THE HAYWOODS.—A good house greeted the Haywood Good Co. at Job's Theatre Monday evening. Their entertainment fully justified the flattering testimonials which preceded them, and it is with pleasure that we commend them to the public. All the members of the company are great in their specialties, but Alba Haywood catches the popular fancy in his wonderful and varied impersonations.

COUNCIL PROCEEDINGS.

CORVALLIS, April 28, 1891.

The common council for the city of Corvallis met in the recorder's office, pursuant to a motion of last meeting, with the following members present: Mayor Applewhite, Councilmen, Wilson, Davis, Rose, Job, Taylor and Clark. The council was called to order by the mayor.

The marshal turned in the delinquent tax-roll. On motion the delinquent roll was left with the marshal for one month, for him to collect said taxes.

On motion, the following judges and clerks of election were appointed to serve at the general election to be had on the third Monday, the 18th day of May, 1891: For first ward: P. Avery, T. J. Creighton and Ed. Belknap, judges, and D. Carlile and T. Samuels, clerks; for second ward: B. T. Taylor, J. Mason and R. Graham, judges, and Geo. Bigham, and H. Pape, clerks; for third ward: S. L. Shedd, Wm. Hartless and P. Scott, judges, and Jas. Osborn and R. C. Gibson, clerks.

On motion, the following places were selected to hold said elections: Allen & Farra's brick on Second and Adams streets in first ward, recorder's office in courthouse for second ward, and Jas. A. Cauthorn's office on First street, near ferry landing, for third ward.

On motion, a reward of \$250 was offered for the arrest and conviction of any person guilty of arson within the limits of the city.

On motion, the chief engineer of the fire department be empowered to make arrangements with the dray company to haul the apparatus during fires.

On motion, Wilson was empowered to have a fire plug put in at a point near D. C. Rose's residence.

Resolved, that the recorder have 100 posters printed offering \$250 reward for the arrest and conviction of any person guilty of arson within the city of Corvallis, and that he cause the same to be posted in conspicuous places in the city; also that he have notice of said reward printed in the town papers.

The petition of Benton County Flouring Mills Co. to have house removed out of street at foot of Jackson street was granted and so ordered.

On motion council adjourned.

J. M. PORTER, City Recorder.

TRAVELS IN SPAIN.—The joint celebration of the literary societies of the Agricultural College was held in the Assembly Hall last Friday evening at 7:30 p. m. Mr. B. B. Swann delivered an address on "Farming in Iowa" and Miss Lois Stuart read an interesting essay on "The Co-Education of the Sexes." Prof. Washburn then entertained the audience with a lecture on "Travels in Spain," which was illustrated by a magic lantern under the direction of Prof. French. The exercises were interspersed with some excellent vocal and instrumental music—Miss Fannie Meserve's solo on the cornet being especially good. The assembly then adjourned to the upper story of the building, where games were indulged in and refreshments served under the direction of Miss Snell, the Professor of Household Economy in the college. All went home, feeling that they had spent a most enjoyable and pleasant evening together.

A COLLEGE PRINTING OFFICE.—H. R. Clark and wife, who are connected with the Agricultural College, are in Portland this week. Mr. Clark, who is a printer, will select the material for a printing office at the college. It is the purpose of the board to secure an extensive plant which will enable the institution to perform all its own work in the line of printing, such as bulletins, catalogues, etc. This department will be under the supervision of Mr. Clark who will be assisted by the students. The board has for some time had under consideration the purchase of a job printing plant. Recently they concluded that it would be economy to have it, and that the "art preservative" would be a good thing to include in the mechanical course.

PLANS FOR THE COLLEGE BUILDING.—The plans of W. D. Pugh, of Salem, for the new buildings on the farm of the Agricultural College, will, in all probability be accepted. The architect has exhibited an outline of the plans and it meets the approval of the building committee. The architect will now complete his work and final action will be taken with respect to its adoption.

INCENDIARY WORK.

At about midnight of the 26th ult. a fire was discovered in the building belonging to Messrs. Addition and Callahan, and known as the old foundry, on the corner of Third and Jackson streets. The alarm was given and the fire department was soon on the scene but only in time to prevent the destruction of adjacent property. The building was used as a stable and a quantity of hay, two cows, a wagon and some other property were burned. Two horses which were in the building when the fire broke out, escaped, but were badly burned. The total loss is variously estimated at from \$1200 to \$1500.

Soon after the roof of the burning building fell in a second alarm was sounded, it having been discovered that the barn of Mr. Phillips and one adjacent belonging to Mr. Willis were on fire in the southern portion of the city. One hose company was left to control the fire in the old foundry while one hose, the engine and the H. & L. company broke away for the long run to the second fire. The hook and ladder company, however, was the only part of the department that could do effective work as there was no water in reach of the engine or hose. By the utmost efforts of the H. & L. boys and the citizens the adjoining residences were saved. The stables were a total loss and their value with contents was perhaps \$700. There is no doubt that these fires were of incendiary origin.

ABUNDANT CHERRY CROP.—The abundance of bloom upon the cherry trees this year is remarkable and indications point to an unusually large crop of the fruit. The birds which usually ravage this fruit in the bloom have not been troublesome this season. They have not been so numerous and confined their depredations to a limited variety of the trees. The evidence of the decided choice of these birds for a certain variety of embryo cherry may have recently been seen in the orchard of Mrs. St. German, in the northern portion of the city, in which one large tree was completely stripped of its bloom while the other trees appeared to have not been visited by the pests. A GAZETTE reporter was informed that this particular tree was attacked first each season.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly upon the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO. Toledo, O. Sold by Druggists, 75c.

Received this week many nobby shoes both for ladies and gents among which will call your attention specially to our patent leather in congress and button.
