Last Saturday, while the 8-year-old daughter of John Henkle, of Philomath, was playing in the yard, she ventured too near the mouth of the well, the covering of which had been removed for the purpose of cleaning, and fell in. Somebody who saw her fall summoned help and the child was rescued from her involuntary bath, apparently none the worse for the wetting.

THE DAY WE CELEBRATE.

CORVALLIS WILL SURPASS ALL PREVIOUS EFFORTS—THE PROGRAM.

The anniversary of the birth of our nation is rapidly drawing near and ere the GAZETTE again appears it will have become a thing of the past. This day for which juvenile America has been saving his pennies—with a persistence and self-denial which is worthy of success—that he may invest them in explosive enthusiasm and patriotism will soon be a matter of history. On next Monday we will celebrate the 116th anniversary of the signing of that immortal document, the declaration of independence, which gave to the world a new nation, although dubbed at its first formation "The Great Experiment," has far surpassed the wildest dreams of its most sanguine founders, and demonstrated that although an experiment, it stands to day as the strongest and most stable government in existence and the model for all the rest of the world to use as a pattern. In the midst of all these festivities do not let the mind become so morbid as to lose sight of the real objects of the celebration. Let a thought be given to the manner in which this glorious country was secured to us by our heroic ancestors, the sufferings which they underwent through eight long terrible years of warfare, and let our thoughts be chastened by such reflections, when nothing remains of the heroes of Valley Forge except the remembrance of their bravery and fortitude in suffering.

The citizens of Corvallis propose to make the celebration here one long to be remembered and extend a cordial invitation to the citizens of Benton and the neighboring counties to come and join them in the celebration. We present the programme as far as it has been prepared. It is proposed to make a feature of the horseback riding by ladies and gentlemen, for which prizes will be awarded and we urge all our horsemen and horsewomen to take advantage of the opportunity.

Following is the programme:
Salute at sunrise of 13 guns.
At 10 o'clock a. m., the parade will form at the city hall in the following order:

FIRST DIVISION.
Grand marshal and aides.
Marine Band, of Corvallis.
Officers of the day in carriages.
Car containing Goddess of Liberty, Peace and Plenty.
Liberty car.

SECOND DIVISION.
Captain of parade and aides.
Philomath band.
Visiting firemen.
Corvallis fire department, with apparatus.
Boat, containing 50 boys representing U. S. navy.
Ladies and gentlemen on horseback, for prizes.
Ladies and gentlemen on bicycles.
Citizens in carriages.

The column will move south to A street, thence east on A to Second street, thence north on Second to Van Buren, thence west on Van Buren to Fifth street, thence south on Fifth to court house square, where the following exercises will take place:
Music by Philomath band.
Prayer by chaplain.
Music by Glee Club.
Reading of declaration of independence by H. G. Davis.
Music by Marine band.
Oration by W. W. Thayer, Portland.
Barbecue at 11:15.
Laying corner stone of new city hall at 1:30. Order of ceremonies given below.
Bicycle race, 1/2 mile, first prize \$15, 2d, \$10.
Tug of war contest, open for all; prize \$20.
Foot race, open for all amateurs, 100 yards; 1st prize, \$20; 2nd, \$10.
Horse race, 1st prize \$50, 2nd, \$25.

LAYING THE CORNER STONE.
A procession will form at the corner of first and Madison streets at 11:30 p. m., headed by the mayor and common council of the city and city officers, and proceeded by the Marine and Philomath bands. The procession will move west on Madison street to the City Hall, under charge of the chief of police, as marshal. On arriving at the grounds the following ceremonies will take place:
1. Music by the Marine band.
2. Deposit of box.
3. Setting of the corner stone by B. R. Job, chairman of the city hall committee.
4. Invocation by Rev. E. J. Thompson.
5. Address by Mayor Burnett.
6. Music by the Philomath band.
All persons desiring to make a deposit of small articles in the corner stone will leave them at the bank of Hamilton, Job & Co., with the chairman of the committee, before the morning of the Fourth.

In the evening the Arion orchestra will give a grand ball at the opera house and a good time is assured for all who attend. Plenty of good music will be in attendance and if you go you will not regret it.

All ladies and gentlemen who wish to compete for prizes in the horseback riding, and all horse teams who wish to enter the horse race report to Sol Stock at once; all wishing to enter foot or bicycle race report to S. L. Kline as soon as possible.

All little girls that ride in the liberty car and boys in the boat on July 4th, meet at city hall at 9 o'clock sharp on that morning.

All firemen are requested to meet at the city hall on the morning of July 4th at 9 o'clock, and bring their uniforms.

Everybody should participate in the Fourth of July dance. Tickets \$1; gentlemen spectators 50 cents.

WE GROW.—The music of the saw and hammer is heard on every side and we feel safe in asserting that there are more new buildings in contemplation and in course of construction in Corvallis than in any other town in the valley. In whatever direction one may look he will see new buildings in different stages of construction and, although there is no boom, our growth and improvements are so rapid as to almost merit the title of phenomenal. There are at least twenty residences now in course of erection and as many more are being contemplated, all of them being of a kind and style which will make a creditable showing for our city. Besides these, the business portion of the city is undergoing a renovation and remodeling which will make a surprising improvement in the appearance of the city. The work on the new city hall is being pushed as rapidly as possible; it will cost a large sum to complete and will be the best in the valley outside of Portland. The new hotel is now progressing nicely, the stone foundation is completed and the building is beginning to assume a definite form; its cost will amount to between \$15,000 and \$20,000. Fish & Murphy have fixed up and renovated the Beason building and moved their stock of stoves and tinware into it, while the room vacated by them will be immediately occupied by Peter Zeifoff, who will begin tearing down his present quarters next week to make room for a fine two-story brick. This building will have a frontage of 37 1/2 feet and a depth of 80 feet. The upper floor will be divided up for offices, and the lower floor will contain two store rooms, 20 and 14 feet front, respectively, and a hall; cost about \$3,000. Jas. Hayes' new residence is now almost completed; M. V. Avery's house is well along, the contract for painting having been let to W. E. Paul; R. E. Gibson is having put up what will be one of the handsomest residences in the city when it is completed, and new residences are springing up in all parts of the city. Yes, if anybody asks you about it, you can truthfully say that Corvallis is improving, and that at no slow rate. And this is not all. Considerable attention is being given to our streets, and the prospects are good for some of them being graded and otherwise fixed up to correspond with our position as a city. We grow.

NOTHING LIKE IT.
There is nothing that will so quickly satisfy one of the value of Chamberlain's Pain Balm for rheumatism as a personal trial. Give it a chance and see how quickly the pain will subside. For sale by T. Graham, druggist.

Carl Strege, who was so cruelly beaten with a club last week, is somewhat improved and the physicians say he has a fair chance for recovery. He has been unable, so far, to give any explanation of the affair, and the officers have not yet found any reliable clue.

THE WOOLEN MILL.—In our last week's issue we mentioned the fact that an eastern party would locate a woolen mill in this city provided a subsidy of \$5,500 could be raised by our citizens. During this week Mr. Wm. B. Humbert, the party in question, was in the city interviewing some of our business men concerning the project. He is now in Tacoma, having gone there to see his family. It is to be hoped that the plan will meet with the proper encouragement, as it is not at all likely that a more liberal proposition will ever be made, and the advantages of having the mill are apparent to all.

CASTORIA
for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARNOLD, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." EDWIN F. PARDEE, M. D., "The Withrop," 125th Street and 7th Ave., New York City.

Castoria cures Colic, Constipation, Sour Stomach, Diarrhea, Eructation, Kills Worms, gives sleep, and promotes gain. Without injurious medication.

For several years I have recommended your 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results." CARLOS MASTRY, D. D., New York City. Late Pastor Bloomingdale Reformed Church.

INJURED BY EXPLOSION.—Judge D. Carile, while at work on his place near the Odd Fellows cemetery yesterday, met with an accident which narrowly missed being fatal. He was engaged in blasting stumps with giant powder and had placed a charge in an old log which for some reason failed to explode at the proper time. He approached the log for the purpose of making an examination and had placed his left hand over the charge, which exploded just at that instant, tearing the flesh from the hand in a frightful manner and also cutting his lip and burning his face severely. No bones were broken in the hand and although the injuries are quite severe and painful, we think it is a matter for congratulation that they are not worse.

FINE FRUIT.—Wm. Hull, of Beaver creek, brought into R. Grant's grocery one day this week some specimens in the way of small fruits which surpass anything of the kind ever exhibited here before. Those he brought were the Champion gooseberry, Fay's Prolific currant and White Grape currant. The bunches were each about two feet long and the fruit was clustered so thickly as to almost entirely conceal the foliage, it showing in only a few places. Mr. Hull said that from one bush five years old he gathered seven gallons of berries. Mr. Hull's place is about 10 miles southwest of this city. Can anybody beat this record? We don't believe they can.

CITY COUNCIL.

The city council held its regular meeting last Monday evening, the mayor and six councilmen being present. The street committee, which was to report on the petition for graded streets, asked for further time to prepare their report; request granted.

On motion, it was decided to designate Egle's barnyard as the city pound, the former site of that institution being now occupied by the new city hall.

A family gathering for Mrs. Hogue, mother of Mrs. J. M. Irving, of this city, was held Saturday. Besides Mrs. Irving's family and the aged Mrs. Hogue, there were Mr. and Mrs. Powers and sons, of Shedd, Mr. and Mrs. Harvey and son, Mr. and Mrs. Harry Hogue and Miss Lena Story, of Portland, Mr. and Mrs. C. C. Hogue and Mrs. Hogue, of Corvallis, and others.—Albany Herald.

Rev. W. C. Kanner will preach in the Congregational church at 11 a. m. and 7:45 p. m. on Sunday. In the morning the subject of the sermon will be "The Church that Wins." At the evening service "The Lessons of Independence Day" will be discussed. Sunday school at 12:15 p. m. Song service preceding evening sermon. A cordial welcome to everybody.

Already the grass in places on slopes and embankments is beginning to turn brown under the hot sun, and the cry comes that more rain is needed. It seems hardly possible to believe when looking at the rank verdure of fields and gardens about town that any more rain is needed for a while.

The fruit cannery at Independence began operations last week. At one time it appeared that Corvallis would have one by this time, but those expectations have not yet been realized. It is hoped that before another year passes we will be properly in it with a well equipped cannery.

A Pure Cream Tartar Powder
ROYAL Contains Ammonia.
TAYLOR'S ONE SPOON. Contains Alum and Ammonia.

Dr. Price gives larger and fuller cans than those of any other Baking Powder manufacturer.

Above cut represents the comparative size of one pound can each "Dr. Price's," "Royal" and "Taylor's One Spoon." These cans were set side by side, then photographed down in exact proportions to admit the plate in this space. Ask your grocer to set a one pound can of any other brand alongside 1 lb. Dr. Price's Cream Baking Powder, and observe the difference, as illustrated above.

Adulterated powders may usually be detected by their heavier bulk, as shown by the small cans, and these scantily filled, often containing a circular to help fill out the cans. It is a singular fact that many of the ammonia and alum baking powders are advertised as "Absolutely Pure," All official examinations prove that it would be safe to reject all powders labeled absolutely pure.

The economy in using Dr. Price's Cream Baking Powder does not consist alone in the fact that much larger and fuller cans are given, but Dr. Price's is a stronger, purer and more wholesome baking powder than any other known. Does better work, and goes farther, hence more economical in every way.

What woman would use an ammonia or alum baking powder if she knew it? Such powders not only undermine the health, but ammonia gives to the complexion a sallow and blotched appearance.

Dr. Price's Cream Baking Powder is reported by all authorities as free from ammonia, alum, lime, or any other adulterant. The purity of this ideal powder has never been questioned.
