COMMENT ON WARNER'S SCHEME.

New York, June 8 .- [Special]-Congressman Warner's latest silver proposition is being extensively discussed. The Tribune thinks it a carefully matured scheme by Tilden and other prominent democrats, by which they hope to escape, on the one hand the total consequence of silver coinage, and on the other hand, the fatal disagreement within the party. The Tribune also says: "Limited coinage is to be abandoned, but instead we are offered unlimited inflation. Soft money democrats may well look with favor on a scheme under which there would be absolutely no limit to silver notes that Boston, and other heavy holders of stock of nright be issued. It is not proposed to issue the Oregon Railway and Navigation comon deposits of American bullion alone.
