REFUGEES AND REBELS

Ezeta's Comrades Off for Mexico.

To Arrange an Attack on San Salvador.

They Carry Enough Coin to Begin Recruiting—Ezeta Does the Rest.

SAN FRANCISCO, Sept. 25.—When the steamer St. Paul sailed for Mexican ports today, she carried, as stowage passengers, General Bolanos and Captain Bustamante, the San Salvadoran refugees.
When Ezeta left the two here last Sunday, it was with the promise to meet them again on the Salvadoran frontier. Bustamante received \$400 from his chief, with instructions to meet him in Mexico. To Bolanos was entrusted over \$30,000. His destination is Guatemala. With that sum it is said Bolanos is to begin to raise an army and be prepared to co-operate with his chief.
They took passage in the steamer in order to save as much money as possible. Instead of being put into the steerage however, they were given a cabin on the upper deck by the captain.

HILL AT SARATOGA.

SARATOGA, Sept. 25.—Senator Murphy called the democratic state convention to order at 1:20 p. m. Senator Hill was named for temporary chairman amid intense enthusiasm. Miss Susan B. Anthony and other woman suffragists are here to urge the adoption of a plank in favor of extending the ballot to women.
Hill said: "The untried democracy of the Empire state assemble here today undismayed at the premature boasts and assumed confidence of our adversaries. We are not unaccustomed to their annual and moss-covered game of political bluff, renewed this year with extraordinary vehemence and unblushing effrontery."
Hill said: "The McKinley law has gone where the woodbine twined, gone to stay; never to be re-acted again by any political party."
"Without retracting a single word which I have uttered in the senate in criticism of the measure while engaged in the effort to perfect and render it more acceptable, now that it has been passed, it becomes a law, it must be considered as whole, treated largely as a party measure and contrasted with the McKinley law. Uninfluenced by any personal disappointments or any pride of opinion, I may be permitted to speak of the measure as it is—now a reality. Of its strictly tariff features it may truthfully be urged that it is a vast improvement over the McKinley law and will clearly demonstrate its superiority as time rolls on. A business in this country shall adjust itself to its provisions."
"Fellow democrats of the Empire state and of the country, the duty of this hour is not rash criticism of democratic leaders nor democratic measures, not mutual recriminations nor conflicting counsels, but it is time for conciliation, for unity of purpose, for an aggressive campaign. Control of both legislative departments of the government is at stake in the coming election. Inter-party strife must now cease and our attacks be reserved for foes who already are forming their lines of battle against us."
"The administration of President Cleveland has been economical, painstaking and unflinching in every particular, subordinating every selfish consideration, only animated by higher and patriotic motives, realizing how much is at stake to be won or lost, knowing united democracy in this state means an old fashioned democratic triumph, let us buckle our armor and together march "like a Macedonia phalanx of old, with locked shields and measured tread," to contest that which awaits us, with courage, with resolution, with confidence, and with our cause is just and that God and the right will surely give us victory."

THE NATIONAL AFFAIRS

Questions of Reciprocity Raised.

Important Ruling on Indian Lands.

Items of News from the Nation's Headquarters by Wire Last Night.

WASHINGTON, Sept. 25.—Besides reciprocity with Brazil, which will lapse entirely on Jan. 1st, next, in accordance with the notice given by Brazil, the United States has entered into nine similar arrangements with other nations, under the authority conferred by the McKinley act. The arrangements are with Spain and Cuba and Porto, with the Dominican republic, with Guatemala, with Germany, Nicaragua, Honduras, Austria-Hungary, Salvador and Great Britain. The last named, in the British colonies of Trinidad, Barbadoes, the Leeward islands, Nevis, Dominica the Windward islands, British Guiana and Jamaica. It is expected that Brazil's other nations followed by all the other nations concerned, with the possible exception of Spain.

THE NATIONAL AFFAIRS

Attorney General Hall, of the interior department, has rendered a decision, approved by the secretary, which will enable the Puyallup Indian commission to conclude its work and dispose of the lands. The attorney general holds that all lands patented to an Indian family are jointly owned by all members of that family and the written consent of each must be obtained in order to sell the land. These lands are at Tacoma, Wash., and are very valuable. They are to be sold for the benefit of the Indians.

A STARTLING STORY

THE REMAINS OF GEORGE COLGATE ARE FOUND AT LAST.

Proof That the Carlin Party Did the Cowardly Act of Desertion.

MISSOULA, Sept. 25.—

The Missoula story will contain a sensational account of the recovery of the remains of Geo. Colgate, the deserted cook of the notorious hunting party headed by Wm. E. Carlin, son of General Carlin, late commander of the department of the Columbia. The discovery was made on August 22d by Lieutenant Elliott eight miles below the spot where the desertion occurred on Clearwater river. All that remained of Colgate's body was a thigh bone and one leg, and these were mangled and gnawed by wild beasts. At the same spot was found a match box, fishing lines and other articles identified as Carlin's property. Lieutenant Elliott was sent on this mission by General Otis, the present commander of the department of the Columbia, to which office he makes a full report, there being many points tending to prove that Colgate's desertion by the Carlin party was cowardly.

ANOTHER DRAW.

Everhart of New Orleans and Abbott of England Make a Good Match.
New Orleans, Sept. 25.—The entertainment tonight commenced with a friendly exhibition bout of four rounds between Young Griffo, the Australian, and Mike Dana. The audience numbered about 5,000. The event of the evening was then announced and Jack Everhart of New Orleans, and Stanton Abbott of England, entered the ring to fight for the purse of \$1,500.
After giving a fine exhibition of sparring for twenty-five rounds, the fight was declared a draw. Both men seemed strong at the end.

MYSTERIOUS DEATH.

Salinas, Cal., Sept. 25.—The body of Edward Coy, a much respected young man, was found in some willows between this city and Castrovilla this morning. Coy and his brother owned the city livery stables in this city. About a week ago, Edward told his friends that he was going to San Jose on business. That was the last seen of him until his body was discovered this morning. The coroner will hold an inquest tomorrow, and there promises to be some developments for officers to work on, as the crime was not committed for the purpose of robbery, as his valuables were left untouched.

BOLD ASSASSINATION.

Cleveland, Sept. 25.—James B. Covert, general freight agent of the Valley railroad (the Baltimore & Ohio), was shot and killed in the street by an unknown person last night. Five bullets pierced the body. Parties living near the scene of the murder heard shots and a woman scream. The police have not secured the slightest clue. Covert was a widower, 30 years old, and resided with a daughter in Kennard street. He was a man of exemplary habits as far as is known. The coroner decided that robbery was the motive for the murder, as everything of value had been taken from the dead man's pockets.

DEPARTMENT SHOOTING.

Vancouver, Wash., Sept. 25.—Today the department of the interior finished the Columbia and California matches of the known distance shooting match. Unfavorable atmospheric conditions prevailing yesterday and today resulted in comparatively poor firing, the highest of all competitors, Corporal Charles R. Luttering, Co. A fourth infantry, securing a total of but \$21, being only about eighty per cent of possible; the second was Private Grim, Co. G fourth infantry, 315. Among the distinguished marksmen, Corporal J. H. Vasolke, Co. G fourth infantry, heads the list with 523, exactly eighty per cent, followed by Sergeant Frank D. Powell, Co. D fourth infantry, an expert on skirmish range, with 393 to his credit.
Tomorrow the competitors start on skirmish range shooting.

A STRANGE SOUVENIR.

SAN FRANCISCO, Sept. 25.—During the battle at Pine Ridge, S. D., some years ago between the soldiers of the United States army and the Sioux Indians, Lieut. Casey was killed. At the time he was mounted on a handsome black horse, leading a small army of men.
Lieut. Casey was engaged to be married to the daughter of Col. Hunt, U. S. A., now a resident of Los Angeles.
It was decided by the military officials to dispatch the charger to Miss Hunt and arrangements were completed for the transfer of the animal, from Fort Keogh, Mont. The Northern Pacific railroad company delivered the animal to the steamer Pueblo, and, in turn, he was landed here today and will be turned over to Miss Hunt.
Since the day Lieut. Casey was killed not a single person has ever mounted the charger. Transportation was given gratuitously by the railroad and steamship companies.

HOPS AND GRAIN.

New York, Sept. 25.—Hops, weak; state common to choice 3@3; Pacific coast 4@5 1/2.
Liverpool.—Wheat, dull, demand poor; No. 2 red winter 4 1/2-2 1/2; do spring 4 1/2.
Hops at London Pacific coast, steady; demand moderate; 2 1/2@2 1/2 1/2. San Francisco—Wheat, for parties No. 1 shipping which full quality figure is 80c, though some strictly No. 1 will not go above 77 1/2-2c. Fancy lot would bring 81 1/2-2c. Millers are also toning down their bids, none being inclined to give over 87 1/2 for selected stock, while 85c is limit of most buyers. Walla Walla wheat at 70c for fair average, 60c@65 for No. 2 and 40c@50 for off grade.

THE LOST BANKER FOUND.

Astoria, Sept. 25.—Word has been received from the missing Ilwaco Wash., banker, J. R. Morrison. This morning Mrs. Morrison received two letters from her husband from Sacramento, Cal., the contents of which it was impossible to obtain. It is thought that it is a case of mental aberration, as Mr. Morrison's bank accounts, as far as known, are in good condition.

A CABLE CAR PANIC.

Chicago, Sept. 25.—A panic occurred among cable car passengers today when four heavily loaded trains loosened by a slip of the cable, dived down an incline in the Van Buren-street tunnel and crashed into each other at the bottom. The passengers were hurled in all directions, but none were seriously hurt.

THE BIG GAMES.

Louisville, Sept. 25.—New York 15, Louisville 3.
Cincinnati—Cincinnati 9, Boston 7.
St. Louis—St. Louis 14, Philadelphia 7.
Pittsburg—Pittsburg 10, Brooklyn 7.
Cleveland—Baltimore 14, Cleveland 9.

A WIFE ON TRIAL.

San Francisco, Sept. 25.—The trial of Mrs. Ada L. Werner, charged with shooting and killing her husband, while he slept, because of his ill-treatment, today continued until tomorrow. The defense was taken by surprise yesterday in the sudden close of the prosecution, and was not ready to go on today.

KICKED TO DEATH.

San Francisco, Sept. 25.—James Ryan, an old contractor, was knocked down and kicked by Conrad Hildebrand during a quarrel last Saturday night, and died today from the effects of his injuries. A warrant will be sworn out for Hildebrand's arrest.

AN OPEN CONFESSION.

Jackson, Cal., Sept. 25.—Andrew Peterson has been arrested, and confessed having attempted bridge-burning and train wrecking near San Pablo during the strike. He implicates four other strikers, including one who is in jail at Martinez.

PRESIDENT'S APPOINTMENT.

Washington, Sept. 25.—The president today appointed General William Ward Duffield, of Detroit, superintendent of the coast and geodetic survey to succeed Professor T. C. Mendenhall, resigned.

PORTLAND MARKETS.

Portland, Sept. 25.—Flour—Portland, Salem, Cascadia and Dayton, \$2.40 per barrel; Walla Walla, \$2.85; Gold-rod, \$2.75; Snowflake, \$2.45; Graham, \$2.15 to \$2.40; superfine, \$2.
Oats—The market is quiet and weak at figures: No. 1, white feed oats at 30c on track, and good winter gray, from 25c to 30c. Rolled oats are now quoted as follows: Bags, \$5.75 to \$6; barrels, \$6 to \$6.25; cases, \$3.75.
Barley—Feed barley is quoted at 65c per cental as the extreme. Brewing is worth 80c per cental, according to quality.
Wool—Fleeces, \$15 to \$17; middlings, 13c in the market; chicken wheat, 60c to 65c per cental.
Hay—Good, \$10 to \$11 per ton.
Butter—Fancy creamy, 25c to 27 1/2-2c per pound; fancy dairy, 20c to 22 1/2-2c; fair to good, 15c to 17 1/2-2c; common, 12 1/2-2c.
Cheese—Oregon, fair, 8c to 10c per pound; fancy, 10c to 12 1/2-2c; young American, 9c to 10c; Swiss imported, 30c to 32c; domestic, 14c to 15c.
Onions—Oregon, 1c per pound; yellow, 1 1/4-2c.
Coultry—Old chickens are quoted at from \$3 to \$3.50; young, \$1.50 to \$3; young ducks are nominal at \$2 to \$3; there is some demand for fat young geese at \$6.50 to \$7, and good turkeys are in fair request at 13c to 15c per pound.
Eggs—The egg dealers are fighting again. Firms handling Oregon stock quoted a variety of prices. Most of the houses gave 22 1/2-2c as the figure, yet a considerable was known to have been sold at 20c. Eastern are quoted at 22c with 21c for round lots. Another Eastern dealer gave 20c as the quotation. It is probable that no more Eastern eggs will be brought here for the present. Today's receipts of Oregon will be the largest of the week, and the market will doubtless adjust itself to the quantity coming in.
Wool—Valley, 7c to 9c, according to quality; Umpqua, 7c to 9c; Eastern Oregon, 6c to 7c.
Hops—Dull and nominal at 4c to 7c, according to quality.

A PORTLAND LETTER

A NEWSY RESUME OF RECENT EVENTS IN THE METROPOLIS.

The Big Fire.—The Goodwin Trial.—Athletics and the License Ordinance.

Portland, Sept. 23.—As usual for a few weeks, Sunday gave us a sensation, this time in the form of a great conflagration. About 4 o'clock in the afternoon a fire broke out in the coal bunkers on the east side of the river, below Albina, and before its progress could be checked it had consumed the Pacific coast elevator, the docks for half a mile and a large number of freight cars standing on the tracks adjacent to them. The fire department was almost helpless, owing to the nature of the property on fire and the surroundings, and the fire practically burned itself out. Two large English grain ships loading at the burned docks were saved by casting off their lines and being blown away from the fire by the wind. The large ocean steamer Willamette was assessed by the fire department, and the fire practically burned itself out. Two large English grain ships loading at the burned docks were saved by casting off their lines and being blown away from the fire by the wind. The large ocean steamer Willamette was assessed by the fire department, and the fire practically burned itself out.

FUSION IN NEBRASKA.

Omaha, Sept. 25.—The state democratic convention convenes here tomorrow. The plan which will be undoubtedly carried out is as follows: Endorsement of the populist ticket; coinage of silver at 16 to 1 and an endorsement of Mr. Bryan for the United States senate. The fight has been between Bryan and the element known as the "fusion" men because they desired that the convention should support the administration.
Governor Crouse has decided to arrange a system of relief for the sufferers from drought.

A \$10 RESOLUTION.

San Francisco, Sept. 25.—The municipal republican convention convened this afternoon. A. P. Van Duser introduced a resolution providing for adjournment until tomorrow, when, after the convention shall have received the reports of committees, it shall receive the names of candidates for each and every office to be filled by the convention, including the senatorial assembly district conventions, each name to be accompanied by \$10; the resolution was adopted.

A COSTLY BLAZE.

Watertown, N. Y., Sept. 25.—A serious conflagration broke out in the Jerome hotel, at Cape Vincent, at 2 o'clock this morning. The Jerome hotel, Hotel Algonquin, eight stories, the telegraph office and postoffice were consumed. Loss, \$150,000.

THE BOSTON WOOL SALES.

Boston, Sept. 25.—The wool market today shows increased business on foreign wools, particularly Australian grades. Prices were unchanged, with perhaps an occasional concession by buyers, on sales of territorial wools.
Oregon wools, western, fair, 9@10c; choice do 11@13c.

IT WAS SUICIDE.

Albany, Or., Sept. 25.—The coroner's jury today in the case of the death of E. H. Burnham, whose body was found early this morning, found that death came to his death from a gunshot wound inflicted by his own hands.

FAILED TO AGREE.

San Francisco, Sept. 25.—The long drawn out Martin will case closed today. The jury was out only a few hours, but failed to agree.

MILLIONS FOR PENSIONS.

Washington, Sept. 25.—Acting Secretary Sims today issued a requisition on the treasury for \$10,900,000 for payment of pensions.

THE FIRST POCKET.

At the Railway hotel, Paddock Wood in the presence of many Kentish hop growers, a handsome black marble clock, inscribed with ornola, was presented to W. R. Tompsett, as the grower of the first pocket of hops this season. W. H. Le May, in making the presentation, referred to the great importance of cultivating the earliest kinds of hops to compete with the foreigner. In this case the sort produced was "Seale's Earlies" was calculated to compete with the earliest Californians. Mr. Tompsett, in reply, hoped his brother hop growers would get half as good a price for their crops as he had for the first pocket. He agreed with Mr. Le May that the great thing was to produce the hops that come to maturity first, because by that means they would get the first of the market.—The Hop Grower.

HOW STREET-CAR HORSES ARE FED.

A Chicago exchange says: The street car horses of Chicago are usually fed on ground corn and oats—about one pound of the former to two of the latter in warm weather; and this is always mixed with cut hay. They are not allowed to gorge themselves with hay, but only get about twelve pounds each per day. These horses do very hard work, much harder than the average farm horse, but are really fed less. A farmer will not feed quite so much in weight of grain all the year round, but oats will usually weigh a pound to the quart, and when working the common food for a horse is twelve quarts of grain and all the hay they will eat. This is an uncertain quantity, but no doubt is twice or three times as much as he requires.

The large ocean steamer Willamette was assessed by the fire department, and the fire practically burned itself out.

FUSION IN NEBRASKA.

Omaha, Sept. 25.—The state democratic convention convenes here tomorrow. The plan which will be undoubtedly carried out is as follows: Endorsement of the populist ticket; coinage of silver at 16 to 1 and an endorsement of Mr. Bryan for the United States senate. The fight has been between Bryan and the element known as the "
