THE EXHIBITION. The public school has just closed one of its most successful year's work, not only in the progress in the studies but in the attendance as well. The following programme was rendered Thursday evening to a very

large audience at Job's Opera House: The opening piece was a duet, "Qui Vive." by Misses Cauthorn and Spangler. which was well played; then came the welcome by Glen Gillette, and the answer by Daisy Rose, which was well received.

A class song by the young ladies of the first grade was followed by a dialogue from Mildred Johnson and Virginia DeNevue of and recited very nicely,

Miss Burnham's entire school appeared in a song and showed excellent training.

Mamie Cauthorn rendered a piano solo in a very creditable manner. Jamie Johnson's recitation was well done.

Next came the best parts of the evening. Miss Hoffman had drilled a class of forty six young ladies in a free gymnastics, and they did credit to themselves as well as to their led by Esther Avery. They formed a pyramid, a spiral, and other figures without charming picture.

GRADUATING EXERCISES. On Friday afternoon the pupils received their promotion checks at the school building and then marched in a body to Job's Opera House to attend the closing exercises. Neat programmes announced that the class consisted of Mamie Cauthorn, Anna Young, Mildred Linville, Gertie Carlile, Kate Mackay, Nellie McKinley, John Allen and Geo.

Mamie Cauthorn and Nellie McKinley read short, well-written essays; John Allen and Mildred Linville gave a very good recitation. Ora Spangler played Weber's beautiful "Invitation to the Dance," and Prof. Lorillard, of Albany, rendered three very fine pieces of music during the afternoon.

The professor's playing is excellent. The address to the class, by Mr. S. T. Jeffreys, was a very fine effort, as also were the remarks of Hon. John Burnett.

The diplomas were presented by Prof. Yates with very next remarks which were full of kind words for the class.

NOTES. At the close of the exercises Mamie Cauthorn, on behalf of the class, presented to Prof. Yates a complete set of Shakespeare's works. The professor was very much overcome but sufficiently recovered himself to thank the class in a few well-chosen words.

These exercises were characterized by their simplicity and lack of display; even the young ladies' dresses were models of simplicity, being entirely of white and very This is the first class that has finished the

high-school course, but we hope that each succeeding year the class will be larger. Our school building is something to be proud of, and just as much pride and interest should be taken in the school work.

On Saturday Prof. Yates was surprised with a beautiful picture from his assistants as a token of appreciation of his efforts, during the year, in their behalf.

Converging that Way .- The Colum bian of Astoria says: "The railroad situation brightens every hour. Sure of one great line, Astoria now finds much pleasure in counting up the others which are looking this way. Surveyors are coming down the river, and the Albany & Astoria company will have its men in the field next week. The Northern Pacific is not idle, but may be expected to place its engineers at work at any moment. The Coast Line from Astoria to San Francisco is far from being a chimera, and will be built within ten years." This shows that the people of Astoria are awake to their advantages as a seaport, and understand that the volume W. T. PUBLIC SPEAKING.

On Monday evening a large and appreciative audience greeted a delegation of republican candidates and speakers at Job's theatre. Mr. Lyde Baker was present but did not address the audience. Hon. D. P. Thompson was first introduced and spoke at some length toughing those subjects made issues in this canvass, in a manner which reflected credit on himself for his ability in comprehending the whole scope of the questions involved and the attitude he would manifest towards them should be be elected. He made some strong points in contradiction of misstatements made about him by his opponents. Mr. S. W. Condon, of Eugene, for prosecuting attorney was then introduced and made a splendid address in which he displayed a power of logical reasoning and an elegance of language seldom found in one of his age. Mr. Ellis, of Hepner, then made a brief address the Kindergarten; they were very graceful touching the principal state candidates and particularly Mr. Phil Metchan for treasurer, who was present, and gave some excellent views on the tariff question. The speakers were frequently interrupted by enthusiastic applause and laughter and Mr. J. H. Nicholas, of state committee, then dismissed the audience.

DIED

BLODGETT -At his home in Blodgett Valley, Benton county, on Saturday night at 11 o'clock, May 24th, 1890, William Blodgett, aged 78 years.

The deceased was one of the earliest settlers in Benton county. He was born in the state of New York in the year 1811, and afterward removed with his people to Cincinnati. In 1847 he came to Oregon and in 1948 took a donation claim in the valley which bears his name, and upon which he resided up to the time of his death. The deceased had suffered for some time with paralysis, and he recently received a severe stroke which rendered him unconscious to the last. He was buried Monday in the family cemetery on the farm.

DON'T GO OFF BEFORE YOU ARE READY, Particularly on a long journey. Be fully prepared. You cannot be, permit us to say, unless you are accompanied with the traveler's and tourist's vade mecum, Hostetter's Stomach Bitters, most genial of appetizers, acclimaters and promoters of digestion. Against sea sickness, malaria, cramps and colies begotten of badly cooked or unwholesome food and brackish water, nervousness, increased by travel, chronic biliousness and constipation, the Bitters is a sovereign preventive. It imparts a relish for food not altogether to your taste, and prevents it disagreeing with you. Never was there such a capital thing for the unfortunate dyspeptic who stands in dread of the best cooked meal. Stomachic trouble caused by ill prepared viands aboard ship, on steamboats, and rations hastily bolted at railway restaurants, is soon remedied by the Bitters, which gives a quietus also to rheumatism, kidney troubles and insomnia.

The stage was occupied by refreshment stands and the young ladies who attended them did a rushing business. The dance broke up about 3 o'clock in the morning, and it is claimed by visitors that it was the most pleasant social event of the season.
