THE OREGON CENTRAL & EASTERN THE DOINGS IN COURT.

Last Saturday articles of incorporation of the Oregon Central & Eastern Railroad Co. were filed. Its incorporators are A. B. Hammond, Edwin Stone, and Chas, Clark. Its objects are to build, and operate railroad, telegraph and telephone lines from Yaquina Bay to the eastern boundary of the state, thence to Boise City, and also branch lines, one between Corvallis and Eugene and the other from or near Albany to Salem; to operate steamship lines from Yaquina and other coastwise points to San Francisco, and steamboat lines on the Willamette and Snake rivers. However, the principal object of the new corporation is to purchase and acquire possession of the property and franchises of the Oregon Pacific, which were sold last December at sheriff's sale to Messrs, Bonner & Hammond, as since that time the road has really been operated by the purchasers as individuals. The capital stock of the corporation is fixed at \$3,000,000, and Corvallis is named as the principal place of business.

Immediately after filing the incorporation papers the incorporators met and effected an organization by choosing A. B. Hammond president, Edwin Stone vice-president, and Chas. Clark treasurer. By the new order of things Mr. Stone becomes manager of the company, and Mr. Clark its superintendent. Although not clothed with an official title, the former gentleman has virtually been the manager for the purchasers is an old friend and former business associate of Mr. Hammond, and during the past sermon at the Baptist church to a large con- dozen years has filled several important and ment of the service, a pleasing feature of new company's superintendent, is well which was a reading by Miss Hurley.
