A LARGER PAPER.

Commencing with the next issue the size of the Gazette will be increased from a 7-column to an 8-column paper; and here-

after the day of publication will be Friday. The price of the paper will be reduced to \$1.50 per year, when paid for in advance, otherwise the rate will remain \$2.00, as at present. The Gazette will be furnished during the campaign for 25 cents, and until January 1st, 1897, for 50 cents.

With this month begins the third year of the Gazette under the present management. The increase in circulation during the past year warrants the proposed im-provements and decrease in price.

I have never seen anything in the papers about the People's Wind Mill, we call it the "People's" because the inventor never patented it, but let everybody use it free. Any farmer can make a mill himself, and all the material complete will not cost over \$10. It is a splendid mill, will pump the deepest wells and will last longer than any mill I ever had. Any erson can get diagrams and complete directions free, age, etc., to E. D. Wilson & Co., Allegheny, Pa. Wilson & Co. sell pumps, and when you get your wind mill going would be glad to sell you a pump if you need it. It is certainly useless to pay \$50 or 160 for a wind mill, when you can make one just as good for \$10. I think there could be big money n ade utting these mills up through the country as everyody would like them.

A Churn that Churnsin One Minute. I have been in the dairy business all my life and have many times churned for an hour before butter would appear, so when I heard of a churn that would churn in a minute, I concluded to try it. Every day for a week I used it, and not only could I churn in a minute, but I got more and better butter than with the common churn. This is very important information to butter makers. The churn works easily, and will churn in less than 60 seconds. I have sold two dozen of these churns in the pastmonth. Every but-ter maker that has seen me churn in less than a minute has bought one. You can obtain all desired information regarding the churn by addressing J. F.
