#### Just Thought He'd Ask.

Senator Vance of North Carolina lost his hat the other day, says the N. Y. Tribune's Washington correspondent. He came out of the senate cloak-room bare-headed, with his overcoat on his arm, and paraded the corridors, asking every one he met if he had seen a tall hat straying about anywhere. He was asking the question of Capt. May, the doorkeeper at the looby door, when the page came up with the miss-ing article in his hand. Senator Vance

was just saying:
"Of course I don't think you have seen it, you know, but I was just asking, like the man who came into my office once when I was governor of North Carolina. He was a trampish-looking man, and his clothing was worn and seedy. He looked carefully around the room and then said:

"Governor, you an't seen nothin' of a pair of boots around here, have you? I left 'em in in that corner last night, and they an't there this morning.' "I answered that I had not seen the

A ST. LOUIS PHYSICIAN.

#### He Tests a California Production. - His Report.

A St. Louis gentleman whose affliction was sick headaches was so surprised at the cure effected by Joy's Vegetable Sarsaparilla, that he called it to the attention of a relative, who hap pened to be none other than Dr. F. A. Barrett, the well-known St. Louis physician of 2652 Shenandoah Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested in it, began a series of investigations, and in a subsequent letter candidly admitted its curative

wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, biliousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarsaparilla is the best laxative and stomach regulator I have ever seen, and as a general system corrective is almost perfection itself.

THE FOURTH OF JULY.-Next Friday is the Fourth of July, the 114th anniversary of Oregon. pendence. Corvallis will not celebrate this crowds who will make the American eagle scream at other places. Some will go to Toledo and others to Portland, but a majority go to Salem and to the front on the Oregon Pacific excursion. Those who desire to spend a quiet and pleasant day in the mountains, along that beautiful stream, the Santiam river, and rest from cares of business, will avail themselves of this excellent opportunity to do so. The Oregon Pacific company have placed tickets at \$2 for the round trip, and provided room for lunch baskets with their possessors will be found in some shady nook in the bears of the Cascade mountains at noon next Friday The Salem people have made every prepara tion to have the grandest celebration ever given in the Willamette Valley. Hundreds of people will be there, seven brass bands have been engaged for the occasion. The streets will be decorated with floral arches, etc. The program will consist of place. hose races, steamer contests, bicycle races, a baseball game, fireworks in the evening and many other attractions. Corvallis will be well represented at the celebration.

### A HAUNTED HOUSE.

This body of ours has been likened unto tenement. It often has a haunted apartment-the stomach. Scared by the eldrich sprite, dyspepsia, digestion flies and refuses to return. What can break the spell, what can raise the ban laid upon the unhappy organ? We answer unhesitatingly, Hostetter's Stomach Bitters, and we are warranted in the response by the recorded testimony of myriads, covering a period of over a third of a century. A course of the Bitters begun at any stage of the affliction, and persistently followed, will terminate in cures positive, not partial. The Bitters restores tone to the epigastric nerve, renews and purifies the juices exuding from the cellular tissue that act upon the food digestively, expels bile from the stomach and the blood, and promotes a regular habit of body. Malaria kidney complaint, nervousness, rheumatism and neuralgia, give way to this medicine.
