A WORD OF CAUTION. In this as in every other locality where it is known, there are hundreds of persons who are taking Jay's Vegetable-Sarsaparilla. To those we want to say one word. In nine cases out of every ten it is effecting specific cures. But word comes to us occasionally of people who report that it operates too freely upon the bowels. We want to call the attention of those to the fact that they are not following the printed instructions and are taking too much of it. If it acts too freely reduce the dose, never taking any more at any time than causes easy and perfect action. Keep this injunction in mind, and take it regularly for a while and do not indulge in too much greasy food and we will have your testimonial within a fortnight. If taken under these conditions it is an absolute cure for indigestion, dyspepsia, sick headaches, constipation, face eruptions and liver and kidney disorders. It may be asked how it can possibly cure so many ailments. But the reason is clear. All those troubles are the legitimate result of improper liver and kidney action or impaired digestive organs. Its effects upon those functions are as astonishing to the medical fraternity as to the thousands who are daily taking it.

#### TO HORTICULTURALISTS.

HOOD RIVER, OR., May 24, 1890. Benton County Horticultural Society, E. R. Lake, Secretary, Corvallis, Or.

The Hood River Fruit Growers Club, representing the people of Hood river valley, has completed arrangements for holding a grand basket picnic at Hood river June 5th, for the purpose of bringing together those engaged in the same industry. Believing that an extended acquaintance and friendly gathering of those engaged in fruit growing will be mutually beneficial, and that the delightful ride up the Columbia will give zest to such a meeting. The club extends a cordial invitation to you and your friends to participate.

Arrangements have been made with the Union Pacific for one and one-fifth fare—certificate plan—for round trip. Very truly yours,

HOOD RIVER FRUIT GROWERS' CLUB.

IMPORTANT ACQUISITION.—The latest and most important acquisition to the agricultural college from a horticultural standpoint is the presentation, by seedman E. J. Bowen, of San Francisco, of half pint samples of 285 varieties of garden and field seeds. This is a most generous and valuable gift especially as the donor expects to make it as complete as can be possible on this coast. The samples will be mounted in half pint inverted show bottles, properly labelled with scientific and common names, and placed on exhibition at the college as soon as the bottles arrive from the east.

This is another example of outside generosity and enterprise as compared with that of our home firms. It is considered a good stroke of business policy if looked at from no other point of view. It is an excellent medium for donor as well as a very useful part of the department equipment both for teaching and experimentation. There are a hundred other directions in which donations to the college equipment would be as gratefully received and fully as useful.

ANOTHER SALE.—G. A. Waggoner, who has for some time been watching developments in and about Baker City, yesterday proved his faith in its future prosperity by completing the purchase of an undivided one-half of eighty acres of land adjoining the town on the northeast. The purchase was made of J. H. Parker, and will immediately be surveyed and platted as Boyd's second addition. Mr. Waggoner has made a valuable purchase, the property being beautifully situated, with the prospect of a street car line connecting it with the business part of town within a few weeks. —Blade.

TOWER OF OBSERVATION.—Four fine sticks of timber 150 feet long have been ordered for an observation tower to be put up on Labor Heights. It will be thirty-five feet square at the base and ten feet square at the top, and will have platforms every 20 feet, so that people can go as far up as they please. It will be the tallest tower in the world made of single timbers. It will be set on concrete foundations and firmly anchored, so that it will stand steadfast though a cyclone howl through its braces.

ANOTHER BRICK.—W. E. Fisher has had a force of workmen this week at work tearing down the old wooden buildings that stood on his property next to the postoffice, and clearing the grounds preparatory to the erection of a fine brick block. The building will be 55 feet front by 75 feet deep and will be a great improvement over the old wooden structures. He expects to commence work on the new building about the middle of June.

THOSE 10-ACRE FRUIT FARMS.—The ten acre fruit farms, on sale by The Oregon Land Co., within four miles of Salem, are within reach of all desiring a homestead, and attended to with due diligence will afford a good living. Not many years hence each of these small farms will become a valuable possession.

SASH, DOORS, ETC.—Having made extensive arrangements for machinery and material, I will be prepared on April 1, 1890, to do all kinds of work in doors, mouldings, sashes, etc., etc. W. P. MARTYN, Corvallis, Or.
