MISCELLANEOUS

## RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"I have been troubled with rheumatism at the knee and foot for five years. I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CARROLL, BUREKA, CALIF.

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles." SAMUEL HERRINGTON, So. Cornish, N. H.

**Effects Lasting Cures.** Paine's Celery Compound has performed many other cures as marvelous as these—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and is entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?

## A DESIRABLE FARM

Situated two miles above Mehama, Marion county, Or., and three miles from the line of the Oregon Pacific railroad.

**—THIS PLACE—**

Consists of 452 acres of both hill and level land, containing rich, black soil for meadow purposes. There are about 200 acres that are covered mostly by small underbrush such as hazel, willow, and small fir, which can easily be grubbed up fixing it ready for the plow; the other portion is partly mountain sides and heavy timber but is splendid pasture; eighty acres of this has had the fir slashed and burnt off and is now covered with nice orchard and timothy grass, the seed having been sown four years ago.

A GOOD HOUSE, with the necessary outbuildings, is already erected on the farm close to a running brook; and a barn suitable for most any farmer, is also built; also sheep sheds, etc.

THE ORCHARD consists of about 200 trees of choice varieties—prunes, apples, cherries, etc.; they are now 6 years old and will soon furnish large quantities of fruit. Quite an amount of small fruit also.

There is about fifteen acres seeded to Timothy grass for hay and about THIRTY acres ready for plowing purposes.

THE FENCES are all substantial, ranging from seven to nine rails high; a county road passes along by the place. The north side for over 2 miles is bounded by the clear, running waters of the Little North Fork of the Santiam river, in which is an abundance of mountain trout, and in April and September salmon inhabit the river.

THE PRICE asked is a very reasonable one, and will be made known to any person, desiring to purchase, upon application to F. S. CRAIG, at the office of THE CORVALLIS GAZETTE, Corvallis, Benton Co., Oregon.

HOW DO YOU PART YOUR HAIR?

"On the right, if you please," said the reporter to a tonsorial artist, who, brush and comb in hand, was about to part his hair on the left side of the head.

"All right, sir," remarked the barber, "was going to part it on the other side from force of habit."

"How many people part the hair on the right side?"

"Should say less than one in twenty."

"And why do so many men part it on the left side?"

"Because," replied the artist, brushing back a stray lock, "they have been brought up to it from infancy. A mother facing her boy always holds the comb in her right hand, and it being easier to comb the hair from left to right, she parts it on the left. The boy when he grows up and is able to comb his own hair finds the part on that side and follows the line marked out by his mother. That's why the majority of men part on the left."

She looked simply entrancing as she sat in the union depot the other day. In her lap she held a little skye terrier, which she was caressing tenderly. Soon the regulation dude blew in the waiting room, and as he past her, remarked, just loud enough for her to hear, "I would I were a dog."

"Never mind, you're young yet," she responded sweetly, and he suddenly remembered that his train was waiting.—Minneapolis Tribune.

"The people of the United States owe much to the newspapers," said a lecturer, and three or four editors in the audience began to wonder how he had gained access to their business books.

## OUR LITTLE SON,

Four years old, afflicted with a painful skin disease. Six doctors tried to cure him, all failed. Got worse and worse. Completely cured by one set of CUTICURA Remedies, costing \$1.75.

Our little son will be four years of age on the 25th inst. In May, 1885, he was attacked with a very painful breaking out of the skin. We called in a physician, who treated him for about four weeks. The child received little or no good from the treatment, as the breaking out, unassisted by the physician to be given in an aggravated form, became larger in blotches, and more and more distressing. We were frequently obliged to get up in the night and rub him with soda in water, strong liniments, etc. Finally, we called other physicians, until we lost heart and attempted to cure him, all alike failing, and the child steadily getting worse and worse, until about the 20th of last July, when we began to give him CUTICURA RESOLVENT internally, and the CUTICURA and CUTICURA SOAP externally, and by the last of August he was so nearly well that we gave him only one dose of the RESOLVENT about every second day for about ten days longer, and he has never been troubled since with the horrible malady. In all we used less than one half of a bottle of CUTICURA RESOLVENT, and a little less than one box of CUTICURA, and only one case of CUTICURA SOAP.

## SCROFULOUS HUMORS.

Last spring I was very sick, being covered with some kind of scrofula. The doctors could not help me. I was advised to try the CUTICURA RESOLVENT. I did so, and in a day I grew better and better, until I am as well as ever. I thank you for it very much, and would like to have it told to the public.

## A TERRIBLE MISFORTUNE.

It is a calamity of the direst kind to feel that one's physical energies are failing in the prime of life—to feel more nervous, more despondent, weaker every day. Yet this is the unhappy lot of hundreds who surround us. A source of renewed strength, which science approves, in behalf of which multitudes of the debilitated have and are every day testifying, and which, in countless instances, has built up constitutions sapped by weakness and infirmity and long unbenefited by other means, surely commends itself to all who need a tonic. Hostetter's Stomach Bitters is such a medicine—pure, botanic, soothing to the nerves, promoter of digestion and a fertilizer of the blood. Dyspepsia and nervousness—the first cause, the second a consequence of lack of stamina—depart when a course of the Bitters is tried. All forms of malarial disease, rheumatism, kidney and bladder trouble, constipation and biliousness are annihilated by this standard family medicine.
