Scratched 28 Years.

Body covered with scales. Itching terrible. Suffering endless. No relief. Doctors and medicines fail. Speedily cured by Cuticura at a cost of \$5.

Cured by Cuticura

If I had known of the CUTICURA REMEDIES twenty eight years ago it would have saved me \$200.00 (two hundred dollars) and an immense amount of suffering. My disease (psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man but feel rich to be relieved of what some of the doctors said was leprosy, some ringworm, psoriasis, etc. I took ... and ... Sarsaparilla over one year and a half, but no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them were three boxes of CUTICURA and three bottles of CUTICURA RESOLVENT, and two cakes of CUTICURA SOAP. If you had been here and said you would have cured me for \$200.00, you would have had the money. I looked like the picture in your book of psoriasis (picture number two). "How to Cure Skin Diseases," but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched twenty eight years, and it got to be a kind of second nature to me. I thank you a thousand times.

A FARMER'S LUCK.

We were within about a mile of Findlay, Ohio, and the train had just begun to slacken speed, when when we felt a jar and knew that the locomotive had struck some considerable object. In the seat next ahead was a farmer and he threw up the sash, shoved out his head, and exclaimed:

"By gum! but I'm in luck!"

"Why, they have killed a horse!"

"Yes, and its my hoss!" added the farmer.

"But you said you were in luck!"

"You bet I am! I've been riding up and down this line for five years on a pass they gave me for killing an old cow which wasn't worth \$5. The pass expired yesterday, and now my old hoss, who ain't worth skinning, gits in the way and is knocked over. Luck!

Why, gents, that means a free family pass for five years more, and there are fourteen of us in the family!"—Exchange.

CRUEL AND INHUMAN.—The worst case of inhumanity that ever occurred in Lane county is reported from near Cottage Grove. Friday evening, February 14th, Mrs. Millie Waud, wife of Ed. Waud, died at her home about two miles from Cottage Grove, from neglect and starvation. About three weeks ago she gave birth to a child. When the child was but four days old, her husband left her and went to his father's house, which was but a few rods distant, leaving her in the house with her three children the oldest a boy of about four years. It is said that Waud's father, two brothers and a sister were in the house near by, but none of them went to see her, and for six days she had no one but those little children to wait upon her. Several times during the first three days she got out of bed and crawled on her hands and knees to the stove to build fires, but after that she was scarcely able to move, and after living that way six days she was found by the neighbors in a dying condition. A physician was called, but it was too late to do her any good. The neighbors state that Waud refused to give his wife the medicine left for her by the physician, but threw it away and injected morphine in her arm. Once, when some whiskey had been left for her he drank it himself. It was not until the physician threatened to prosecute him if he gave her any more morphine that he let her alone. There was some talk of lynching when the facts were learned, but the threats were not carried into effect. No punishment can be too severe for such a man. Mrs. Waud's maiden name was Millie Branstetter, and when she lived in this city was a large, healthy young lady. She was married to Waud here several years ago. He has been a victim of the morphine habit for a long time, and after their marriage it is said he soon made her a victim, and before her death she had changed so that her friends would scarcely recognize her. Thus ends a once happy and promising life.—Eugene Register.

FREE POSTAL DELIVERY.—In response to a resolution of the senate, Postmaster-General Wanamaker has sent to that body an estimate of the increased cost of extending the free delivery system to all cities and towns of not less than 3,000 inhabitants, and also of not less than 5,000. There are 664 of the former, and the extension of the system to them would cost the government \$1,317,000; and 291 of the latter, requiring \$697,225 for extending the system to them. At frequent intervals there is a demand made for reduced rates of postage, but if the people of the United States could be polled on the question it would be found that a very large majority want increased efficiency in the postal service much more than they want one-cent letter postage. There is no general demand for reduction in rates, but there is a very strong desire to have the postal service employed to better advantage.

HIGHLY PRAISED.—Forty-five marmos and masters were here this week attending the quarterly examination, and everyone of them spoke in high terms of the nice appearance of goods shown in the hardware store of J. D. Clark. There is no doubt that among the number were some who are contemplating matrimony and, of course, when two become one, it will require at least two stoves to keep the old flame of love at its regular height—and cook the flapjacks. J. D. has everything in the latest styles of heating and cooking stoves. See them before purchasing. You will be much wiser by so doing.

SOON REMEDIED.—It is said that in three hours after the ocean became quieted down last week at the bay, the sands were sluiced off the bar by the reaction of the water and the soundings showed twenty-seven feet over that obstruction. When the steamers went out the ocean was so calm that one could have followed them in a skiff.

FARMERS' INSTITUTE.—A farmers' institute will be held in Independence on March 13th and 14th, and also one at Albany on the 27th and 28th. They are given under the auspices of the state agricultural college in this city. Interesting papers and addresses will be the main features of the occasions.

LOOK YOUR HOUSE OVER AND SEE IF YOU ARE NOT IN NEED OF SOMETHING IN THE FURNITURE LINE. If so don't rush off to Portland and purchase it, but go down to J. A. Knight's furniture factory and rooms and examine his stock. He has home and foreign made to select from. The former is all substantial, as he does his own work.

JOHN GARNIER DIED AT HIS HOME ON Siuslaw, on the 11th inst., aged over ninety years. He came to this coast over seventy years ago, being only eighteen years of age when he left his home in Canada in the employ of the Hudson Bay company.

H. H. CRONIFE IS NOW THE PORTLAND AGENT FOR THE OREGON PACIFIC COMPANY, and he and his family have taken up their residence there. Mr. C. was formerly purser on the steamer Hoag.

J. B. WALKER WAS OUT TO THE FRONT ON THE OREGON PACIFIC THIS WEEK, and reports that near the tunnel the snow is six feet deep, about sixty-five miles east of Albany.

THE STEAMER BENTLEY TOOK DOWN TWENTY-FIVE TONS OF FREIGHT FOR VALLEY TOWNS ON WEDNESDAY, which had come from 'Friseo via Yaquina route.

TOMORROW WILL BE MARCH 1st, and collection day.

THE MERCURY GOT DOWN TO FOURTEEN ABOVE ZERO ON WEDNESDAY MORNING.

POOR HUMANITY.

The common lot is one of sorrow ay—at least—the pessimists, they who look at the worst side. Certainly what would otherwise be a bright existence, is often shadowed by some ailment that overhangs it like a pall, obscuring perpetually the radiance that else would light the path. Such an ailment, and a very common one, is nervousness, or in other words, weakness of the nervous system, a condition only irremediable where inefficient or improper means are taken to relieve it. The concurrent experience of nervous people who have persistently used Hostetter's Stomach Bitters is, that it conquers entirely super-sensitiveness of the nerves, as well as disease—so called—which are invited and sustained by their chronic weakness. As the nerves gain stamina from the great tonic the trouble disappears. Use the Bitters for malaria, rheumatism, biliousness and kidney troubles.

STEAMBOAT CAPTAINS WHO HAVE ATTEMPTED TO NAVIGATE THE UPPER RIVER SINCE THE BIG FLOOD REPORT THE DISCOVERY OF MANY CHANGES IN THE CHANNEL AND SAY THAT IT IS NOW A DIFFICULT TASK TO GO TO HARRISBURG. Between Corvallis and Harrisburg the changes have been numerous and it is thought at a common stage boats can do nothing between those two points before the government does some revetment and other work there. All along the river the channel has been subjected to change.

THE ALBANY PAPERS, THE DEMOCRAT AND THE HERALD, ARE SOON TO APPEAR IN NEW "DRESSES." A much-needed improvement.
