 Bad colds are bad, but they can be worse. Everybody has one, and the constant changes in the weather will help them. One case of la grippe is reported in the city.
 Anyone wanting a monument before next Decoration day would do well to see E. W. Achison & Co. at once as they are selling at a ten per cent discount to all who purchase within sixty days.

 It is being whispered that a wedding, in which two of our most prominent society folks are interested, will take place in this city in the near future. The marriage circle is being well filled in Corvallis lately, but there is still room for more.
 The wheat market is firm at 88 cents per bushel, with a good tendency for a raise. Farmers will do well to embrace the present opportunity. Hops are looking up, but potatoes are a total failure. Good times are in sight for everybody.
 We are requested to say that those college boys who spend some of their time about the saloons had better make themselves scarce or they will be informed on. They know the rules of the faculty in regard to this matter, and it would be to their benefit to act accordingly.
 Mr. L. Walker and daughter, recently from Washington, have located in this city, and have leased Allen & Farra's corner store building on the corner of Second and Adams streets, where they will engage in the furniture business.  J. R. N. Bell, a Salt Creek newspaper man is at the Holton.—Oregonian.
 Wonder if the Oregonian means the mythical home of the defunct politician—Watchman. No. It means one of the liveliest newspaper rustlers in Oregon. Bro. Bell knows how to make money out of a newspaper, and he does it in a way that would be a credit to any country journal.
 The man who talks against his town is no better than the man who would go into a strange place and talk maliciously about his family. Logically, the comparison is the same, and whenever you say a good word about Corvallis, you are saying a good word about yourself. We are glad to say that our town has few such people. We don't need them. Our people are an industrious class.
 Isaacs & Stearns this week brought to the Willamette Valley & State Land & Loan company's office, the finest exhibit of cranberries we have seen for many a day. These berries were cultivated on their place at Waldport, on swampy ground, and they are round and plump and large and tempting. The quality demonstrates that Oregon only holds just claims on the fruit raising problem. Next?
 While it does not seem in accordance with the principles of liberty and freedom for a neighbor to forbid his friends hunting out in the open fields, yet when his family and stock are jeopardized, the action is no more than just. It causes a feeling of uneasiness when bullets go whizzing by the threshold or penetrate the wall of one's dwelling. Personal safety is of more consequence in that case than hunter's enjoyment, and the law is the only civil resort.

OLD AGE AND BEAUTY.—There are several divorce cases in the circuit court this term, and among them is one in which a handsome wife of eighteen and an aged husband of seventy winters figure conspicuously. The case, of course, is well known to our citizens. Wedlock has not been successful in this instance, and so the bonds that have made them one for a few brief months will shortly be severed, and "Smith got his goods from Brown" will put the world of gossip into activity for awhile again. This case demonstrates the fact fully that age and beauty cannot mingle in harmony. The one will not please the other any more than a snow storm will harmonize with roses or a Fourth of July oration. You cannot Foster beauty with age when beauty will not be Fostered, and therefore the circuit court is going to dissolve the partnership, and the two will doubtless be wiser, although they will probably not enjoy themselves any better than before. It seems to be true at the present day that people will marry most anybody and leave everybody else to shift about from place to place without any visible means of support or any inalienable rights. The question now that naturally forces itself to the front is, "Is marriage a failure?"

BERLIN IN ZURICH.—E. Berlin writes to a friend in this city from Zurich, Switzerland, under date of Oct. 30th, as follows: "Last Sunday I arrived here all well and happy. I went twice to the postoffice, but received nothing. The postmaster said he did not know me, and sent it right back again. * * * The most pleasure I have is to find some American to talk with." It is evident from the tone of his letter, that Mr. Berlin has been engrafted into American ways, and is thoroughly Americanized. He says he was right royally received in his old home, but leaves the impression that he don't like the "natives" of the old country, and would feel more at home in this country. We wish Mr. Berlin a pleasant sojourn at the old place of long ago.

GIRL'S ESSAY ON BOYS.—A little girl in a neighboring school essays on boys like this: "Man was made before woman. When God looked at Adam, he said to himself, well, I think I can do better if I try again, and then he made Eve. God liked Eve so much better than Adam that there have been more women than men. Boys are a trouble. They wear out everything—but soap. If I had my way, half the boys in the world would be girls, and the rest would be dolls. My papa is so nice that I think he must have been a little girl when he was a little boy."

CHICAGO'S RECORD BEATEN.—In 20 years 812 divorces were granted in Multnomah county, said to be a record which places Portland ahead of Chicago. Take the country over, from 1866 to 1886, the divorces granted were 328,716, an increase of 157 per cent. in that twenty years, while an increase of only 60 per cent. in population is passed to our credit in the same length of time. So that the increase will be seen to be general. Linn county has been doing her share.

CHRISTMAS GOODS in great variety, consisting of vases, perfume sets, fancy cups and saucers, fancy fruit plates, shaving mugs, toilet cases, albums, work boxes, glove and handkerchief boxes, and numerous fancy and useful articles suitable for the coming holidays, will be on exhibition Saturday, Nov. 21st and until every piece is sold at Kline's, the regulator of low prices.

SPECIMENS THAT SPEAK.—The Oregon State Agricultural college is engaged at present in experimenting upon specimens of sugar beets sent in from various parts of the state where they have been cultivated. Of these sixty specimens have been tested, with highly satisfactory results, all averaging from 12 to 24 per cent. sorghum. It will be remembered that 12 per cent. is the basis on which these beets are raised with profit in California, and anything below that figure is regarded as unprofitable. When sugar beets can be raised in Oregon on the 24 per cent. basis, it begins to look as if there is a flattering prospect for that industry in this state, and we do not doubt the capabilities of our soil in the successful cultivation of the sugar beet. The result of these experiments at the college will be made public in a bulletin soon to be published, and this will give the outside world an idea of the possibilities of our soil and the probable success in the cultivation of sugar beets in almost any locality within the borders of our fair state. We feel as though we could put Oregon against the world.

MARRIED.—At the residence of Chief of Police Scrafford, in this city, Thursday, Nov. 19th, 1891, Mr. E. B. Barnes, of Ohio, to Miss C. E. A. Ladow, of Michigan. Rev. Hiram Gould officiating. The happy couple will make their future home at Wellsdale, this county. The bride just arrived in Corvallis yesterday from Michigan, while the groom has been a resident of Oregon for over two years. The GAZETTE extends congratulations.

NEW PHOTOGRAPH GALLERY.—H. S. Mult and James Chase have leased J. R. Bryson's cozy little building on the corner of Monroe and Third streets, and are having it fitted up in first-class style for use as a photograph gallery. They expect to be ready to open up business by the 5th of December, when they will be prepared to cater to the public wants in the neatest and tastiest styles of the art.

THE CONGREGATIONAL CHURCH.—Saturday evening a social and oyster supper will be given at the Congregational church in this city under the auspices of the King's Daughters. The supper will begin at 5:30 p. m. and close at 9 o'clock. Oysters will be served for 25 cents. Let everybody go and patronize the King's Daughters in this instance, and enjoy a treat of delicious oysters.

Mr. Thomas Batte, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the most remedial existence for flux. His experience is well worth remembering. He says: "Last summer I had a very serious attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicinal existence." Twenty-five and 50 cent bottles for sale by T. GRAHAM.

Can't Cook as Mother Did!

How many a young wife's heart has been saddened by hearing the above remark! And yet how often the words are true; especially when cake, pastry or biscuit are in question! The reason is plain, yet it is "like telling a secret."

Our mothers used and are using Dr. Price's Cream Baking Powder. They cannot be misled into using any of the ammonia or alum powders. No dyspepsia no sallow complexions, when mother did the cooking.

The first symptoms of ammonia poisoning, says a New York paper, which appear among those who work in ammonia factories, is a discoloration of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance. Dr. Price's Cream Baking Powder is the only pure cream of tartar powder that contains the whites of eggs.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact the purity of this ideal powder has never been questioned.
