FREE GOVERNMENT LANDS

Fine as the choicest in California are waiting to be taken up in the beautiful

Honey Lake Valley

Under the Extensive Irrigation System of the Honey Lake Valley Land and Water Co.

EXPLANATION

THE BEAUTIFUL HONEY LAKE VALLEY CONTAINS A large area of fine level, loam lands, all ready for the plow, is surrounded and sheltered by mountains, and has a fine, mild climate the year around. Honey Lake is a body of fresh water covering one hundred square miles. The N. C. O. Railroad has recently been built into the Valley, and the Great Salt Lake road through Rockwell Pass will also cross it. The land is easily cultivated and produces extra large crops—wheat, oats, barley, hops, corn, alfalfa, vegetables, fruit and stock. Wood and water are plentiful and lumber cheap. The land can be taken up without residence under the Desert Act, in tracts of 40 to 320 acres, by a man or woman, married or single. We are building a large Water System for the irrigation of this land. We want to get customers for the water we will have to sell, so will help you to get a piece of it. The land will cost you \$25 an acre to the Government, 25 cents down, and \$100 in four years. The Water (a perpetual right and goes supply), will cost \$25 an acre to the Company, \$25 down and \$500 on delivery to the land for its irrigation. All land office business is attended to for customers by us without extra charge, and the filings supply before they will be accepted. HONEY LAKE CITY, the town we are establishing, offers good chances for the establishment of new businesses, and is well worth investigating.

TAKEN UP WITHOUT RESIDENCE

Under the Desert Act, affording a chance for the speculator as well as the homeseeker.

WASHINGTON LETTER.

WASHINGTON, July 10, '93.

Rumors are flying thick and fast of an intention on the part of the free coinage democrats to bolt the democratic caucus and vote for the republican caucus nominee for speaker, in order to repeat the administration programme, which includes the reelection of Speaker Crisp. The new House will have a total membership of 356, of whom 128 are republicans and 13 populists. Should 38 of the 215 democrats bolt the democratic caucus it would be possible to defeat Crisp; but while it is possible no well informed person considers it probable. It is more likely that these rumors are started for the purpose of obtaining concessions to the democratic silver men in the make up of the house committees through the administration and the administration that such a combination might be made. While the republicans could not prevent the populists and bolting democrats voting for their nominee for speaker if they wished to do so, they do not, as a rule, regard the election of a republican speaker under such circumstances as a very desirable thing.

Two members of the cabinet will take their vacation at government expense. Secretary Herbert, who has just returned from the world's fair, will this week start upon what he is pleased to call an inspection of the eastern navy yards. He will go on the Dolphin, and the trip will be along the Atlantic coast as far east as Maine. Secretary Iloke Smith goes Herbert Smith several better, as he, in company with his wife and three children, his father and mother, two nieces and three invited guests is now on a western inspection tour, in a private car, and will take in the world's fair and other points of interest along the route. Great is the "inspection tour," particularly when it is manipulated by a so-called reform administration. Democratic editors used to call such trips "pleasure junkets."

In addition to his efforts to reduce the pension roll, through the various methods already widely published, Commissioner Lochren has been directed by the president, according to information from a trustworthy source, to prepare a number of bills to be introduced in congress which would drop a large number of pensioners should they become laws. The intention is to put forward the most harmless bills first, as congressional pulse feelers, the others to follow in a regular order if congress appears to be in accord with the administration or to be laid aside until a more propitious time, should the contrary prove to be true. Representative Holman is in with the administration on the pension question, notwithstanding his general fondness for economy. He is reported to have said the other day that if the pension programme which has been drawn up by Mr. Cleveland and Hoke Smith be carried out the republicans would have a majority of at least fifty in the house of the fifty-fourth congress, the members of which will be elected next year.

By the death of Justice Blatchford Mr. Cleveland gets an altogether unexpected (that is, unexpected until about two weeks ago) plum to dispose of where it will do the most good to Clevelandism. Secretary Carlisle would very willingly give up the cares and responsibilities of the head of the treasury for a lifetime berth on the U. S. supreme bench. It was said at the time that Mr. Carlisle was hesitating about becoming a

ON TRIAL. That's the way to buy a medicine, but it's a pretty hard condition under which to sell it. Perhaps you've noticed that the ordinary, lit or muddled medicine doesn't attempt it. The only remedy of its kind so far known to medical science, is known to medical science. In every disease where the fault is in the liver or the blood, as Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scald and Scrofulous affections, it is guaranteed in every case to benefit or cure, or you have your money back.

To every sufferer from Catarrh, no matter how bad the case or of how long standing, the proprietors of Dr. Sage's Catarrh Remedy say this: "If we cure it, perfectly and permanently, we'll pay you \$500 in cash." Sold by all druggists.

member of the cabinet—that he was promised a seat on the bench of the supreme court before the end of the administration; but even granting that promise to have been made, it does not necessarily follow that he will get this vacancy. Secretary Gresham was reported to have received a similar promise. There was a delay of four days in the issue of the last weekly Patent Office Gazette, owing to the contract for printing it having, in the interest of democratic economy, been taken away from a concern which has the facilities for getting it out properly and giving it to one that lacks them. The same experiment was made in the early days of the first Cleveland administration and had to be abandoned because of the delay and bad work.

Mr. Cleveland's health is again a leading topic of conversation. That it has not been entirely good has for some time been apparent to those who have come into close contact with him and that his physician has forbid his doing any work or exertion is generally thought to be nothing more serious than overwork, caused by his queer habit of spending hours over routine work that might just as easily be performed by one of the clerks at the white house. A doctor who knows him, sums up his case thus: "He is just like a fat man; he is a slave to his stomach, and every once in awhile it brings him to his knees. If he does not learn to control it, it will eventually kill him—just as other fat men are being killed every day."

A Kansas man proposes to sue a rainmaker for damaging his crop during harvesting. This is rather a good idea, as it will judicially determine the value of rainmaking operations, provided judge and jury do not go crazy in the course of considering the evidence.

Hood's Cures

Dyspepsia and Indigestion.

The combination of excellent stomach tonics in Hood's Sarsaparilla is such that, with proper attention to diet, indigestion and even the worst cases of dyspepsia are cured by this medicine. A GOOD THING FOR SUMMER COMPLAINTS.

Mr. J. W. Hanger, a well known merchant of Ohio, Treddell Co., North Carolina cured four cases of flux with one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. This is the most prompt and most successful remedy in use for dysentery, diarrhoea, colic, and cholera morbus. No other medicine will take its place or do its work in this class of diseases. It is equally valuable for children and adults. 25 and 50 cent bottles—sold by T. G. Am. ugust

SURROUNDED BY MYSTERY!

A Great Mistake.

A recent discovery is that headache, dizziness, dullness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force; that indigestion, dyspepsia, neuralgia, and in stomach, etc., arise from the derangement of the nerve centers supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system, as will be seen by the accompanying diagram. The nerve centers are the brain, spinal cord, and the nerves which are connected with the organs of the body, just as the telegraph lines are connected with the various parts of the globe. The nerve system is the most delicate and sensitive part of the human body, and its derangement causes the most serious diseases. Hood's Sarsaparilla is a powerful and reliable remedy for all nervous diseases, such as headache, dizziness, neuralgia, etc. It is sold by all druggists at a positive guarantee, or sent direct by the Dr. Miles Medical Co., Chicago, Ill., on receipt of price \$1 per bottle, six bottles for \$5, express prepaid. Hood's Sarsaparilla positively contains no opiates or dangerous drugs.
