THE WEATHER .-- The rainfall for the past month was only .39 of an inch. The average amount of moisture was man was 2,345 against 2,208 for the same 65 per cent. The warmest day gave a maximum temperature of 84 degrees in the shade; the maximum heat gathered by a black surface exposed to the sun was 124 degrees; the coldest night gave a temperature of 30 degrees, a little below freezing point; but being of such short duration no marked injury was observed. AN IMPORTANT DECISION.

DEAR EDITOR:-We quote the following from an Ottawa, Ill., paper of June 3rd and hope that it may prove interesting to your readers:

"A motion for dissolution of injunction came on for hearing to-day before Judge C. B. Smith in the matter of the Naperville church of the Evangelical Association. The court continued the injunction in an elaborate decision. The court held 1st, that Bishop Esher was legally suspended, and could not act as bishop; 2d, the Illinois conference, presided over by Elder Byers was the legal conference, independent of whether Esher was legally suspended or not, and that Esher's conference had no power to send a preacher to the Naperville church, and that C. J. Frey is the legal pastor of that church, and the trustees were enjoined from interfering with his occupation of the PENCE. 4 00 pulpit."

Bishop Esher and Bowman both had been suspended, but both set aside the findings of the conferences that tried them on the plea that they had been previously examined, clausing that which the examining elders did not order a trial they could not be legally tried. Esher persisted in claiming the right to preside at the Illinois conference, and when that conference refused to recognize his claim, he then organized an opposition conference consisting of about 26 members against upwards of 70 who refused to follow him. Eich conference sent a preacher to the Naperville church, each claiming to be legally appointed. An injunction was served on the Esher man which resulted in the above decision. ease of the Oregon conference under the presidency of J. Bowersox vs. that under the presidency of T. Bowman ing to \$14, was referred to finance are precisely the same as those involved in the above decision. M. J. B.

> IN LIVELY DEMAND.—The Astoria Columbian says real estate in that city is quite firm, and everything is advancing in value. Demands for inside property are constantly coming in, and outside property including acreage and residence lots, is selling as fast as it can be platted. Everyone holding in anticipation of the consumation of the deal with C. P. Huntington, whereby the Astoria & South Coast railroad to Hillsboro will be completed. As soon as he signs the contract values will be doubled and even then property will go at a lively rate. The lots on sale by The Oregon Land Co., in North Pacific Addition to Astoria, partake of this activity, and are quite favorably regarded as an investment.

STILL IN BUSINESS .- Among the oldest and most reliable places of business in Corvallis is the harness shop of S. A. Hemphill. For the past fifteen years he has been carrying on an extensive trade in the line of harness, saddles, etc., and during the whole time has received the most liberal share of the public patronage. He has recently had his shop moved increasing the township rates now paid to the corner of Jefferson and Main and has had it painted inside and out. besides making several changes in the work shop which makes it much more convenient. He is now better prepared than ever to do first-class work. Right here it might be said that Mr. Hemphill manufacturers nearly every article merce committee an additional survey he sells except saddles buggy whips and robes, in his shop here in Corval lis, from a halter strap to the finest buggy harness. He employs the most skilled help and superintends the work himself, and is thus able to guarantee every article he sells to be just as he recommends it. His work is all hand made. The buggy harness turned out by him, for superior durability and beauty of finish cannot be excelled on this coast. Those who are in need of harness will do well to see him before purchasing elsewhere.

A DOCTOR'S REBUKE.

Immensely More Mischief than is Generally Suspected.

Dr. King, the eminent medical writer, in a earned disquisition on our national comolaint, constipation, says: -

The great quantity of cathartic pills, etc., which are annually swallowed by the people of his country has been productive of immensely nore mischief than is generally suspected. Frue, the physic unloads the bowels, but in so doing its action tends to diminish the tone of the intestines; so that instead of removing the costiveness, it aggravates it, leaving the bowel in a more torpid condition.

Joy's Vegetable Sarsaparilla was designed to fill just such a contingency as the doctor's arraignment anticipates, viz.: instead of being a powerful mineral purgative, it is a mild vegetable laxative, that, owing to its solvent and gentle stimulating properties, is so certain a relief in constipation that it has been given away to hundreds, not to be paid for unless it was of positive benefit. It replaces constipation almost immediately with a natural easy habit, and is so mild that, unlike drastic purgatives, it can be taken indefinitely with perfect freedom and
