes congress has the right to retaliate for the benefit of our commercial relations with any other country in the world.

RESOLUTION FOR A CUSTOMS UNION.
WASHINGTON, Jan. 7.—Representative Townsend, in reference to the joint resolution introduced by him, requesting the president to invite the governments of all American nations to establish an American customs union, says the object of such a union are to develop the international interests of American countries and furnish more extensive markets for the products of each. The commerce of South America, Central America and Mexico, Townsend says, amounts to about \$7,000,000 annually. Imports, mainly manufactured articles, are over \$300,000,000. Of these Great Britain and France furnish a much larger quantity than the United States. The originator of the resolution says the United States ought to control all of this commerce.

FOLGER ASKS FOR AN APPROPRIATION.
WASHINGTON, Jan. 7.—Treasury reserve one and two dollar notes having become exhausted, Secretary Folger has asked congress for an appropriation of \$150,000 to print four million ones and three million twos. Failing to secure an appropriation, the secretary declares he will have to suspend or decrease the circulation of small gold and silver notes, and issue notes of large denomination.

CHATTEL MORTGAGE SALE OF PERSONAL PROPERTY.
BY VIRTUE OF A CERTAIN CHATTEL MORTGAGE made on the 27th day of September, 1883, by one Wm. Harris and to W. S. King, for the sum of \$150 and interest at 10 per cent. per annum from date, and attorneys' fees and disbursements, and said chattel mortgage being on file in the Clerk's office for Benton county, and a certified copy of said mortgage being made and delivered to me with the request to take charge of said property and sell the same at public auction, in accordance with said request I have taken charge of said property and will sell the following described property: One platform spring wagon, one set of hack harness, one gray mare about 3 years old, called Bessie and branded F. T. on the left shoulder, also one red roan mare about 12 years old called Kate. The above described property will be sold for US gold coin on

NORTHERN PACIFIC OFFICERS.

St. Paul, Jan. 5.—Private advices from New York give the following as the new list of officers of the Northern Pacific: President and general manager, Thomas F. Oakes; general superintendent and chief engineer, General Alva Anderson, now chief engineer; superintendent of transportation, J. T. O'Neil, now superintendent of the eastern division.

The Pig Iron Industry to be Pooled.
St. Louis, Jan. 5.—The Age of Steel prints the statement, on the authority of a largely interested iron trader, that a scheme is on foot to pool the entire pig iron industry of the country. The plan is to divide the country into six districts, each to be represented in the pool on a basis made up from the tonnage-producing capacity of the district and the profit-earning capacity per ton, as shown by the works in past years. Each furnace in a district is to share in the district's share of the general pool, on a basis determined in the same way. One of the chief objects of the scheme is to ascertain the exact product of pig iron in the hands of the executive committee, having authority to shut down, such a step can be ordered at any time, to let the demand catch up with the supply, and the profit thus be made regular. It is also proposed that any district ordered to stop for any reason will draw its profits from the pool as though it were in full blast. The Age of Steel says the scheme originated among furnace men in the Lehigh valley, that strong efforts will be made to carry it out among furnace men in other parts of the country, and that this is the first public notice of it.

Job Printing Office for Sale.
We have at this office in the job department sufficient good material to make up two good job offices. To any one wanting to purchase we will therefore sell a job office complete, including one press, and everything else necessary. We have a new half medium Gordon, and an eighth medium Liberty press, as good as new. Of these two presses the purchaser can take his choice.

What is the use paying for money orders and postage for newspapers and magazines when you can save all this and still get any paper or magazine you want at less than regular rates at Mattoon's.

THE GAZETTE.
To all of our subscribers we ask to carefully note the great improvement in the Gazette during the last year, and in reading it carefully hand a copy thereof to some friend or neighbor who is not taking it, and who needs a paper, and ask them to subscribe. At the same time invite their attention to the fact that the Gazette contains a greater variety of and more interesting reading matter, including local, editorial, telegraphic, general news and miscellaneous, besides family reading than any other paper published in Oregon. To all persons who receive sample copies of the Gazette, we ask to read and examine it carefully and decide if they can afford to do without it when a paper containing so much interesting reading can be obtained for the small sum of two dollars and fifty cents per year in advance. A man should subscribe for a newspaper just exactly for the same reason that he buys a dollar's worth of coffee, or transacts any other kind of business. When one buys sugar or coffee, in the first place it is because it is needed, and it is bought where the best article can be had for the money. So you should subscribe for your paper, because you need it, and it does not cost you to do without it. And when you subscribe you should get the one that is the best and the most valuable to you for your money. We propose to furnish to all desiring, the best news and general family paper in Oregon and ask all who need such a thin - to come forward and subscribe.

Newport Items.

In this city so far we have had a fine winter. In Nov. we had twenty fair and ten stormy days. In Dec., twenty-seven fair and four stormy or rainy days. Up the river they have lots of stormy, rainy weather, I see by the Post.
The schooner Kate and Ann came in on the 1st inst, well loaded with merchandise, a little for most every merchant on the bay, the O. P. R. Co., and Siletz Indian reservation. She is now up the river unloading.

The entertainment and Christmas tree for the benefit of the Band of Hope, which came off in Phelps' hall, on the evening of the 25th of Dec., was well attended and withal a grand success. The people of Newport can't be disconcerted when they put their heads together to have a good time.

A Bloody Struggle Anticipated.
The contest for possession of mining ground on Cayote Creek, long in litigation between Kelly and Ruble, is creating great trouble. At the last term of the court the sheriff was ordered to put Kelly in possession, but Ruble, backed by about twenty armed cut-throats, refused to give the officer possession. The sheriff telegraphed to Jacksonville for men, who were sent, but were turned back at Grant's Pass by a bogus telegram falsely sent in Kelly's name. To-day the sheriff summoned a posse of about fifty men, who have already left here. They were well armed, and if possession is refused there will be bloodshed. On the first visit of the Sheriff, several shots were fired at Kelly by Ruble's party, without effect. The party in possession are strongly fortified, but the determination is to enforce the decree of the court at any cost. A heavy rain storm has been prevailing for the last twenty-four hours, and a freshet is anticipated.
