OUR CITY DADS.

At the meeting of the city council on Monday evening, the committee on fire and water made the following report in regard to the condition and facilities of the city water works: 1st. The pumps of the water company are not managed in such a way as to insure complete and adequate protection to the city in case of fire. We find that no engineer is kept in charge at night, consequently in case of fire the city is left to the mercy of the flames until such time as the engineer can be called out and start the engine, which necessarily causes much delay and loss of property. We would therefore recommend that the said water company be requested to employ a competent engineer to have charge of and operate the pumps at night, in order to avoid this delay. 2nd. There are nine hydrants in the city, as follows: 3 on six-inch, 4 on four-inch, 1 on three-inch and 1 on two-inch mains. Would recommend that those on less than four-inch mains be immediately discontinued unless placed on four-inch mains. Third—We find that a steam fire engine fully adequate to the needs and requirements of the city of Corvallis would cost about \$2,500, and in case we cannot secure a better system would be of incalculable value to the city. Fourth—We further find that the cost of cisterns with a capacity of 20,000 gallons each will cost at the rate of about \$250 per cistern. Fifth—Would recommend that a committee be appointed to investigate the rates charged by the water company for supplying the city and report if in their judgment such rates are reasonable. A number of bills were allowed. Cost bills in the case of the city of Corvallis vs. Stewart Moore, amounting to \$13.50, was referred to finance committee. An electric light was ordered placed at the intersection of Monroe and 9th streets. A petition was presented asking passage of ordinance to license traveling solicitors for sale of shirts and clothing; petition placed on file. A resolution was adopted that hereafter no person is authorized to purchase anything for the city, except on special order from the council or on requisition from the police judge, and that no requisition shall be issued by the police judge for any article costing more than \$10, except as otherwise provided. Chief of police was instructed to issue requisition to chief of fire department for amount of wood needed. Chief of police also instructed to purchase wood for city. Old city hall ordered insured for \$700. TRUE TO THEIR PROMISE. It has been the mutual understanding among the members of the Marine band of this city that they would spare no pains to properly celebrate the marriage of their first member who should be so heavenly blessed. As time rolled on suspicious pointed to several of their number, but the first to actually do it was Mr. Frank Lilly, who was married to Miss Minnie Waggoner in this city last week, and upon the return home from their wedding tour was greeted with a serenade by the band. At the awakening strains of that little ditty, so appropriate to the occasion, "Rock-a-bye Baby," Frank came forth with a box of fine cigars. After congratulations the merry serenaders departed, and as that familiar old song as sung by Weaver, the banjo king, in the Marine minstrels, was struck up, led by the king himself, Frank was seen to go into tears in remembrance of those happy by-gone days, and, perhaps, of a previous wedding serenade in which the Marine band participated. Frank will send in his resignation to the Marine band, as he will soon be instructor and director of discords of a band of his own. THE CARRIAGE FACTORY. The good news that the carriage factory will soon again be "on its feet" and in running order with a full complement of workmen is hereby announced, all of which is entirely due to the untiring efforts of Superintendent Sticker toward the end he has almost accomplished. He returned from Portland Wednesday where he made the necessary arrangements with creditors whereby the business will again be resumed and the familiar sound of the old whistle will be music to the ears of many who have for some months been waxing fat in idleness. NEW DELIVERY SERVICE. Mr. Will A. Carlton has now about completed the equipment of his new city delivery, having purchased new teams and thoroughly overhauled his wagons. He will furnish to the people of Corvallis the meritorious delivery service that the liberal patronage of the merchants and business men have so long deserved. We hope Mr. Carlton's efforts will be appreciated, and that his business as well as that of those who patronize him will be largely increased. A PROFESSIONAL TOUR. Mrs. Lillian C. Owen left last Wednesday for San Francisco where she has accepted a twenty-two weeks' engagement with a theatrical company with which she will travel the southern circuit, then east to New Orleans. Her specialty is that of an emotional actress, and we understand she has had considerable experience in that line. Her mother, Mrs. Cannon, will remain in Corvallis during the winter. The reform movement of the city officials, reference to which is made elsewhere in THE GAZETTE, should be extended to that of Sunday closing of the saloons. If the law was observed in this particular no serious objection would be made by even the saloon keepers themselves, who would thus be enabled to enjoy the seventh-day rest according to biblical command. Why, Mr. officer, can't the saloons be closed on Sunday?

PERSONAL.

B. F. Hyland is on the sick list. State Superintendent McElroy was in the city Wednesday. President Bloss and wife spent Sunday in Eugene with friends. Schiller Herman has taken charge of his father's business affairs in Coos county. Mr. and Mrs. S. Chipman went down to Portland Monday to see the sights of the exposition. Rev. J. A. Hanna has been chosen moderator of the Willamette Presbytery of Salem. Mr. and Mrs. S. N. Wilkins are in Portland investigating the sights of the fair and purchasing new goods. Mrs. Woodward has returned from her eastern journey and is again at her post of duty in the O. P. offices. Ed. H. Stock returned from Portland Tuesday, after a week's pleasant visit with friends and relatives. He reports a fine time. Miss Ona Hathaway has been engaged to teach the Witham school this fall. Miss Hathaway taught the spring school and is well liked. G. W. Bingham has been officiating as head drayman for several days this week during the illness of Alex. Campbell's daughter. We learn through a private letter that Miss Mabel, eldest daughter of Congressman Hermann, is attending Mt. Vernon seminary at Washington, D. C. Judge Fullerton is in the city for the purpose of fixing the date of sale of the O. P. property, which he informs us will be made within the next two months. Hon. W. B. Sorsby is expected to return to Corvallis soon from his run down to San Francisco, and it is hoped he will have decided to make this his permanent headquarters. Mr. William Cress and wife were prevented from starting on their journey as was announced in last week's GAZETTE, owing to an accident which befell the former. They started last Tuesday. Mrs. Henry Pape, although absent, is not unmindful of the comforts of her liege lord during her temporary absence, and the first of the week sent him a whole box full of Jacksonville peaches. Henry is getting fat; but as to those peaches being the cause, we are not prepared to say. Prof. Wm. Stock, A. B., Ph. G., a brother of our fellow-townman Sol. M. and E. H., was last Friday elected to the chair of pharmacy in Willamette university, Portland, and will deliver twenty-four lectures during the year. He is quite well "on" to his job, and his many friends are considerably elated over his promotion. Messrs. August Fischer, Albert Gibbard and Miss Martha Rathje left Wednesday for the world's fair and will occupy three or four weeks on the journey to and from the east. Mr. Fischer has a large number of relatives near Chicago with whom he and his friends will visit, and on their return will stop at Denver and other points of interest. We hope they may have a pleasant trip. Mr. A. C. Barclay and Miss Nida Ferguson were married in Roseburg, Oct. 7. The groom has been connected with the government geological survey for a number of years and has a good standing in the community. Everybody in Corvallis knows the charming bride and it is useless to say that all unite with us in hearty congratulations. During the winter their home will be in Portland. Dave Rosebrook, the popular young cornetist who was recently married to Miss Essie Titman of Toledo, Lincoln county, will arrive in Corvallis next Tuesday and has been secured as musical instructor for both the Marine and O. A. C. bands for the coming season. Mr. Rosebrook is not only a thorough instructor in the art of music, but a refined gentleman as well and will receive the hearty approval of a music loving community. NEW "ADS." J. H. Harris, one of our popular dry goods merchants, makes a display announcement to the readers of THE GAZETTE to-day. Mr. Harris is a conservative business man and takes a just pride in giving good value for all moneys expended with him. Krause Bros. City Shoe Store, just opened to the public, tell you what they have for sale in the room recently vacated by the bankrupt J. C. Mohr stock of goods. Their business is being conducted by Mr. William Wright, a former resident of Corvallis, and as they have a first-class stock of goods, will undoubtedly get a good share of the shoe trade. George E. Egin and J. A. Cauthorn each make their bow to the public as insurance agents, and as they are well known to all our citizens, no further recommendation is needed than to say that the business they each represent will be conducted on business principles. Remember them when you need anything in their separate lines. NOTICE TO CREDITORS. All persons knowing themselves indebted to the firm of Lee & Lee are hereby notified that said claims have been left with us for collection and settlement must be made by November 1st. HARTLESS & DAVISSON. Johnny Green and Artist Underwood furnished a large crowd of laughing spectators considerable amusement Wednesday afternoon. Johnny, with his high hat, barber-pole trousers and buttonholes extraordinary was mounted upon the top of a delivery wagon and amidst the happy congratulations of his many friends presented (including members of the press) had his picture "tuck." Underwood's scheme is not known to the public, but it has been intimated that he contemplates making a display of curiosities at the midwinter fair and that the result of this somewhat muddy experiment would be No. 1 in the collection. The subject of the sketch departed for Eugene where it is understood he will assist Sheriff Nolan in his official duties. The Ida Grove Era, published at Ida Grove, Iowa, is upon our table, and is the result of a consolidation of the Ida County Watch and Maple Valley Era. The paper is a neat seven-column republican quarto, neatly printed, and bears at the head of its editorial columns the names of B. W. McKean and T. H. Beck, the former of whom will be remembered by many Corvallis citizens as once the superintendent of the city schools. Success to you, gentlemen. Judge E. Holgate on Wednesday exhibited a copy of The Welcome Stranger, published in this office in 1879 by Holgate & Wrenn. It was devoted to real estate interests, and the advertising spirit displayed by the business men of that time indicates that there was considerable enterprising push among that class of citizens.

RECEIVER BRYSON REPORTS.

The report of Receiver Bryson has been received by the court and is quite comprehensive of the condition of affairs of the institution over which he at present presides. The aggregate of the 459 claims presented by creditors of the insolvent firm of Hamilton, Job & Co. is \$223,412.25, which amount includes \$5,605.03 not upon the books of the bank when that institution closed and that were not included in the \$224,348.17 liabilities reported by the receiver at the meeting of creditors. The decrease of the liability, notwithstanding the appearance of the \$5,605.04 unlisted claims, is owing to the failure of presentation of claims amounting to \$6,540.85, by which amount the creditors are gainers. The total amount of offsets is \$17,437.28. The report confirms the view taken of the bank's affairs by Mr. Bryson in his report as receiver to the creditors, and indicates that the assets will ultimately pay out about the per cent named in that report, which was 69 per cent. -How is- Your Blood?- I had a malignant breaking out on my leg below the knee, and was cured and well with two and a half bottles of SSS. Other blood medicines had failed. WILL C. BEATY, Yonville, S. C. TRADE MARK SSS MARK I was troubled from childhood with an aggravated case of Tetter, and three bottles of SSS cured me permanently.
