WASHINGTON NEWS.

Cleveland Appointees.
WASHINGTON, March 30.—A. M. Kelly, nominated minister to Italy, is a lawyer in successful practice at Richmond, Virginia. He has been mayor of that city, was for several years chairman of the democratic committee, taking an active and prominent part in the contest against the readjusters, and is also well known as counsel for the Virginia bond holders, in their prolonged litigation.

Edward Parke Curtis Lewis, nominated for the mission to Portugal, is a resident of Hoboken, New Jersey. He is said to be distantly related to Senator Bayard, and has been a member of the legislature.

Isaac Bell, Jr., nominated to be minister to the Netherlands, is a wealthy citizen of Newport, R. I., and a prominent democrat, and has several times been the democratic candidate for governor. He is a brother-in-law of James Gordon Bennett. He was the democratic candidate for the United States senate at the last senatorial election.

Rufus McGee, of Indiana, nominated minister to Sweden and Norway, is a resident of Logansport, a lawyer and state senator. He is a friend of ex-Senator McDonald, whom he accompanied recently to this city.

Rasmus B. Anderson, of Wisconsin, nominated minister resident to Denmark, is an eminent Scandinavian scholar, and is author of a number of books upon Scandinavian folklore and mythology. He is a professor in the Wisconsin university, and is well known among literary men.

Thomas G. Walter, nominated consul-general at London, is well known as ex-governor of Connecticut.

Frederick Paine of Maryland, nominated for the Berlin consul generalship, is editor of the Baltimore Correspondent, a democratic paper.

Edward Jensen of Illinois, who was appointed consul-general at Vienna, is a brother-in-law of Carl Schurz.

Alexander R. Lawton, nominated for the mission to Russia, is a prominent lawyer of Savannah. He was also educated at West Point, served in the army a number of years, and resigned and studied law at Savannah and engaged in the practice of his profession there. When the civil war broke out he entered the confederate service as a brigadier general and subsequently became quartermaster general of the confederacy. At the close of the war he returned to his practice at Savannah, and soon after was appointed attorney for the Central railroad and banking company. He is described as a lawyer of distinction, and gentlemanly, quiet and affable in manner.

George W. Merrill of Nevada, nominated minister resident to the Hawaiian Islands, is a lawyer by profession, but is now private secretary to Senator Fair. He is well known here and generally esteemed.

Thomas J. Jarvis, nominated minister to Brazil, served in the confederate army and was governor of North Carolina for six years.

Lewis was in the confederate army and is a son-in-law of Edwin Stevens of Steven battery fame.

Portland City Service.
WASHINGTON, March 30.—Lewis McMullen nominated appraiser for the port of New York, is at present employed in the appraiser's office there as examiner in the hardware division. He is a democrat, having served continuously in the appraiser's office for about twenty-three years. Treasury department officials hesitate to express any opinion in regard to reasons for the removal of Ketchum, whose place McMullen is to take. It is intimated to-night there is likely to be a contest in the senate over this nomination, unless it can be shown that Ketchum was removed for cause.

Payne Oil Monopoly Wins.
WASHINGTON, March 30.—The appointment of William Caldwell as surveyor of the port of Cincinnati, is claimed as a victory for the Payne-McLean faction, he having been endorsed strongly by Senator Payne, who is said to have personally urged his nomination. His most formidable competitor for the place was Theodore Cook, who was a Pendleton man in the senatorial fight a year ago, and who led the bolt against the McLean legislative ticket for Hamilton county in the state campaign in 1883, when members of the legislature which chose Mr. Payne were elected.

Cleveland Invited to Georgia.
WASHINGTON, March 30.—Senators Brown and Colquhoun of Georgia, and Henry W. Grady, one of the proprietors of the Atlanta Constitution, called upon President Cleveland to-day for the purpose of inviting him to visit Atlanta on the occasion of the meet-

ing of the commercial convention there in May. The President expressed much interest in the convention, and said he would talk with members of his cabinet about the proposed trip. Senators Brown and Colquhoun believe he will accept the invitation.

Oregon Post Masters.
WASHINGTON, March 26.—The following is a full list of the Presidential postoffices in Oregon. In the coming readjustment several of these offices may gain in compensation and perhaps two or three fourth-class offices may be raised to the Presidential grade. The terms of only two postmasters expire this year—Portland and Astoria—and Postmaster General Vilas believes that no changes will be made in the present incumbents until their terms are finished. The Democrats are making a lively scramble for these places, and may be that pressure enough may be brought to bear to oust one or two incumbents before they have served their full term. Several Republicans will endeavor to hold on, but the effort will be useless. All of them must go in time:

Albany—salary, \$1500; postmaster, J. M. Irving; term expires Jan. 2, 1887.

Ashland—salary, \$1000; postmaster, A. R. Hammond; term expires Jan. 7, 1889.

Astoria—salary, \$1900; postmaster, W. Chance; term expires Dec. 15, 1885.

Baker City—salary, \$1400; postmaster, C. L. Palmer; term expires Dec. 20, 1887.

Corvallis—salary, \$1300; postmaster, N. R. Barber; term expires Jan. 23, 1888.

East Portland—salary, \$15000; postmistress, Mary Cogill; term expires Jan. 16, 1887.

Eugene City—salary, \$1400; postmaster, A. S. Patterson; term expires May 16 1886.

Jacksonville—salary, \$1200; postmaster Max Muller; term expires April 15, 1888.

Oregon City—salary, \$1200; postmaster, J. M. Bacon; term expires Jan. 27, 1889.

Pendleton—salary, \$1600; postmaster, I. Livermore; term expires July 18, 1886.

Portland—salary, \$3200; postmaster, G. A. Steel; term expires Oct. 21, 1885.

Roseburg—salary, \$1100; postmaster, H. C. Stanton; term expires Dec. 20, 1887.

Salem—salary, \$2100; postmaster, W. H. O'Neil; term expires Dec. 11, 1888.

The Dalles—salary, \$1700; postmistress, Eliz. M. Wilson; term expires May 17 1886.

GENERAL NEWS.

Grant's Condition.
NEW YORK, March 29.—The usual weekly consultation on General Grant's condition was held to-day. Doctors Barker, Sands, Shraley and Douglas were present. The irritation of the nose, which had produced a train of symptoms which induced the family to send for physicians last night, has been relieved, so that the General had a sleep of four hours.

To-night General Grant became anxious to see the doctors, and they arrived at the house after 11. They found the patient's throat much better than at the consultation, although there was still slight congestion. The doctors dressed it, gave the General another anodyne and put him to bed. They remained with the General all night and Dr. Shraley will stay to-morrow night. Physicians are in the house to allay the General's own nervousness and calm the anxiety of his family.

While he was dozing there had been an accumulation of phlegm in the rear of the nasal passage, and he was awakened by a sense of suffocation and a difficulty in breathing. The patient became apprehensive at this sudden development of new symptoms that were attended with a prospect of serious results, and wanted an explanation of the trouble. He consequently desired the presence of his physicians and they were sent for.

The general's family remained up all night long, and it was a night of suspense to them. They were much relieved, however, when the spasmodic attack had been subdued, and they were assured there was no occasion to fear any return of the bad symptom.

New York Fire.
NEW YORK, March 29.—Fire completely destroyed Schumacher & Ettinger's lithographic art establishment, at 32, 34 and 36, Bleecker street, to-night. The total loss is about \$350,000, of which \$100,000 is on the building, and believed to be insured. It was over four hours before the flames were got under control.

Poor Wheat.
ROCKBRIDGE, Ill., March 27.—The growing wheat in this section presents a sorry appearance. The most sanguine farmers predict only half a crop along the creek bottoms; where snow and ice gave continued protection the plant is vigorous and the fields present a green appearance. The crop on the uplands has suffered severely, and the only indications of life in the wheat fields are in the depressions and along the fences where the drifted snow gave protection. Corn land seeded early in the fall presents the most encouraging prospect. Several farmers have decided to plow up their wheat and plant corn.

Pay Up.
All advertising and other accounts contracted for with the GAZETTE Publishing House prior to January 1st, 1885, are now past due, and should be settled without delay.

FOREIGN.

Chinese and French.
LONDON, March 29.—A dispatch from Paris says it is officially announced that Chinese troops on the Tonquin frontier yesterday made a desperate attack upon the entrenched camp established by General Negrier, between Langson and Kilua, and from which General Negrier has been making reconnoissances beyond the frontier separating Tonquin from Chinese proper. The Chinese drove the French back beyond Langson, and recaptured that town. General Negrier was gravely wounded, and the French casualties were very serious.

Latest accounts represent the French troops in full retreat with the Chinese vigorously pursuing them.

England's Warlike Preparations with Russia.
LONDON, March 30.—The British government has chartered the new Cunard steamer Etruria, and the steamers Oregon and Alaska, for service as armed cruiser transports. They will be fitted with ten guns each.

The admiralty has ordered the men-of-war Iron Duke, Hotspur, Hecate, Conquest and Hyacinthe to be prepared for service. It is presumed they go to the Baltic.

The admiralty also has ordered the active service ships Inflexible, Devastation, Cyclops, Rupert, Coriella, Volage, Active and Emerald to be made ready for immediate service. They will be ready for sea in a few days.

Cholera in Spain.
MADRID, March 29.—A serious outbreak of a disease resembling cholera has appeared at San Felipe de Jativa, province of Valencia. Fifteen persons have died within twenty-four hours of colic, with choleric symptoms. A report was spread that the province was threatened with a return of the cholera epidemic, which would complete the ruin caused by the earthquakes. The people are panic-stricken, and are begging further assistance from the government.

Mexico in Readiness.
MEXICO, March 29.—Troops are practicing military maneuvers every day, preparing to enforce the position of the government against Barrios, if it should prove necessary.

French Cabinet.
LONDON, March 30.—The Paris correspondent of the Times considers the fall of the French cabinet near and irrevocable. Nobody is able to predict who Ferry's successor will be.

France will Declare War.
LONDON, March 30.—A Paris dispatch to the Exchange Telegraph company states that war with China will be officially declared to-day, 50,000 reinforcements will be forwarded and the army ordered to march on Peking.

Wild Scenes in the French Chambers.
LONDON, March 30.—A special from Paris gives the following account of the opening scenes at the meeting of the chamber of deputies to-day:

Long before the hour of convening of the chamber the streets in the vicinity were packed by crowds of excited men. It soon became evident that trouble was brewing for the government. A strong force of military was on hand to prevent trouble and preserve order in the chambers. Notwithstanding this precaution the galleries were crowded with people who showed irritation over the French defeat at Langson, by keeping up a noisy discussion and hurling denunciatory epithets at members of the cabinet and their supporters as they entered the chambers.

When Jules Ferry, the premier, arose to announce the decision of the cabinet council this morning he was loudly hissed by the galleries. He had barely finished the declaration when a number of deputies of the right sprang to their feet, yelling "Down with the wretch!" while above the din could be heard the voice of Clemenceau, as he fairly screamed, "Traitors!" It was some time before order was restored, and had it not been for the presence of troops there is hardly a doubt that violence would have been done.

During the scene in the chamber the crowd outside was becoming a howling mob, and made several attempts to pass the guard in order to get inside, but was kept back by the determined attitude of the military.

The Ministry Resigns.
PARIS, March 30.—At the opening of the session in the chamber of deputies this afternoon Minister Ferry presented the government's request for a credit of \$40,000,000 on account of military operations in China. Ferry at once moved for the appointment of a committee to examine and report upon the credit, and he demanded that the motion be given priority. The motion was rejected, by a vote of 308 to 61. Ferry immediately announced the resignation of the entire ministry, and President Grevy accepted the resignation.

Clemenceau's Speech.
PARIS, March 31.—In his speech in the chambers yesterday, Clemenceau said the members of the cabinet were not ministers, but culprits who ought to be dealt with by law. This speech was loudly applauded.

The Riel Rebellion.

WINNIPEG, March 30.—The rebellion started by Riel has gained greater dimensions by the rising of Inghams in sympathy. News came from Quappelle to-day that Indians on the reserves on the File hills had risen in arms and killed the farm instructor there, numbering in all about 500. Three companies of rifles and portions of a field battery went from Quappelle station to Fort Quappelle.

On the War Path.
WINNIPEG, March 30.—A Medicine Hat special says: Indians are on the war path and settlers are preparing for attack. Indians held a pow wow yesterday, from which the government interpreter was excluded. Only six police are at this post. Settlers have applied to the government for arms, ammunition and reinforcements.

Toronto Bids the Troops Good Bye.
TORONTO, March 30.—Never in the history of Toronto has there been such intense excitement shown as there was this morning. Orders had been given for the troops to parade at 10 o'clock in heavy marching order, but long before that hour people filled all the streets and approaches. At 11:30 the doors of the drill shed were thrown open, and the Grenadiers' contingent marched out, preceded by their band, playing "The Girl I Left Behind Me," the Queen's Own following, headed by a bugle band. Immediately on their appearance ringing cheers went up from the crowd along the route and ladies waved their handkerchiefs. Along King street the wildest excitement prevailed, the cheering being continuous. At Union station about 10,000 people assembled. The train left at 12:30 P. M. for the west. The two contingents number 580 men.

PACIFIC COAST.

Russian Cruisers Coming.
SAN FRANCISCO, March 30.—Count Orlowski, Russian consul at this city, states that two Russian cruisers have left the Mediterranean for this port. Their object in coming to this coast is to do as much damage to the English merchant marine and the British possessions, in case war between the two countries is declared.

Decision Affecting the Chinese Act.
SAN FRANCISCO, March 30.—Judge Sawyer, of the U. S. circuit court, decided that a Chinese merchant resident of this country could depart from it and enter it again, without being subjected to the conditions imposed in section six of the Chinese amended restriction act.

Cattle Shipped.
WALLA WALLA, March 30.—The first shipment of cattle ever made from this coast to Chicago left here this morning via the O. R. & N., the Short Line and the Rock Island roads, Messrs. Dooley & Kirkman and Chris Ennis being the shippers. Everything was handled admirably. All the lines deserve credit for their liberal policy in making a rate that would move stock. Twenty cars left, and the train will run twenty miles an hour. This is the forerunner of other shipments.

Outrage on American Citizens.
PANAMA, (via Galveston), March 30.—Star and Herald bulletins published to-day, say the steamer Colon was seized to-day at Aspinwall by revolutionists, who demanded the delivery of shipments of arms on board for the revolution. The agent refused to deliver. Connor, local superintendent of the Pacific Mail company, was first arrested and later the captain and purser of the steamer were placed under arrest on board. Subsequently Captain Dowell of the Pacific Mail company, Mr. Wright, United States consul, and the lieutenant of the American man-of-war Galena were arrested and marched off to the cartel. They were released at 6 o'clock, on condition that the arms should be delivered, and delivery is now going on. American and English warships did nothing to protect foreign interests, because the revolutionary chief declared he would resist their interference by force. Americans are indignant at the insults to their flag and outrage to their persons and property. Troops go from here to-night to attack the revolutionists, who, however, are in strong force, and with the arms from the Colon will probably be able to control events in their own way and to their own interests.

What a Louisiana Does.
New Orleans Times-Democrat.
One of the most energetic and hard-working beings in the state is a little mother-editor who lives over in Gretna and who edits and owns the Gretna Courier. Mrs. Ava Hildenbrand writes her own editorials, fixes up most of her own local copy, does composition work on her paper, solicits subscribers, is her own mailing clerk, keeps her house tidy and is a devoted mother to three lovely little children. Her example should serve as an everlasting inspiration to the women who go through the world howling for a mission, but which is often with them only another way of spelling the, to them; synonymous words man and husband.

Is It Not True?—There can be no argument as to the qualities essential to a perfect remedy for the ills arising from a disordered or inactive condition of the Liver, Stomach and Bowels. Everyone will admit that it should be perfectly safe for old and young of both sexes, at any and all times; that it should be acceptable both to the taste and the stomach; that it should never fail to act promptly and thoroughly yet painlessly, and should give strength to those organs. It is now well known that Syrup of Figs possesses those qualities in a pre-eminent degree. Allen & Woodward are agents for this place.
