Public School Notes.

The type last week made mid-term examinations appear midwinter examinations. Quite a number of pupils were in school last week when they had no work to do outside. This way of attending school greatly retards the progress of classes and cannot but result disastrously to the pupils themselves who are permitted to be thus irregular in attendance.

By the above it will be seen that the highest per cent. of attendance was attained in Miss Brenemna's room. Resolutions at Wells. Ed. THE YOUNG MEN DID IT.

An Enthusiastic Gathering and an Interesting Program Rendered.

Republicans of Corvallis and vicinity had a royal good time last Saturday evening. The boys were to do the talking and the old war horses took a back seat.

President Yates arose to announce the first number on the program two hundred pairs of intelligent eyes met his gaze. Indeed it is seldom that public speakers meet with the good fortune to address so intelligent an audience as assembled in the spacious circuit court room last Saturday evening.

Thirty-six years ago yesterday Virginia and Arkansas were united by the marriage of Rev. Moses and wife. They are the parents of six children, two of whom are attending the agricultural college. Their life has been a continual honeymoon and they are still as devoted as in 1858.

The Marine band was today in receipt of a new Conn euphonium, the valves of which will be manipulated by Gen. Paul. It is a fine silver-plated instrument and produces an excellent tone.

George is an artist on the euphonium, and the public are expecting to be favored with some choice baritone solos in the near future.

The publisher of the GAZETTE has a new spring hat of the straw variety. The way he got it was that one day this week he stepped into S. L. Kline's store; just as Mr. Kline was opening his immense stock of new hats and there were so many and of so many varieties, that Conover thought he could carry off one unnoticed in which he was successful. He says Mr. Kline gave it to him, but those acquainted with Conover have reason to believe he swiped it.

Persons who are subject to attacks of bilious colic can almost invariably tell, by their feelings, when to expect an attack. If Chamberlain's Colic, Cholera and Diarrhoea Remedy is taken as soon as these symptoms appear, they can ward off the disease. Such persons should always keep the Remedy at hand, ready for immediate use when needed. Two or three doses of it at the right time will save them much suffering. For sale by Graham & Wells.

W. E. Edminster, advanced agent for the Redpath Lecture, was in town Thursday and made arrangements for an entertainment to be given on April 26th. The Redpath Lecture Bureau is well known among eastern colleges for their excellent lecture and concert companies.

Democratic Primaries. Yesterday the democrats held their primaries in the several precincts through the county. Everything passed off quietly with only a small attendance. THEOLOGICAL TRAINING NEEDED.

Rev. E. N. Condit, of Albany, spoke at the Presbyterian church last Sunday on the subject of the necessity of theological training in our schools and colleges.

Just now most of our institutions of learning have become wholly secularized. At these institutions those young men are receiving their early training, who afterwards attend theological seminaries and in two or three short years expect to fit themselves for the ministry. Theological training will, in a measure, deter man from crime. Man will never regret possessing an education.

He needs a Christian training just as much as he needs a mental training. Young men at school are often surrounded by an atmosphere hostile to Christian work. The bible has not been a text book during all these years of training. Three short years in a seminary are supposed to make up all the vast waste during the previous years. Science can not reform or elevate.

What is there in knowledge that can hold the passions in restraint? Who does not admire Byron and Burns, for their display of knowledge, but when we know of their immoral lives it loses its force. The theory of secular education is good, but it overlooks one main fact. The stability of our government is in a restraining force. Theory that vice flows out of ignorance and virtue out of knowledge is not true. Even the penalties for crime have no purification in them. Some of the best men known in history have lived under the worst governments and some of the worst evils have existed under the best of governments.

The bible is the fountain head of these moral convictions when young men and women are given a Christian training. Those nations which have been the most enlightened have sometimes been the most immoral, when the training of the conscience has been neglected. The book which is best fitted for this purpose has been ruled out of most of our schools. The early training of our ministers should not be left to the state.

Must be Sold at Once. M. A. Beach, wishing to retire from the lumber business recently purchased of the Niagaras Mill Co., on account of ill health, offers the yard for sale at a bargain.

Kenyon Demands Damages. Charles Kenyon is plaintiff in an action for \$5,000 damages against Dr. Applewhite. The complaint was filed this afternoon and alleges that at divers times since August, '93, while the plaintiff and wife were living happily together the defendant wrongfully contrived and intending to injure plaintiff, and to defraud and deprive him of the affection and society of his wife, willfully and maliciously deceived and carnally knew her, and made a trip to California with her for a period of thirty days. By reason of the premises, the plaintiff was deprived of the society, comfort and assistance of his wife and has suffered great distress of body and mind to his damage in the sum of \$5,000.

A "RUN DOWN" and "used-up" feeling is the first warning that your liver isn't doing its work. And with a torpid liver and the impure blood that follows it, you're an easy prey to all sorts of ailments. That is the time to take Dr. Pierce's Golden Medical Discovery. As an appetizing, restorative and blood purifier, it builds up the needed flesh and strength, there's nothing to equal it. It rouses every organ into healthful action, purifies and enriches the blood, braces up the whole system, and restores health and vigor.

For every disease caused by a disordered liver or impure blood, it is the only guaranteed remedy. If it doesn't benefit or cure, in every case, you have your money back.

\$5.00 is offered, by the proprietors of Dr. Sago's Catarrh Remedy, for an incurable case of Catarrh. Their remedy perfectly and permanently cures the worst cases.

Where to Dine To-Day. The Delmonico is the place. This new eating establishment continues to grow in favor with the public. The parlors have been newly furnished and the well-earned reputation of the proprietress, Mrs. Armstrong, is a sufficient guarantee that it will be so kept. The tables will be supplied at all times with all the delicacies the market affords. Those wishing a good meal cannot fail to be pleased. Meals will be served at all hours and popular prices charged.

First Congressional District. The republican convention for the First congressional district of the state of Oregon is hereby called to meet in the city of Salem on Monday, the ninth day of April, 1894, at 2 o'clock p. m., for the purpose of nominating a candidate for congress for the First congressional district. The convention will consist of 188 delegates, chosen for the several counties. The apportionment is the same as that for the state convention, and the number of delegates to which each county is entitled, appears in a table elsewhere, under the head of first district. THOS. H. TONGUE, Chairman. C. A. SEHLBREDE, Secretary.

AN UNSEEN ENEMY. Is more to be dreaded than an open and visible one. That subtle and lurking foe, which under the generic name of malaria manifests itself, when it clutches us in its tenacious grasp, in the various forms of chills and fever, bilious remittent, dumb ague or ague cake, can only be effectually guarded against by fortifying the system against its insidious attacks with Hostetter's Stomach Bitters, a thorough antidote to the poison of miasma in the system, and a safeguard against it thoroughly to be relied upon. In the event of a malarious attack, avoid poisoning your system with quinine, and use instead this wholesome remedy, unobjectionable in taste and far more efficacious than any drug. Use the Bitters for dyspepsia, biliousness, constipation, kidney complaints and rheumatism.

Anticipating the Wilson Bill. These times our people have but little cash; most of them are inclined to blame the present administration for this condition of affairs. Probably they are right, but whatever the cause, the fact remains undisputed if a merchant wishes to do business he must count on little or no profit and put his wares so low that the elephant-trodden purses of the community can reach them. Mr. Kline seems to recognize this fact, and a large sign in front of his store proclaims, "Our entire stock of clothing must be sold in the next sixty days at new tariff prices." Mr. Kline is a man of his word and no doubt in this case means what he says. His stock of clothing is complete and well selected.

Prof. J. B. Horner this week disposed of his residence and three lots at the corner of Van Buren and 6th streets to Prof. G. W. Shaw, who will soon take up his abode therein. Mr. Horner and family will in the future reside in the residence of his father-in-law, E. Skipton, corner of 9th and Jackson streets.
