GENERAL NEWS.

HOSTILES GOING NORTH.

DEMING, N. M., Sept. 13.—A band of Indians crossed the railroad seven miles east of here this morning, going north. It is not known whether they are Indian scouts, following renegades, or another band of hostiles which the troops have run out of Mexico, but they are generally believed to be hostiles, who are following the route of those who passed north last week and did the killing near Lake Valley. From signal fires seen in the mountains the hostiles evidently have scouts in advance, and find no trouble in evading the troops and passing safely from one section of the country to another.

NEW YORK, Sept. 12.—The Times' leader declares that the independents will not follow the lead of Hoar and Sherman. "Nominations, which represent nothing better nor worse than Hoar's ideas of republicanism, coupled with the platform utterances such as a republican convention inspired and managed by that pre-Atamite gentleman will be very apt to adopt, would drive thousands of Massachusetts independents to the support of any respectable democratic ticket. Democrats of that state manifest a disposition to make nominations which will be acceptable and be worthy of independent support. But the republican party in New York is not in the hands of Hoar. It is fortunate in having leaders who, if not exactly blameless according to the independent standard, are yet not fossils. The New York independents can await with unconcern the work of the two conventions. We say the two because as there is nothing certain in politics it is possible the independents, or many of them, will not decide upon their course in the campaign until they have inspected the democratic ticket.

THE SILVER QUESTION.

NEW YORK, Sept. 12. The Sun says: An other important phase of Treasurer Jordan's effort to circulate standard silver dollars and subsidiary coin has been developed. It was learned yesterday that the supply of legal tender notes held by banks of this city has been decreased in the last two weeks nearly nine million dollars. This extraordinary decrease occasioned much comment amongst the presidents of banks represented in the clearing house association. The comment is not favorable to Jordan's construction of the clause in the silver bill providing for the issue of silver certificates deposited in lieu of standard silver dollars. A bank president said last night that Jordan's construction of the clause, while undoubtedly within the law, nevertheless is decidedly too rigid at this season of the year, when the cotton and other crops have to be moved by money supplied by New York banks.

"The big banks in this city," continued the bank president, "are now sending south every week everywhere from a quarter to a half a million apiece, in five, ten, twenty and fifty dollar bills. We are compelled to do it because we haven't silver dollars to deposit with the sub-treasury in order to get silver certificates. We will not handle silver dollars. We will not even take advantage of the law which gives us the right to make them a part of our reserve. Last year Gen. Spinner's construction of the clause gave us \$23,000,000 in silver certificates in lieu of deposits of gold. Of course that was an evasion of the law, but it tided us over and assisted southern merchants and everything was serene. Now we haven't any silver certificates, our supply of small bills are daily growing less and less and if something is not done we shall have to fall back upon our gold supply. Of course we could send them silver dollars, but southern merchants will not stand the expense of handling silver. Why, I know of bank presidents chasing around in cabs, scouring the city for small bills for southern customers. The sub-treasury cannot supply us and we are in a pretty fix, all because of Jordan's interpretation of the clause relating to the issue of silver certificates."

A movement is on foot by which the effect of Jordan's order will be annulled. Certain bank presidents suggest that it would be possible to deposit gold treasure with the sub-treasury and receive in return standard dollars, and the next day return the silver dollars and get silver certificates. The gold would remain here, the silver certificates would be returned in time and the force of Jordan's construction would be broken.

INDIAN TERROR NOTES.

KANBAN CITY, Mo., Sept. 13.—The Times' Little Rock special says: Cattlemen are rapidly removing their stock from the Crow reservation, in accordance with the order of Indian Agent Armstrong. Several owners of herds were slow to obey, but Armstrong informed them that he would call on the president and have them forcibly ejected by troops, and the exodus became general. Several thousand head of cattle have been driven out, and by the 15th it is believed the reservation will be cleared.

THE MOLLIE MAGUIRES REORGANIZING.
SHAMOKIN, Pa., Sept. 12.—Mollie Maguire is again rampant in the upper and lower Luzerne districts. Nine murders have recently occurred in the northern coal fields, and mines are frequently fired. The murderers and fire bugs go free, and the coal and iron police seem powerless to afford protection to life and property. "Moonlight" rifle companies are drilling un molested, and the association of miners and laborers is daily growing by hundreds. It is well known here that the Mollie Maguire brotherhood has been quietly organizing since last April, and a general outbreak is confidently looked for before November. Detectives are watching for the approach of socialist Gorman of Chicago, who intends to organize a revolt among the mines. Familiar "coffin notices" have been received by a number of law and order societies.

WASHINGTON NEWS.

AN IMPROBABLE RUMOR.

Washington, Sept. 14.—Among political rumors in circulation here is one that Blaine desires to receive the republican nomination for governor of Maine this fall, and that he already has put the political machine in that state in operation to attain his end. Blaine's principal object in being a candidate is to keep in the political field, and to prove he can carry his own state.

INCREASE OF CHINESE LAUNDRIES.

WASHINGTON, Sept. 14.—It is probable that some action will be taken by the Knights of Labor soon in regard to the rapidly increasing number of Chinese laundries which have started here in the past year. There are about sixty Chinese laundries now in this city, thirty having been added in the past twelve months. Labor organizations have been appealed to to do something to prevent the increase of these establishments. They will probably issue an address to the public asking that laundry work be given to steam laundries, none of which employ Chinese labor. Nine-tenths of the family laundry business in this city is done by colored women. They are feeling the effects of the influx of Chinese very much at present. Chinese laundrymen secure more than one-half of the transient laundry work.

THE SILVER QUESTION.

WASHINGTON, Sept. 14.—It is said by treasury officials that there is no hope for the repeal of the Bland silver bill and that it is doubtful whether any legislation modifying the act can be got through congress. The subject has become of such importance that it may be made an issue in the choice of speaker, for the composition of committee on coinage, weights and measures would, in a great measure, facilitate or defeat action by the house. Of 184 democrats elected to the next congress 108 are from the southern states and 76 from northern states, and of the southern democrats 64 were members of the forty-eighth congress and 44 are new members. Of the northern members 45 are old and 31 new members. In caucus the southern members have fifteen more than a majority. The proposition from the appropriation committee at the last session of congress to suspend the coinage of silver was defeated, yeas 113, nays 152, not voting 54. Of the 152, 75 were southern democrats, 48 northern democrats and 29 republicans. Of those not voting 12 were southern democrats, 16 northern democrats and 26 republicans. In the next house the southern democrats have 12 more than in the last house, while the northern democrats fall from 105 in the last house to 76 in the next house. Calculation is made that the advocates of silver coinage in the next house will number nearly 200 members. A majority of the house is 163 members.

PACIFIC COAST.

SAN FRANCISCO POLITICIANS EXCITED.

SAN FRANCISCO, Sept. 13.—Politicians are all astir investigating a rumor that Ex-Governor Johnson had been appointed to the collectorship of the port. The fact that Mr. Johnson had finally contradicted the rumor, and that Col. John P. Irish had expressed his belief that "there was nothing in it" did not entirely allay suspicion that the report may have had some foundation in fact. The stir occasioned by the rumor showed how timid politicians are at present, and how mightily the shadow of Judge Field oppresses them with deep meditation when it appears to fall in the direction of any federal office. Judge Field having gone East, the rumor that Mr. Johnson had been preferred above all other aspiring partisans of every shade of democracy, came as a reminder that the eminent jurist, while absent, was still amid the California democracy in spirit at least.

COWARDLY OUTRAGES AT SALT LAKE.

SALT LAKE, Sept. 13.—This morning at 1 o'clock some parties, evidently Mormon re-

vengers, threw two two-quart jars full of privy vault filth, mixed with sand, through the window of the parlor of United States Commissioner McKay, who has heard most of the unlawful cohabitation cases. One burst, splattering the floor and furniture, and ruining the room. Two were also thrown at the window of United States Attorney Dickson, aimed at the bed where he slept, but struck outside the window casing, bursting over the outside walls. Two were thrown in the house of Assistant Attorney Varian, where his wife was alone with a sick child, doing much damage. There is no clue. Much indignation is expressed, and it is claimed it was a preconcerted movement.

THE OREGON AND CALIFORNIA ROAD.

REDDING, Sept. 13.—Yesterday three car loads of Chinese passed Delta to work on the extension of the Oregon and California. There is great activity at the front, and the indication is that there will be rapid construction.

"Oregon on Wheels."

The Oskaloosa (Iowa) Herald of the 3rd inst., contains a long article on Oregon's exhibit car. We give below a portion of the same:

Our readers are aware that a car of Oregon products was promised as among the fine and entertaining sights to be seen at the County Fair. That promise has been fulfilled, for on Saturday evening the car came in on the Rock Island. Commissioner Allen of the Oregon Board of Immigration is in charge of the car and is very assiduous in giving all information that can possibly be desired. What is it composed of? That is a hard thing to answer. Very many kinds of wheat, oats, rye and barley, of a quality never surpassed before; plums, prunes, apples, nectarines, and everything of that sort in endless variety, and in size and quality; vegetables that will satisfy all that there was no mistake made by the Iowa editors when they came home and spoke of the many wonderful things that were seen by them in roaming from one end of Oregon to the other. The contents of that car stand as an undisputed fact that at least for once the Iowa editor did not enlarge upon the actual fact—if he even did only fair justice to the products Oregon has. Iowa fears no rival. It extends to this splendid specimen of Oregon enterprise a cordial welcome. It comes from a great State, with a great hearted people making its valleys teem with the evidences of civilization. It wants Iowa farmers and Iowa people and it presents these products as the reward that has awaited the industry of the husbandman, laboring where the seasons are certain and where nature in all her elements is kindly and well behaved.

"The products that fill this car," said Commissioner Allen, "are simply the average products of our State. So far as the fruit is concerned, much of it was purchased in the open market—and not specially selected for exhibition purposes. As for the most of the grain nearly all of the leading varieties here shown could be duplicated on many farms, equal in every respect, and in many exhibits, far superior. What we want to do is to make plain to you that Oregon is something of a State even compared with Iowa; that our products, in many respects, cannot be matched by any of these interior western states, great as they are in productive capacity. Of course we do not try to compete with you on corn. In that we can do something, but here is pre-eminently the corn section of the world. Until recently Oregon has only been reached by a round about way thru Fisco. Now, however, the Union Pacific and Oregon Short Line give quick transit to Portland, and into our great valleys. It is there where we want Iowa farmers to come and break up some of the large farms, by purchase. Our people know how to extend a hearty welcome to all worthy people seeking homes, and this car is the big missionary to do the pentecostal work of conversion—if the people can only see it. You see with the richness of all products we also have a climate that I candidly believe cannot be matched anywhere in this union. A mild climate, it strikes me, would suit thousands of good people better than the fearful rigors that I have experienced in Iowa, for, you see, I was for many years a resident of Iowa, and think much of it. In Oregon, at Portland, I have never seen it colder than seven degrees above zero, and that but once and for about two hours in one day. Our summers are equable, nights always cool, and life in a general sense always enjoyable. Do we fertilize our land? No! Here is some wheat which is the forty second consecutive crop grown on the same land, and the last crop was 45 bushel per acre. You have heard it said that we could not grow timothy. How do those specimens strike you, for a land that could not grow them? We have thirty different varieties of wild and tame grasses here, which is probably as many as this section could show. There are twenty-three different varieties of wheat, thirteen of oats, four of rye, six of barley and as to the fruit—you can see it. Where do we go? From here to the State Fair of Iowa, Illinois, Michigan and thence to Louisville and New Orleans, expecting to be out until spring, or the end of the New Orleans exposition. "Seeing is believing," you know, and we hope to corroborate even

the statements made by the most enthusiastic real estate agent. I have received many kindnesses here, and your officers of the fair could not have been more accommodating and courteous."

PRODUCE PRICE CURRENT.

Wheat per cental in Portland, sk'd.	\$1 20
Wheat per bushel in Corvallis.	56
Oats	23
Wool per lb.	10 to 14
Flour per barrel	\$4 25 to 5 00

STORAGE. 1885.

To the Farmers of Benton and Linn Counties

I desire to remind you of the fact that I am still in the Warehouse business at my old stand, and call your attention to the following reasons why I think it will be to your interest to store your grain with me:
1st. Because the O. P. R. R. Company intend putting a side track to the river, thus giving us a chance to deal with San Francisco buyers at higher prices.
2nd. I am in a position to take advantage of competition among the different lines of transportation on the river, and secure the very lowest freight rates.
3rd. I have had twelve years experience in the wheat business, and can get as much for your grain as any body else. Sacks always on hand.

Thanking you for liberal support in the past, I respectfully request all my old customers to continue their patronage, and ask all new men to call and see me before engaging elsewhere. I shall make it my duty, as well as pleasure, to do a straightforward business

JAS. A. CAUTHORN, Corvallis, Or., July 15, '85.

Corvallis, Yaquina, San Francisco VIA Oregon Pacific R. R. and STEAMSHIP LINE. Trains on and after Sept. 14th, Leave Corvallis Tuesday, Thursday and Saturday, 10 a. m. Leave Yaquina Monday, Wednesday and Friday, 8 a. m.

RATES Between Corvallis and San Francisco First-class and Cabin passage... \$14 00 " " Steerage " " " " 7 00 Grain per ton 2000 lbs. 4 50

Thus saving to the farmers and merchants of the valley Thousands of Dollars.

Willamette river boats will hereafter connect with trains at Corvallis. This new line is prepared to transport all the freight and passengers offering. WALLIS NASH, Vice Pres. CHAS. C. HOGUE, A. G. P. & F. Agt. Corvallis, Oregon.

REMOVAL. I wish to call the attention of my patrons to the fact that I have moved my Harness Shop from my old stand to the shop on Main street formerly occupied by Cameron Bro's. I shall carry a good line of harness and saddles, and by honest work and fair dealing endeavor to merit a share of your patronage
