EXPLANATION J

HE BEAUTIFUL HONEY LAKE VALLEY CONTAINS A large area of fine, level, loam lands, all ready for the plow,—is surrounded and sheltered by mountains, and has a fine, mild elfmate at the year around. Honey Lake is a body of fresh water covering one hundred square miles. The N. C. O. Railroad has recently been built into the Valley, and the Great Salt Lake road through Beckwith Pass will also cross is. The land is easily cultivated and produces extra large crops—wheat, oats, barley, hops, corn, alfalfa, wegetables, fruit and stock. Wood and water are plentiful and lumber cheap. The land can be taken up without reading the desert Act, in tracts of 40 to 320 acres, by a man or woman, married or single.

We want to get customers for the water we will have to sell, so will help you to get a piece of it. The land will cost you \$1.55 an acre to the Government, 35 cents down, and \$1.00 in four years. The Water (a perpetual right and good supply), will cost \$6.25 an acre to the Company; \$1.25 down

A Great Mistake.

A recent discovery is that headache, dizziness, duliness, confusion of the mind, etc., are due to derangement of the nerve centers which supply the brain with nerve force: that indigestion, dyspepsia, neuralgia, vind in stomach, etc., arise from the derange ment of the nerve centers supplying these or

ment of the nerve conters supplying these organs with nerve fluid or force. This is likewise true of many diseases of the heart and lungs. The nerve system is like a telegraph system as will be seen by the accompanying rut. The little white lines are the nerves which convey the nerve ire from the erve centers to every part of the ody, just as the electric current is conveyed along the telegraph wires to every part of the electric current is conveyed along the telegraph wires to every station, large or unail. Ordinary only situations fail to egard this fact; estend of treating the nerve centers for the cause of the disorders rising therefrom hey treat the nertected.
