WORST FORM ECZEMA Baffled the Best Medical Skill for Eight

Months. Cured in Two Months by Cuticura Remedies.

This is to certify that a child of mine had Eczuma in its worst form, and which baffled the best medical skill that could be employed here. The little sufferer was wrapped in agony for at least eight months. Six months of that time its

suffering was simply untold, then I began the use of the CUTICURA ERMEDIES, in two months the awful disease had ceased its vengeance, and my darling boy had rest, and to all appearance the disease had yielded, but I continued the medicine for several months after no trace could be seen of it on any part of his body. The doctors here watched the disease with much interest, and could only say "Well done!" The case was known far and wide, and everybody was much surprised. But thanks to Curicura Remedies Could there be anything on earth that would cause a father to rejoice it surely would be when the little innocent one could have such a remedy at hand. (See portrait herewith.)

ABOUT HOP LICE,-Prof. Washburn, of the Oregon Agricultural College, is author ity for the statement that hop lice are particularly partial to a so-called wild plum 'Peterson's Seedling,"says the Rural Northwest. Upon thickets of this variety, in

the vicinity of hops, and frequently at a listance from them, were found thousands of winter eggs. The Italian prune seems to offer no attraction. The hop lice lay their eggs on trees of the plum family in the fall. These eggs hatch in the spring and produce three generations, the last of which is winged and flies to the hop vines.

PUBLIC SCHOOL FINANCES. -A census buletin just given out is devoted to public school finances. It shows 63,353 pupils enrolled in public schools in Oregon. The per capita of teachers' wages is \$10.85 and the total per capita is \$13.99. The per capita of population is \$2.81 as against 84 cents in Tennessee, 37 in Albama and \$4.80 in Colorado. The indebtedness as compiled from the census office is \$186,020. Speaking of the fertility of Benton county soil. Oregon schools the bulletin says: "The ordinary revenues by which the public school system is sustained consists of the interest on the state school fund, a five mill county school tax, a local or district tax, and o certain minor miscellaneous receipts, no state school tax being levied. The amount distributed by this state during the school year 1890 was \$151,187. The county school tax amounted to \$411,765, and the local taxes to \$229,472, making a total of \$6J1,237 raised by taxation. The miscellaneous receipts were \$111,913, of which \$28,249 was raised by rate bills."

THE FRUIT PROBLEM .- A problem which will soon confront a multitude of fruit growers, especially in such lines as prunes, will be whether the man who raises fruit on a small or moderate scale can compete with the big growers. The advantages will be with the latter. They can afford every facility for caring for and curing their crop in the most economical way, and the volume give on the Juveniles? In this line we lead of their production will enable them to sell at better prices. There is an apparent margin of nearly four cents per pound in the price of Italian prunes in the Portland market as quoted to the producers and by the wholesale dealers to the retail merchants. The men who raise fruit on a large scale will be able to get the advantage of the greater part of this margin but the smaller producer will get the lower figures. Unless the small producers can adopt some plan of co-operation which will place them on a nore even footing with large growers, the noney will nearly all be made by the latter.

MARRIED.

DAVIS-BROWN-At the residence of Mr. Caleb Davis, in this city December 2, 1891, by Rev. E. J. Thompson, Frank T. Davis and Maggie W. Brown.

It was a very pleasant family wedding. At the close of the ceremony Mr. and Mrs. Davis received the hearty congratulations of those present and immediately started for the station to take the train for Portland. After a few days stay in the metropolis of the Northwest they return to the home farm to enter upon the stern duties and realities of married life. The best wishes of many friends will ever fol-

Queer world! Queer people! Here are men and women by thousands suffering from all sorts of diseases, bearing all manners of pain, spending their all on physicians and "getting no better, but rather worse," when right at hand there's a remedy which says it can help them because it's helped thousands like them. "Another patent-medicine advertisement," you say. Yes—but not of the ordinary sort. The medicine is Dr. Pierce's Golden Medical Discovery, and it's different from the ordinary nostrums in this: from the ordinary postrums in this:It does what it claims to do or it cost

you nothing?

The way is this: You pay your druggist \$1.00 for a bottle. You read the directions and you follow them. You get better, or you don't. If you do you buy another bottle, and perhaps another. If you don't get better, you get your money back. And the queer thing is that so many people are willing to be sick when the remedy's so near at hand.
