CORVALLIS, OR., JULY 26, 1889.

A SMALL YIELD.

The present indications are that the world's wheat crop for this season will be smaller than it has been for the last several years. The East India yield is reported to be very small, so small in fact as to form no part in the general estimate. Besides this there are two other great exporting countries which will hardly raise enough cereals this year to supply their domestic demand. These are Russia and Austro-Hungary.

For the last two seasons Russia has had a large surplus of wheat and has borne the market down with the weight of its export. Now her great granaries like those of Odessa are empty. Empty also are her fields of ripening grain. Long drouths in the spring followed by fearful storms in the early summer have destroyed the wheat and oat prospects in Russia and the barley, rye and wheat of Austro-Hungary, Roumania and eastern Germany. England, France and Italy buy vast quantities of grain from these countries, and the failure of their supply is, therefore, a serious matter for them, especially in view of the failure of the India crops.

It is more than likely that American farmers will reap the benefit from the misfortunes of the Old World. The American cereal yield for this season is, so far as reported, immense. Prices for wheat have been so long low that the farmers have about abandoned hope that they will ever advance. The present outlook, however, is surely bright.

BLAINE'S CONDITION.

In want of something startling for an item of news, some paper started a report that Blaine was going to resign from his position in Harrison's cabinet on account of his health. However, he has denied it to be the truth. It is the hope of all the people of this country that his health will outlast his duties as secretary of state.

There are rocks ahead which he has desisted and past which he should be the pilot of the state. The fisheries question is one of these. The relation of the United States to the South American states is another. The relative power of our nation upon the Pacific ocean is a third. All of these issues need for them proper solution. The country wants at least four years of republican rule under Harrison and Blaine.

In John Wanamaker's Philadelphia establishment the employees receive a certain percentage of the profits. A distribution is made monthly among employees irrespective of the length of service. These monthly distributions amounted to \$58,263 during the past year. Besides this, there is a portion of the profits set aside for the benefit of those who have been in the employ of the firm for over seven years. This fund is distributed annually, and for the year ending April 12, 1889, amounted to \$44,185, which sum has been divided between about 400 employees.

The Oregon press association will meet at Newport for a two days' session on Friday and Saturday, August 23rd and 24th. The people of that city are preparing to receive the scissor wielders and paste-brush slingers in royal style.

The highest salary paid the captains of the big ocean steamship lines is \$2,500 per year. The masters of tramp steamers get about \$800.

A steam fire engine first, then a racing cart for the fire boys, is what the GAZETTE would like to see.

KNOT TIES.—Judge Hologate had two nuptial knots to tie this week. The first was a Miss Robnett and B. F. Smith on Monday afternoon in the court room, and the other was Mrs. Bright and James Bell—both over 63 years of age. There is no doubt that Mr. Bell will see brighter times in his life from now on.

TUMOR CUT OUT.—Tuesday afternoon Dr. Applewhite performed a rather difficult operation on Mr. Dingle, stenographer in the Oregon Pacific office, by cutting a small "fatted tumor" from beneath his right eye. The tumor was about the size of a peanut.

As everything is very dry at present, be very careful of fire.

PENNOYER AGAIN.

EDS. GAZETTE:

The Oregonian gives Governor Pennoyer credit for saying that the railroad commissioners shall have no more pay, also he gets his drinking water from the Willamette river.

What effect his effort to prevent the secretary of the state from paying the commissioners according to law will have, I am unable to say, but it is very probable that his drinking from the Willamette river is the cause of the extremely low water this season. Springs and wells are drying up all over the country, the boats have not been able to reach the last year's wheat crop in the upper valley, the bars along the river are grinning in the sun while the bottom of our beautiful river can be seen in many places but a few inches beneath the water from shore to shore. The whole river shows some terrible drain, in fact, the water seems to be sucked away faster than it can run down from the mountains. G.

RECOMMENDING APPROPRIATIONS.

From Chief Clerk J. C. Shofner, of Captain Young's office, United States engineers, it is learned that the statement in yesterday's dispatches, that Captain Young had recommended an appropriation of \$250,000 for this year's work on improving the entrance to Coos bay, and \$75,000 for Yaquina bay, was perfectly correct.

Owing to a change in the project for the improvement of Yaquina bay, the cost will not be nearly so much as at first estimated. Instead of extending the south jetty away out into deep water, it was deemed better to build another on the north side nearly parallel, leaving a comparatively narrow entrance. There is a reef of rocks a short distance out, and it was feared that if the jetties were extended out toward this bar would be formed there which would obstruct the entrance.

At Coos bay a large expenditure will be required to make a straight channel. As regards the depth of water on the bar, Coos bay is now one of the best harbors on the coast, having twenty-four feet. The work of expending a \$75,000 appropriation there has been commenced by Contractor P. O'Neil. When this is finished the \$250,000 will be expended in running the jetty out far enough to give the current a course which will sweep out a straight channel, thus greatly improving the entrance.—Oregonian, 25th.

AN ODD WILL.

Nashville, Tenn., July 22.—An odd will has been filed for probate here. Mrs. Mary Ann Schaub died without relatives. She had surrounded herself by a number of dogs and cats, and had accumulated property valued at about \$6000, and this she leaves in trust for two of her favorite dogs. She provides that a sufficient sum shall be reserved from her property to maintain these dogs in comfort as long as they live, and especially orders one bed and clothing for their occupancy. A young lady whom she adopted some years ago, is made the second beneficiary, upon condition that she will live in the house and care for these dogs for a period of eight years. If, at the end of this term, her task has been dutifully performed, she shall come into possession of the entire property.

DENN SHOT.—While out hunting yesterday Marshal Dunn received a stray No. 8 shot from Charles Henkle's gun, who was about fifty yards off. The shot struck him just above the left temple. Dr. Applewhite took the piece of lead out.

L. Samuels, publisher of the West Shore, at Portland, was in this city this forenoon. The next issue of his journal will contain a firm supplement of the Yaquina bay country. He also says that in about one hour's time while here this a.m. he has sold 5,000 more of the Corvallis supplements.

MOTHERS!

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation, its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35 doses, 35 cents. 3-16-2y.

\$50 Reward!

And will deed the right of any state that is unsold.

Fifty dollars will be paid at the office of J. D. Clark by R. S. Harrington to any party that will produce any other two family clothes washers of any description that can do the work of one of the Harrington Washers. Price \$5. R. S. HARRINGTON.

A list of canned goods carried by E. F. Padlock, "The People's Grocer," who makes it a point to secure anything new in this line that may present itself in the market: Chipped beef, corned beef, clams, deviled chicken, deviled ham, two kinds, deviled lobster, deviled tongue, deviled turkey, lunch ham, lunch tongue, lobsters, oysters, pig feet, roast chicken, salmon, shrimp, plum pudding, condensed milk. Besides a full and complete stock of all kinds of canned fruits and vegetables. Campers and picnic parties will do well to bear this fact in mind.

The schooner Mischief went out on a deep-sea fishing tour on Monday last and after staying a few hours 367 fish were hauled in. A large whale was seen about a quarter of a mile from the boat, spouting water and blowing. The spot where the fishing was done was about five miles out from Seal Rocks.

The long conglomeration of words in the telegraph columns of the Oregonian concerning the territorial convention at Olympia, W. T., is about as interesting as the proceedings of an Oregon legislature.

The corner stone of the new school house is situated in the northeast corner of the foundation. Upon the side facing the east are cut the words: "School Dist. No. 9, July 8, 1889."

B. M. Martin, of Nebraska, a friend of R. S. Harrington, arrived in Corvallis about ten days ago and Tuesday purchased thirty acres of land near Mulkey's farm, from D. Carille, paying \$25 per acre.

A number of freight cars were considerably damaged on Wednesday by the too sudden reversing of the locomotive near McMinnville. Some horses got out of the track.

The new rooms of the Occidental hotel having been completed the furniture is now being placed therein, Philip Weber supplying Mr. Cann with the necessary amount.

A large amount of wheat sacks were received by W. A. Wells, the graindealer, yesterday, ten bales coming from Portland and twenty from Frisco.

Those thistles have not yet been cut down—those that are so plentiful in the vacant lots and on some of the streets.

Several of the broken cross walks about the city have been repaired during the past few days.

There is quite a lumber yard in the vicinity of the Oregon Pacific depot.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

ITCHING AGONIES.

Every Night I Scratched until the skin was raw.

Body covered with scales, like spots of mortar. An awful spectacle. Doctors useless. Cure hopeless. Entirely cured by the Cuticura Remedies in five weeks.

I am going to tell you of the extraordinary change your CUTICURA REMEDIES performed on me. About the 1st of April last I noticed some red pimples like coming out all over my body, but thought nothing of it until some time later on, when it began to look like spots of mortar spotted on, and which came off in layers, accompanied with itching. I would scratch every night, until I was raw, then the next night the scales, being formed meanwhile, were scratched off again. In vain did I consult all the doctors in the country, but without aid. After giving up all hopes of recovery, I happened to see an advertisement in the newspaper about your CUTICURA REMEDIES, and purchased them from my druggist, and obtained almost immediate relief. I began to notice that the scales crept gradually dropped off and disappeared one by one, and have been fully cured. I had the disease thirteen months before I began taking the CUTICURA REMEDIES, and in four or five weeks was entirely cured. My disease was eczema and psoriasis. I recommended the CUTICURA REMEDIES to all in my vicinity, and I know of a great many who have taken them, and thank me for the knowledge of them, especially mothers who have babies with scaly eruptions on their heads and bodies. I cannot express in words the thanks to you for what the CUTICURA REMEDIES have been to me. My body was covered with scales, and I was an awful spectacle to behold. Now my skin is as nice and clear as a baby's.

Sept. 21, 1887.
Feb. 7, 1888.—No trace of the disease from which I suffered has shown itself since my cure.

Cuticura Remedies.

Cure every species of agonizing, humiliating, itching, burning, scaly, and pimply diseases of the skin, scalp, and blood, with loss of hair, and all humors, blotches, eruptions, sores, scales, and crusts, whether simple, scrofulous, or contagious, when physicians and all other remedies fail.
