Big Battle-ship Maine Going South o

Washington, Jan. 26 .- Within 48 surrection broke out in Cuba, three years ago, the United States government will be represented in the harbor of Havana by a warship. The decision to send the United States battle-ship Maine was finally reached at a special meeting at the White House this morning, between the president, Secretary Long, Assistant Secretary Day, Attorney-General McKenna and General Miles, and it is a striking fact that, with the exception of Secretary Long and the attorney general, not a member of the cabinet knew of the intention to take this radical action. It is denied, however, that some such move has long been in contemplation, as evidenced in the following statement of Secretary

Jacksonville, Jan. 25.-A special to the Times-Union and Citizen, from

Key West, says: There has been much excitement in this city during the last 24 hours, due to an alarming telegram from Havana, stating that the streets had been flooded with anonymous ultra-Spanish circulars, calling upon all anti-Americans to mobilize and raid the American colony. Captain-General Blanco, fearful that the rabid element of the city might attempt such violence, has placed an extra military guard around Consul-

General Lee's office. Many of the

Americans of the city, who believe

they are in real danger, have prepared

their affairs for any emergency. This news is what gave rise to the rumor that Consul Lee had been assassinated. The feeling of uneasiness felt here because of the proximity of Cuba to this city, has been allayed, especially since this morning at 10 o'clock, when Admiral Sicard's imposing fleet of battleships, consisting of the New York, Indiana, Massachusetts, Iowa and Texas, arrived off the bar. The Maine, Montgomery and Detroit, and the torpedo boats Cushing and Du pont, left the harbor at 10 o'clock and joined the fleet, the whole making an impressively formidable appearance, and one inspiring confidence in the strong right arm of Uncle Sam. Havana, Jan. 24.—Since Saturday he rioters have been quiet, with the exception of a dynamite bomb exploded in the Plaza de Colon, which did no harm. The rumors that the volunteers would revolt against the government have had no foundation. Nevertheless, on Saturday and Sunday several generals arrived here from Matanzas province and from Havana province with additional reinfocrements. About 15,000 men are now located within the city limits and in the outskirts.

Certain persons have circulated rumors that the volunteeers would join in the riots, and have still further increased popular passion by saying that the government intended to disarm them. It has also been asserted that the volunteers would not have the ballot, because they are in the pay of the government, which is not a fact, as only buglers and a few others are paid. The rest are merchants and clerks, serving without government pay.
