

Corvallis Gazette.

OCEANS OF MILK.

"There are \$2,000,500,000 invested in the dairying business in this county," said a citizen with a predilection of statistics to a Philadelphia Press man. "The amount is almost double the money invested in banking and commercial industries. It is estimated that it requires 15,000,000 cows to supply the demand for milk and its products in the United States. To feed these cows 60,000,000 acres of land are under cultivation. The agricultural, dairy machinery and implements in use are worth over \$200,000,000. The men employed in business number 750,000 and the horses over 1,000,000. The cows and horses consume annually 30,000,000 tons of hay, 90,000,000 bushels of corn-meal, about the same amount of oat-meal, 575,000,000 bushels of oats, 2,000,000 bushels of bran, and 30,000,000 bushels of corn, to say nothing of the brewery grains sprouts, and other questionable feed of various kinds that are used to a great extent. It costs \$450,000,000 to feed these cows and horses. The average price paid to the laborer necessary in the dairy business is probably \$20 a month, amounting to \$180,000,00 a year.

"The average cow yields about 450 gallons of milk a year, which gives a product of 6,750,000,000 gallons. Twelve cents a gallon is a fair price to estimate the value of this milk, a total return to the dairy farmer of \$810,000,000 if he sold all his milk as milk. But 50 per cent of the milk is made into cheese and butter. It takes 29 pounds of milk to make one pound of butter, and about 10 pounds to make one of cheese. There is the same amount of nutrition in 8 1/2 pounds of milk that is in one pound of beef. A fat steer furnishes 59 per cent of boneless beef, but it would require about 24,000,000 steers weight 1,500 pounds each to produce the same amount nutrition as the annual milk product does.

THE NEXT SPEAKER.

The prospects of a special session of congress in October have stimulated the various candidates for the speakership of the Fifty-first congress, and already an active campaign has been begun by each. The leading candidates for office are William McKinley, of Ohio; Joseph G. Cannon, of Illinois; Julius Burrows, of Michigan; and Thomas Reed, of Maine. With the exception of Reed, it is said, all these candidates have the endorsement and support of the delegations of their respective states. McKinley expects also the Indiana delegation and some from the South. Burrows hopes to secure the endorsement of the congressmen from the Northwest. Cannon claims to possess the influence of the administration, which will be exerted in his behalf. Reed's chances for the place are apparently very poor. He is recognized as one of the most brilliant men on the floor of the house, but there seems to be a general desire, even among the Maine delegation, to keep him there, where he can be of more value than in the speaker's chair. He has, however, a number of friends in the New England states who will do all in their power to gratify his ambition.

Butterworth, of Ohio, is said to be the only dark horse in the race so far. He hopes in case McKinley fails, to secure votes enough to place him in the chair.

The western states have not decided upon any particular candidate, but they could not do wrong in choosing any of those so far named.—Telegram.

THE SIOUX RESERVATION.

United States commissioners have for some time past been negotiating with the Sioux Indians in Dakota for the purchase of a part of their lands, amounting to about 11,000,000 acres, which it is proposed to throw open to settlement. In order to secure this land it is necessary to have the signatures of 4000 Indian men to the deed, and the present prospects are very unfavorable towards securing the requisite number, many of the Indians opposing the disposition of the lands.

Much has been said about the natural wealth of this particular part of the Indian reservation, and some have characterized it as "the garden spot of Dakota." A Colorado paper is doubtful if the new country is as desirable as these glowing pictures make it appear. It resembles in some respects that part of Nebraska which lies immediately south of it, which is unproductive enough. However, it is probably not so dry, for it is nearer the Missouri river, and the aridity of the western country seems to depend to some extent upon the distance from that river. Undoubtedly there are some desirable locations, and in case the is opened to settlement, there will be a great scramble for them. It is possible that these supposed barren spots could, by cultivation and proper attention, be made productive, and there will be found many people who will be willing to make the trial. The opening of the country would result in good for south Dakota by increasing her population and wealth.—Telegram.

MOTHERS!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents. 3:16-2y.

A PUBLIC BENEFACCTOR.

"Who is H. H. Warner, of Rochester, N. Y., whose Safe Remedies, especially Warner's Safe Cure, have attained such success and celebrity at home and abroad?"

The question is inspired as much by affection as curiosity, since through his instrumentality hundreds of thousands, in both hemispheres, have been restored to health and happiness. Hon. H. H. Warner, then, is a leading and honored resident of Rochester, not only, but a prominent and influential citizen of the United States. On several occasions chosen by his party as a national delegate to nominate a President of the Republic, he has been a member of the Republican State Committee and of its Executive Committee. He is a member of the American Institution for the Advancement of Science, President of the Rochester Chamber of Commerce, a successful and upright business man. He has given away fortunes in charities. The celebrated and costly Warner Observatory of Rochester was conceived, endowed, and is maintained by him. His munificent prizes for the discovery of comets has been at once the wonder and delight of the scientific world.

The yellow fever scourge in the South, the Ohio floods, the fire disasters of Rochester and other cities awakened his profoundest sympathies and in each instance his check for from \$500 to \$5,000 swelled the several relief funds. Where other wealthy men give tens and hundreds, he gives hundreds and thousands.

His charities are as ready and magnificent as his enterprises and public spirit are boundless. The world has need of more such men. An incident led him into the manufacture of medicine. Seized some twelve years ago with what the ablest physicians termed fatal kidney disease, he was miraculously restored to health by what is now known as Warner's Safe Cure. At once he resolved to make known the merits of so potent a remedy, and the consequence is that to-day he has immense laboratories and warehouses in the United States, Canada, England, Germany, Austria, Australia and Burma. Sales of his Safe Remedies are enormous, and their power over disease simply marvelous.

The merit of a production is in exact keeping with the character of its producer. An honest and reliable man himself, Mr. Warner makes honest and reliable medicines—a fact abundantly attested by their phenomenal efficacy and popularity.

RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—so say those who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around, and feel as lively as a boy." FRANK CARROLL, Eureka, Nevada.

Paine's Celery Compound

"I have been greatly afflicted with acute rheumatism, and could find no relief until I used Paine's Celery Compound. After using six bottles of this medicine I am now cured of rheumatic troubles."

Effects Lasting Cures. Paine's Celery Compound has performed many other cures as marvelous as these—copies of letters sent to any address. Pleasant to take, does not disturb, but aids digestion, and entirely vegetable; a child can take it. What's the use of suffering longer with rheumatism or neuralgia?
