Weekly Corvallis Gazette.

FRIDAY MORNING, FEB. 27, 1885.

Through the efforts of Hon. M. C. George the senate bill in relation to Umatilla Indian Reservation passed the house on the 24th inst. The bill had previously passed the senate, but as there were some amendments in the house, it requires further action by the senate. This will open for settlement a very rich and valuable tract of land.

The state legislature of Georgia has passed a law which, in effect, breaks up the carrying of concealed weapons in that state. A tax of \$100 is levied upon every place of business where they are sold, and, rather than pay it, the merchants give up keeping them, so that the places where arms can be purchased are only himited, and the replenishing of cartridges are exceedingly difficult.

Beecher was announced to lecture at Chickering Hall, New York, recently. One hundred persons assembled to hear him, but the reverend gentlemen concluding that empty benches had no ears, refunded the admission money and dismissed the audience. Here is evidently a strong instance of a man outliving his usefulness. It would have been better for Beecher to have died when young when the gods loved him, than to have lingered superfluously. Bilyeu, a long six footer of decided democratic proclivities in the Oregon Senate at Salem, last Friday night, in an enraged condition made at Senator Simon, from Multnomah county, because Simon was endeavoring to get a resolution voted on to rescind a former one to adjourn, when at the same time Bilyeu and two or three other democrats were filibustering in order to kill time and keep Simon's resolution from being voted upon. Bilyeu finding that Simon had outwitted him, became enraged and started to carry the thing with a kind of bull-dog force in accordance with the sonthern democratic idea of deciding right and wrong.

The feeling of hopefulness that prevails in Eastern business circles is gaining ground day by day. An increased activity is said to exist, more especially in the iron trade, which leads the markets, in the lower grades of cotton and woolen goods, and in coal retail dealers have been so reduced, owing to the limited purchases which they have made under the recent depressed condition of business, that they are generally in the market as buyers, while the extremely low prices of sta commodities have induced speculas and many merchant; to make ge purchases in the expectation of a
