The delinquent tax sale Saturday resulted in enriching the county to the extent of about \$1,700. The bidding was more active than was generally anticipated and, contrary to expectations, the county was forced to bid in only about \$325 of the total amount delinquent.

The farmers of Oregon have a gold mine on their farms, according to good authorities, that can be worked only with sugar beets. The Agricultural College will shortly issue an important bulletin on this subject that ought to be interesting to agriculturists, especially. These bulletins are free.

St. Valentine's day increased the work of the Corvallis post-office. The valentines were principally of the "comic" order, although an occasional sentimental missive rubbed stamps with its coarser brethren. Several "home-made" sarcastic valentines, really clever ones, furnished considerable amusement.

A bicycle girl poster that helps adorn the walls of the Gazette office, calls attention to "Gleim's Hand Protectors" for cyclists. It is a Denver poster and Mr. Gleim is a Denver man, but will be remembered by Corvallisites as a gentleman connected at one time with the carriage factory here.

The Speckled Beauty is the name of a new brand of cigars being manufactured by Rose Bros. of this city. They contain the very best tobacco and sell for 10 cents. We speak advisedly regarding the merits of this new cigar, for as we pen this item the smoke from one of them fills the sanctum with its rich fragrance.

Brady Burnett writes that the first field events of the Stanford athletic team will occur about April 1st with Berkeley. Brady is fast developing his powers under the direction of Trainer King, formerly of the Multnomah club. Frank Holcomb, sentenced to the penitentiary for two years from this county, was pardoned Saturday by Governor Lord, Holcomb having served about a half of his time. Judge Fullerton handed down a decision sustaining the defendants' demurrer in the case of John and Mary Smith vs. the Corvallis Lumber Company. This suit was brought to foreclose a mortgage for \$2,000, executed to the plaintiffs at the time the company was re-organized and the property taken out of the hands of Assignee Peet.

The entertainment given last Friday evening at the college assembly hall by the Young Women's Christian Association connected with the college, was a very enjoyable affair. The program was given under the direction of Miss Helen Crawford, and Miss Dorathia Nash, who is in charge of the musical department of the institution, and every number was creditably rendered.

John Warner, Louis Zeis and Charles Spaulding, coming up on the Albany Friday evening, concluded to "stretch their legs" while the boat took on freight at Albany. They stretched a little too long and when they reached the wharf the boat was steaming up stream. They yelled a trio, but their cries were vain. Next morning they "stretched their legs" in a ten mile walk home.

Mrs. E. W. Allen, of Portland, a member of the North Pacific Board of Missions, will spend Saturday and Sunday in our city. On Saturday evening she will give an address at the Presbyterian church on "India," illustrated with stereoscopic views. The entertainment will be one of great interest and profit. Admission 10 cents; children, 5 cents.

Some persons are fortunate enough to have honors thrust upon them and one of these is J. Fred Yates, who was this week appointed official court reporter for Benton and Lincoln counties, vice M. G. Wilkins, resigned. In this selection Judge Fullerton acted wisely. Mr. Yates, in addition to being a promising young attorney, is an experienced and capable stenographer, and will fill the position creditably and acceptably.

The United Artizans is the latest local beneficiary order to have boom in membership. At its meeting last Thursday evening a number of new members were initiated and several other Corvallisites are on the anxious seat and will likely be converted within the coming month. A remarkable feature of this rapidly growing order is the fact that since its organization in November, 1894, there have been but two assessments, and the second one will not be due until March 1st.

Something entirely new and original in the way of spelling was offered last week by one of the candidates who applied to Supt. Denman for a teacher's certificate. A few samples of the applicant's unique style are here given. Sarsaparilla was spelled carcaparilla, conquerable was spelled conkerable, precautions, maxiums, chimneys and panacea were written respectively, precatious, maxiums, chimnies and panasea. Out of the entire list of 50 words, only 19 were spelled correctly.

Henry Rust, an old and respected resident of Benton county, died suddenly Monday night at his home two miles southwest of Philomath. He had been in his usual good health previous to his demise and went to bed Monday night, after eating a hearty supper, apparently well and hearty. Toward morning he uttered a groan as if in pain and his wife tried to awaken him, but her efforts were futile. Dr. Ligan was sent for, but before his arrival the patient was cold in death. Mr. Rust was about 55 years of age and leaves a wife and a large family of children to mourn his loss.

Corvallis has four beneficiary orders that are growing rapidly. Since the first of the year probably no less than 75 or 100 persons have identified themselves with one or more of these orders, any one of which offers insurance at cost. The three older lodges, the Workmen, Woodmen and Maccabees have each a membership of one hundred or over, while the Artizans, organized within the past year, has a membership of about 40. A friendly rivalry exists among these different fraternities that is of mutual benefit and it frequently happens that an active member of one lodge is almost prominently identified with one or more of the others.

When your stomach begins to trouble you, it needs help. The help it needs to digest your food, and until it gets it you won't have any peace. Stomach trouble is very distressing, very obstinate, very dangerous. Many of the most dangerous diseases begin with simple indigestion. The reason is that indigestion (not-digestion, not-nourishment) weakens the system and allows disease germs to attack it. The antidote is Shaker Digestive Cordial, strengthening, nourishing, curative. It cures indigestion and renews strength and health. It does this by strengthening the stomach, by helping it to digest your food. It nourishes you. Shaker Digestive Cordial is made of pure herbs, plants and wine, is perfectly harmless and will certainly cure all genuine stomach trouble. Sold by druggists, price 10 cents to \$4.00 per bottle.

13 DOLLARS AND UPWARDS FOR SUITS TO ORDER AT OGDEN THE TAILOR.

Will Likely End Tonight.

(Special to Gazette.) SALEM, OR., Feb. 18.—Oregon's forty-day disgrace will end tomorrow night. It is possible that a senator may be elected at the last minute, and if so, it will probably be Mitchell, but the chances for a special session at this time are anything but flattering.

Supt. G. W. Denman, of Benton county, has prepared and published a classified course of study for the schools of his county. The course covers eight years. Arrangements are provided for promotions and final examinations and the diplomas will be accepted at the Agricultural College and State Normal school. Supt. Denman is moving in the right direction to materially improve the schools of Benton.—Northwest Journal of Education.

The latest bulletin issued from the Oregon experiment station is indeed timely. It is devoted to the subject of flax culture, an industry which it seems might be profitably carried on in Oregon, and which is at present receiving a deal of attention from prominent citizens all over the state. The bulletin in question treats of the subject in a general way, it being largely a compilation of facts and figures relative to the growing of flax, obtained from experience and experimentation in other states and countries, that will be of great help to those interested in the matter. That the soil and climatic conditions are favorable for flax growing in Oregon was determined years ago, and with the valuable information furnished by Prof. Franch's bulletin, it is apparent that no real obstacle stands in the way of making flax growing one of the leading Oregon industries. Those who are now agitating the matter, it is hoped, will not allow their zeal to abate one iota until their efforts are crowned with success.

THE O. C. & E. R. EXTENSION.

Rumors have been afloat to the effect that the O. C. & E. R. Co. intends this spring, and people have put more or less faith in the reports. The completion of the road means much to the valley folks, as well as to the people across the mountains. Manager Stone, when asked about the matter, said that work would not be commenced this year. "The investment of such a large sum as will be necessary to complete the road," said Mr. Stone, "will not be made unless the contemplated improvements of the harbor at Yaquina are assured of being carried out. The million dollar contract partly authorized by the last congress depends upon future legislation to be operative." He added that he considered the resolution of Senator Mitchell absolutely essential to the completion of the work at Yaquina. Senator McBride has both ability and influence, but it is too much to expect that he, single-handed, can accomplish the work that will be difficult for the most experienced senators. Besides, Yaquina will miss the faithful services of Herrmann. If Mr. Mitchell is not returned, the owner of the road will abandon all present thoughts of extending the line.

TWENTY FAILED.

Prof. Geo. Denman is fast finding out that a county school superintendent's pathway is not strewn with flowers. Last week thirty young ladies and gentlemen came before him to be examined for teachers' certificates. Of the thirty, only ten came up to the required standard of excellence, and the twenty unsuccessful applicants have been busily engaged during the past few days in attempting to convince the superintendent that he had erred in making his ratings. He has since gone over the papers a second time, hoping to find some errors favorable to the unsuccessful candidates, but no mistakes of importance were discovered. Mr. Denman says he has given them the advantage of every-doubt and can do no more.

MUSICAL RECITAL.

Prof. W. Gifford Nash, musical instructor in the Conservatory of Music, University of Oregon, and Miss Ellis, of Albany, gave a concert in the Congregational church Saturday night, says the Eugene Guard. They were greeted by a fair audience, considering that other entertainments were being given in the city the same evening. The program consisted of piano music by Mrs. Nash, with Miss Dorris as accompanist on the first number, and vocal solo by Miss Ellis, and was exquisitely rendered. Mr. Nash's mastery of the piano is good and his playing charmed the audience which plainly showed its appreciation. Miss Ellis is a sweet vocalist and won popular favor with the audience, which called her back after the last number.

Cured in 8 Weeks by CUTICURA. Skin Nice and Clear as a Baby's. I was afflicted with an obstinate skin disease, called by some doctors Eczema and others Psoriasis. My body, head, and arms were covered with spots like drops of mortar, and which came off in layers of dry scales. I suffered for over a year without relief, and consulted several doctors but without avail. I had almost given up hope, as my case was a bad one. I happened to see an advertisement about CUTICURA REMEDY and got hold of some according to directions, and in eight weeks I was well as ever. I can no longer say that my skin is as nice as a baby's as a baby's. I cannot express in words the thanks to you for what the CUTICURA REMEDY has done for me. GEO. REABURN, Hanover, Ontario, Can.
