THE TICKET TO WIN. THE PLATFORM AS ADOPTED.

Hon, Binger Bermann Re-nominated by Acclamation--Other Nominations.

Following is the platform adopted at the republican state convention held this week in Portlands

First-We reaffirm our devotion to the republican doctrine of protection for home industries against injurious foreign competition, and we recognize the McKinley bill as the ablest expression of that principle enacted in fulfillment of republican promises and as affording equal protection to the manufacturers, the mechanics, and the workingmen of America, from an unjust and degrading competition with the pauperized and poverty-stricken labor of Euro-

pean countries, and preserving American markets for the products of American labor. Second-We denounce the democratic doctrine of free trade in so-called "raw materials," while insisting upon a high protective tariff on goods manufactured there-

from, as calculated to benefit entirely the foreign, at the expense and to the great injary of the American producer. We regard the reciprocity clause of the McKinley law as a wise and masterly stroke of re-

publican statesmanship, under the operation of which protection guards the home market, while reciprocity reaches out to the foreign market. Winne protection est.blishes, builds up, and maintains American industries, reciprocity opens a new outlet for the surplus products of our farms, workshops and factories.

Third-We favor such legislation by congress ...nd in this state as will encourage, protect, and promote the interests of agriculture in all of its departments. Protec-

tion of labor and rights of laborers such as is among the first obligations of government, Fourth-We demand protection for the wool industry equal to that accorded to the

in due time American wool growers will supply all the wool of every kind required now pending in congress as unjust and un-

> Fifth-Thoroughly balieving that gold and silver should form the basis of all circulating medium, we endorse the amended coinage of me last republican congress by which the entire production of the silver mines of the United States is added to the

school system; reservation of public lands of United States for homesteads of American citizens, and restoration to the public domain of all unsarned railroad grants; and we contemplate with pride the progress of republican legislation and administration in all of the directions named. - ,

Sixteenth-While inviting to our shores the worthy poor and oppressed of other nations, we demand enactments of law that will protect our country and people against the influx of vicious and criminal classes of foreign nations, and the importation of laborers under contract to compete with our own citizens, and earnestly approve the frigid enforcement of the existing laws by the present administration.

Seventeenth-We are opposed to the im migration of Chinese laborers to the United States, and demand such existing laws as shall effectually and forever exclude Chiese laborers from American soil,

Eighteenth-We are in favor of an amend ment to the constitution of the United States providing for the election of United States senator by a direct vote of the people, Nineteenth-Good roads being essen tial to the welfare of all communities, and especially to the farming community, we avor such amendment to the existing laws as will enable the several counties of the state to levy a tax not to exceed five mills for road purposes.

Twentieth-We take pride in commending the work of the last republican congress, which, in the face of democratic filibustering, passed the McKinley tariff law, reducing the surplus revenues many millions of dollars; increasing the free list by adding thereto many of the great necessaries of our daily life not produced here in sufficient quantities to supply the demand; and otherwise readjusted the tariff laws; passed the customs administration act; pension laws; land grant forfeiture act, restoring many million acres of land to the public domain; the postal subsidy act; the antilottery act; the anti-trust law and many other great measures, in the interests of the general welfare of the American people. Twenty-first-We congratulate the country upon the success and prosperity that have marked the administration of President Harrison. It has brought dignity, vigor and statesmanship to the conduct of our foreign affairs, and will settle many grave international complications upon a basis which secures every American right, and has indicated to the nations of the earth that it is able to and will protect the rights of the United States and of the people

thereof in every quarter of the globe. et al. Twenty-second-We favor the prompt Caroline Patterson vs Mered construction of ample defenses for all the et al. Dunham was one of Benton county's corps of teachers last year and rendered excellent service in the district where she taught. We neglected to mention, says the Demo crat, that the world did not come to an end

on March 29, as predicted by the crank, Morgan. The world will undoubtedly roll on for ages and many cranks will arise and fix the date for its end. But the public is getting used to them, and no longer gets excited over their loose tongues and looser

brains. Chas. Frantz, of Frantz Bros', naw mill in Kings valley, was in Corvallis the first of the week. Their mill started up for the season's run some three we ks ago, bu owing to the bad condition of the roads have been unable to dispose of much lumber Much building will be done in Benton county this season, and Frantz Bros. expect a large run.

A Remarkable Cure of Rheumatism Messrs. Cage and Sherman, of Alexander, Texas, write us regarding a remarkable cure of rheumatism there as follows: "The wife of Mr. Wm. Prnitt, the postmaster here had

been bed ridden with rheumatism for several years. She could get nothing to do her any good. We sold her a bottle of Chamber-lain's Pain Balm and she was completely cured by its use. We refer any one to her to verify this statement." 50 cent bottles for sale by T. Graham, Druggist

vices of our senators and representative in congress, and approve their efforts and measures for the general benefit of the state, and we especially commend their industry in behalf of measures for the opening up and improvement of the Columbia river, and we deplore all factional opposition to

these measures. Seventh-that we are heartily in favor o the passage by congress of a bill providing for a boat railway at the dalles of the Co lumbia river, which has been twice passed through the senate through the efforts of Senators Mitchell and Dolph; that we be lieve it to be the most practicable plan for relief of the producers and for the development of that vast territory of country tributary to the great Columbia river, and we are in favor of liberal appropriations for internal improvements, especially for all rivers and harbors.

Eighth-We demand the appropriation by ingress of a sum sufficient to complete the work at the Cascade locks, and that the work of completing the same be let by con"

tract. Ninth-That we are in favor of a fair and equal distribution of taxation, add believe that all property not exempt by law should contribute its due proportion in payment of the legitimate expenses of the government, and to this end we are in favor of such amendment to our assessment laws as will secure the assessment and taxation of all property at its true cash value.

Tenth-We are in favor of an early sur-

vey of the unsurveyed public lands of the state, in order that the same may be

der the laws of the United States.

Eleventh-We favor the development of our state by the construction of railroads and other systems of transportation, and we hold all corporations to be strictly responsible to their liabilities under law, and

we recognize the right of the legislature to exact all responsible limitations on corporate power.

Twelfth-The producers and laborers of the country should not be taxed to maintain convicts in idleness, and the state should

give such employment to its criminals as will relieve the taxpayers without forcing free laborers from their vocations or reducing their wages by unnatural competition. Thirteenth-We endorse the action of state railroad commission in its efforts to secure cheap transportation, and we congratulate the shippers upon the success it has attained, and we recom neud that the law be so changed as to provide for the election of the commissioners by the people. Fourteenth-The republican party, ever mindful of the service of the heroic men who served the Union, favors liberal pensions to the sailors and soldiers of the republic and a generous care of their willows

and orphans. Fifteenth-We favor economy in the adninistration of national and state affairs, the prompt and effective restraint of combines or capitalists for purposes unlawful or at variance with sound pu die policy; ample
