FREE GOVERNMENT LANDS

Fine as the choicest in California are waiting to be taken up in the beautiful

Honey Lake Valley

Under the Extensive Irrigation System of the Honey Lake Valley Land and Water Co.

EXPLANATION

THE BEAUTIFUL HONEY LAKE VALLEY CONTAINS A large area of fine level farm lands, all ready for the plow, as well as a number of acres of timber, and a fine, mild climate for the year around. Honey Lake is a body of fresh water covering one hundred square miles. The N. C. R. R. and the Great Salt Lake Road through Beckwith Pass will also cross it. The land is easily cultivated and produces extra large crops of wheat, corn, barley, hops, etc. alfalfa, sugar beets, fruit and stock. Wood and water are plentiful and abundant. The land can be taken up without residence under the Desert Act, in tracts of 40 to 200 acres, by a man or woman, most of all else.

We are building a large Water System for the irrigation of this land. We want to get customers for the water as well as to sell, so we will help you to get a piece of it. The land will cost you \$125 an acre to the Honey Lake Valley Land and Water Co. and \$250 an acre to the Company. \$125 down and \$250 delivery to the land for the irrigation. All land five (5) acres is attached to for customers by an "inland" extra charge, and the rights under the Desert Act as required by Congress, must show a water supply before they will be accepted.

HONEY LAKE CO., the owner, we are establishing other good chances for the establishment of new businesses, and is well worth investigating.

TAKEN UP WITHOUT RESIDENCE

Under the Desert Act, affording a chance for the speculator as well as the homeseeker.

EMPLOYMENT AT GOOD WAGES

For Men and Teams on the construction work, if you desire to make a home there

REMEMBER that these Lands are level, all ready for the plow, with rich soil, on railroad now built, and on line of another, building. Fuel is free, lumber cheap, and water plentiful. Good local as well as outside markets. The irrigation of these lands makes them immensely and immediately productive.

A FRUIT SHOW FOR OREGON.

At the recent meeting of the Oregon State Horticultural Society held in Salem the necessary preliminary steps were taken for holding a fruit show in Oregon this fall. This movement is one that is absolutely necessary to the development of the fruit growing industry of the state. The plan is to hold a fruit show in Oregon this fall which shall be of sufficient magnitude to give visitors a proper idea of what is and can be done in fruit growing lines in this state, and to convince them that the choicest of fruits are actually produced in marketable quantities. It is then proposed to take the collection to San Francisco for exhibition at the proposed exposition in that city. The plan requires not merely samples of choice fruit, but large quantities of those fruits with which Oregon expects to supply the markets of the country. Above all things there should be a great prune exhibit.

For a number of years Oregon has been engaged in planting fruit trees, especially prune trees, on a large scale. These trees are now commencing to bear, and the next thing is to establish a reputation for our fruit. The situation of Oregon is like that of a merchant who starts in business alongside of an enterprising competitor who is full of vim, enterprise and thoroughly understands and uses the art of advertising. Such a merchant, no matter how excellent his goods may be, will assuredly shut up his shop in a short time, unless he thoroughly advertises his wares. The peculiarly isolated position in which Oregon was so long situated is responsible for the failure of the people generally to understand and appreciate the value of advertising. But Oregon is no longer out of the world. The old time methods will not suit the new conditions.

Under the auspices of the Oregon State Horticultural Society a fruit exhibit was collected for the Columbian exposition. It is true that the labor and expense of making the exhibit was allowed to fall upon a very few men, but it is that fruit exhibit which has saved the state from disgrace. It has shown the visitors to the Columbian exposition that Oregon produces the finest deciduous fruits of any portion of the United States. This exhibit has received many times as much attention from eastern papers as all the rest of the Oregon exhibit combined. Merely as an advertisement to the state it has been worth probably \$1,000,000. No business, however, was ever built up by one advertisement. It is the man who avails himself of every opportunity to advertise effectively who wins.

There is every reason to expect a great number of visitors to the Pacific coast the coming fall. Many of these visitors will have had their attention called to Oregon fruits at Chicago and all that will be required to confirm their favorable opinion will be a fruit fair here at which they will be enabled to see on a broader scale what we produce.

The winter exposition at San Francisco will give an unrivaled opportunity for advertising Oregon fruits. California's reputation now rests upon fruit. The vast majority of those who attend her exposition will be interested chiefly in fruit, and all fruit exhibits will receive far more attention relatively than at Chicago. Unless Oregon can go to San Francisco and fearlessly show its fruits in open competition with California, we might as well ask ourselves the question why we are raising fruit. The day for action in this matter has come and there should be no

WRINKLES, and hollow cheeks, and dull, sunken eyes, don't always mean that a woman is old. Half the time, they only show that she is overworked or suffering. child's play in reference to this fruit fair. The object of the fruit fair is not to benefit or add glory to any individual or locality but to advance the material welfare of the state. Success can only be attained by subordinating all local or individual jealousies to the general good.—Rural Northwest.

Palo Alto stock farm, the lovers of first quality horses will be glad to learn, is to be maintained by Mrs. Stanford, who regards the further development of the senator's theory of fine racing stock both a duty and a pleasure. Among novel things proposed to be done by Mrs. Stanford is the exchange of a stallion and two mares from Palo Alto for two stallions and two mares of the Orloff breed from Russia. The Russian animals are now on their way to this country and will be exhibited at Chicago for six weeks. The Palo Alto stallion to be sent to Russia is Good Gift, by Electioneer, first dam Miss Gift, thoroughbred by Wildidle, foaled 1886. One of the mares is a three year old out of Bertie by Piedmont. The other is yet to be chosen. The Russian horses are from the imperial stock farm. The two stallions rejoice in the somewhat awkward names of Ouriadnik and Verboostchik.

The Southern Pacific company in pursuing a policy of retrenchment has discharged 1,000 employees, which will have the effect of decreasing its monthly pay roll not less than \$75,000. This whole sale discharge of employees is in addition to the recent reduction of daily hours of labor in various shops. For some time past nine hours a day has been the rule in these railroad shops, the men being always paid by the hour. Now they are working eight hours a day which is a 10 per cent. reduction in time. This is said to be equivalent to the discharge of 600 men. Dismissals from the force of trackmen were also on a wholesale scale, for not less than 550 of these employees have been discharged.

Under the peculiar circumstances of the times Mr. Cleveland is already exerted powers almost autocratic with reference to the democratic party, and the party has acquiesced in his course. If he should assume to assure the country that protection shall not be disturbed by his party, he would not be arrogating to himself anything greater than those assumptions with which the country is already familiar, while at the same time he would do much to reassure our business men and restore confidence where there is now nothing but distrust.—N. SUNSTROKE IN BATTLE!

DR. MILES' MEDICAL CO., BURLINGAME, IND.—I must say the Restorative Nerve and Nerve and Liver Pills have done me great good.

"FOR YEARS I HAVE NOT FELT AS WELL AS NOW." The starting point of my disease was a sunstroke received in battle before Port Hudson, Louisiana, June 17th, 1863. Up to the time of being taken to the hospital I had a continual distracting pain in my head; also, weak spells, and the past four years I have had to give up everything of an active character, and stay in the house for CURED months at a time. I could not walk across the street. I KNOW YOUR REMEDIES HAVE CURED ME, and that the cure will be permanent. Several of my friends are using your remedies, and all speak well of them. Yours truly,

HEAD—SPEAR HEAD possesses more quality of intrinsic value than any other plug tobacco produced. It is the sweetest, the toughest, the richest. SPEAR HEAD is absolutely, positively and distinctly different in flavor from any other plug tobacco. A trial will convince the most skeptical of this fact. It is the largest seller of any similar shape and style on earth, which proves that it has caught the popular taste and pleases the people. Try it, and you will participate in the contest for prizes. See that a TEN TAG is on every cent piece of SPEAR HEAD you buy. Send in the tags, no matter how small the quantity.

Very sincerely,
THE F. J. SORG COMPANY, MIDDLEBURY, OHIO.

A list of the people obtaining these prizes in this county will be published in this paper immediately after February 1st, 1894.
