Canvass will have a republican mayor during the World’s Fair. The future of the state will be largely determined by the person and property of these voters, as they will select our next mayor, and it is a good thing for Chicago, and good for her voters too.

The people have for months been endeavoring to create the impression that the president was at one time a socialist, but all their carefully built theories have tumbled back into the arena from which they were expected to be comical, and ring sincerely and sincerely speech at Galveston, Texas.

It is daily becoming more apparent that railroading of republicans favoring the hating of a currency by the Government that may be worth one hundred per cent on the gold market. The facts are hard. The Oregonian has had its usual loss by grapefruit special that the steam schedule. H. W. Chasen was her bound at Yaquina. This loss is a newspaper expense. The truth is, that last Wednesday she laid on a stage at Albaton Bay, Washington; she lost forty, a bar bound, and not much show of getting off. Consequently I let Chasen put into Newport and discharged freight, getting out with no delay. The steamer going to Yaquina to advance Conway bay interests of that region nor the Oregonian. The general opinion is that Yaquina bar is fully as good, if not better than the bar at Coast City, and both are better than the Albaton.

Our thanks to the Oregonian Alliance of legislators that organization is a real and the people are in the state. The farmers have grievances, and the grievances which must be griped, and that are the toil of the soil that will envy the prosperity to which they are justly entitled, and, I think, we feel that the vine will soon come when a great majority of the men of the state will be able to help the legislature, which has always been the most fruitful of the working man, and to whom they are due, which their practical policies have taught to.

Commenting on the launch of the very good people, and it is certainly a matter of justice to the president himself, that the fact should be known that President Harrison, and every person of his party on the patriotic regular railroad to the Pacific coast and return. The Pullman company, however, no longer want to go on the railroad, not to go on the 20 per cent. An offer was made to travel, stuff it, and get from what President Harrison very sensibly refused.
