The greatest artesian well in the world is in France, it is 1790 feet deep and flows half a million gallens of water per day.

On the 12th of the present month it had rained almost steady st San Francisco for five days. The total rain fall for the month at that time was 8 and 7-100 inches. A pretty good rainfall in a place where drouth is common.

Treaties were made between the United States and China, through the efforts of the republican party and under that treaty laws were passed by a republican Congress to prevent any more almoneyed Chinamen coming into our country to sap the butter and bread from our laboring people. The present democratic administration has virtually annulled those laws and treaties because they prefer Chinamen to white people, and hence through democratic are not to blame for coming here, it is the fault of the present democratic administration in annulling the law. THE UNPROTECTED PUBLIC

The following from the Roseburg Review so aptly fits the disturbances at entertainments at Corvallis where hoodlums always disturb the whole assembly to such an extent that every person becomes disgusted, that we publish it in full as fellows:

"When people go to an entertainment, and pay their money therefor, they expect those having charge to keep such order as those attending will be able to hear. There is no use to depend upon marshals, secret police, or sheriffs, not that they are inefficient, but in all public assemblies under the statute, any person having charge, is clothed with authority to keep order. Such dissatisfaction has been expressed by persons attending that beautiful play, "Above the Clouds," last Monday night at the Hall, that these lines are called forth. The Y. D. Band gave us a good play, but they are responsible vent Chinamea coming to the United for the inexcusable bad conduct of the States centrary to law. The chinamen hoodlum element. One concentrated, double and twisted American hoodlum can mar a whole evenings enjoyment. Hereafter if those in charge of public meetings can not restrain the unnecessary noise, and annoying confusion, which prevents people from getting the value of their money, let the money be returned, or else we must consider that money has been obtained under false AAY RAKES and FORKS, pretenses. We have heard an almost universal complaint this week about the noise interfering with a proper appreciation of the drama last Monday evening. Sentence after sentence; was lost by the audience not being able to hear. Of course no well bred boy or girl, man or woman will misbehave on such occasions. And since the present generation cannot afford to wait for the evolution" of a better race, or the survival of the fittest," (and the "fittest" might possibly be the element that is giving the people now on the stage of action so much trouble,) a higher intelligence should at once restrain and correct these "tendencies,"
