A FAITHFUL OFFICIAL.

After returning from the State Teachers Association at Gladstone Park, County Superintendent Holm took his family on a week's camping trip to the Alsea valley, returning to Corvallis Sunday evening. He says that blackberries are very plentiful this season in the Alsea country, and that there are lots of people from the outside, camping along the river, who are putting up the fruit. Mr. Holm reports having had a pleasant trip, and was loath to return to the valley, but his duties as superintendent required his attention and he was on that account compelled to forego the pleasure of a longer visit. He is now engaged in mail-

ing circular letters to the various school boards and clerks of the county, and also in arranging for a teachers' institute to occur here some time within the coming month. One of the circular letters is addressed to the clerks, and asks for a deal of information with regard to school affairs in the r respective districts. With each letter is enclosed a blank that is to be filled out by the clerk as soon as a teacher has been em ployed. These are to be sent to Superintendent Holm who is compiling data with a view to more thoroughly systematizing his work, especially the important part of visiting schools. A portion of the letter, which Engene, and Rev. J. A. Longbottom, of is self explanatory, is given below and is an Eugene, will conduct the services. To give notice of the date of this visit, it will be necessary for me subject of school matters, Prof. Tyres has to have at hand the information now asked for, which I trust you will gladly furnish."

> The letter to school boards is as follows: "In accordance with the provisions of Sec. 12 of the Oregon School Law, I desire herepublic school text books, a list of which is herewith appended.

"The law provides that this series of textbooks shall be introduced in all the public schools of the state on or before the first day of October of the current year. 'Any of principal, \$150 per month; assistant, \$100; district neglecting to provide for the introteachers \$65 each; 3 primary teachers, \$54; duction of the authorized series of textbalance, \$50; 15 teachers employed. Three books shall forfeit its proportion of the school fund for the succeeding year, and every year thereafter until all of said series

"You will therefore kindly notify al school patrons of your district of the list of text-books adopted, and endeavor to inform them of the provisions of the law with regard to their introduction."

PHILOMATH AT LAW.

Philomath has been excited during the past week concerning a law suit, in which J. W. Ingle & Company sought to recover from Mr. and Mrs. H. Buoy, \$157 57, claim ed to be due on a store account. Defendauts claimed they owed only about \$36.00. However, they gave notice that they would confess judgment to the amount of \$89.00. which offer was refused. Last Friday the the county courthouse, Corvallis, Oregon, case was tried before six jurors in Justice beginning at 1 o'clock, Wednesday, August Boles' court. J. W. Ingle acted as the firm's counsel, while Attorney H. L. Holgate and E. L. Bryan appeared for the detendants. The jury had a dual role to fill, for the judge left matters of law as well as of evidence for them to decide. Mr. Ingle's books present at the opening will not be permitted and itemized accounts did not agree with eech other or with the complaint, and gave County School Superintendent. the other side an advantage they quickly seized upon. LID SMALL INVESTMENTS.

SYSTEMATIC PLAN OF SPECULATION

originated by us. All successful speculators operate on a regular system.

It is a well known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.

Write for Convincing Proofs, also our Manual on successful speculation and our Daily Market Report, full of money-making pointers. ALL FREE. Our Manual explains margin trading fully. Highest references in regard to our standing and success. For further information address

Dizziness, Impure Blood - Cured by Hood's.

Many weak and worn-out women know just what this means. In totally unfit condition for work, they force themselves through the daily almost too dis-

routine of duties, couraged to even look for relief. But it is to be found in Hood's Sarsaparilla, which makes the blood pure, builds up the nerves, makes the weak strong and gives

a cheerful spirit. Read this: "I have suffered more than tongue can tell from dizziness and severe pains in my head. I also felt so low spirited that I often said I wished I was dead. A friend suggested that I try Hood's Sarsaparilla. I gave it a trial and was more than surprised to see what a great change came over me after I had taken the first bottle.

I felt better right away. I have now taken Hood's Sarsanearly five bottles and am happy tosay I am entirely cured. I would advise all
