The principal reason urged for a change is, that the American Book Company, which is now furnishing the state with their publications, is a trust. In a sense, this is true. It is composed of some ten concerns; which is really a benefit to the state. No Better Medicine, and have induced many to use it."

"Thirty-five years ago this Spring, I was rlin down by hard work and a succession of colds, which made me so feeble that it was an effort for me to walk. I consulted the doctors, but kept sinking lower until I had given up all hope of ever being better. Happening to be in a store, one day, where medicines were sold, the proprietor noticed my weak and sickly appearance, and after a few questions as to my health, recommended me to try Ayer's Pills. I had little faith in these or any other medicine, but concluded, at last, to take his advice and try a box. Before I had used them all, I was very much better, and two boxes cured me. I am now 80 years old; but I believe that if it had not been for Ayer's Pills, I should have been in my grave long ago. I buy 6 boxes every year, which make 210 boxes up to this time, and I would no more be without them than without bread."-H. H. Ingraham, Rockland, Me.

Bloody Water Oozed Out Constantly. Sufferings were Terrible. No Peace Day or Night from Itching and Burning. Doctors Failed. Cured by

CUTICURA. My child's disease, which was the worst kind of Eczema, started on one cheek like a ringworm, it spread and itched so the poor little fellow had no peace night or day. Then it started on the other cheek and chin, until all were raw as a piece of becter cheek and chin, until all were raw as a piece of becter cheek and chin, until all were raw as a piece of becter cheek and chin, until all were raw as a piece of becter cheek and chin, until all were raw as a piece of becter cheek and chin, until all were raw as a piece of becter cheek and off the skin, and bloody water cozed out constantly. His sufferings were terrible. I tied his hands that he would not scratch, then he would rub his poor little cheeks on his shoulders to relieve the intense itching. I had as good a doctor as was in Philadelphia, but he failed to relieve him. I read of the CUTICURA REMEDIES, and at once purchased them. Strange to say, that very night he rested without scratching his face, and from that on he improved and soon was entirely cared. I would like anyone suffering from this terrible disease to see my boy now; his complexion is as clear and smooth as can be. This is an unsolicited testimonial, and every word is true. I thank God for my child's recovery, and I thank the manufacturer of CUTICURA.
