THE ATTACK ON THE SUBURBS

The Insurgents Are Well Armed With Dynamite and Rapid-Firing Guns-Booty Secured by the Cubana.

Tampa, Fla., Aug. 3 -The stories telegraphed from Havana last week about an attack by insurgents on the suburbs of that city is confirmed by passengers who left Havana on the Plant steamer Mascot and arrived here tonight. Among the number was Senor Calbajer, a wealthy Spaniard, and his wife and daughter, who are now to be reckoned among the refugees who have fled from Havana.

The attack referred to was made on the little village of Mariano, about 10 miles southwest of the city, and the terminus of the antiquated and dilapidated Mariano railroad. Calbajer was an eye witness of the attack. He says that the attack was led by Juan Delgado and Hernandez. The insurgent chiefs left 100 of their troops outside the town and carried 300 to the attack. They were well armed with dynamite and rapid-fire guns, and met with but slight resistance. The engagement was short and desperate. Forty-nine Spanish troops were killed and 130 wounded; two Cubans were killed and 40 wounded. The inhabitants of the town fled for their lives, leaving the insurgents in complete possession. They sacked the place and secured \$40,000 in gold and a large quantity of supplies that they could not carry away.

Other passengers tell the same story, nd say that the wildest terror reigns in Havana, that the well-to-do inhabitants are leaving as fast as local laws will permit.
