The British fleet in the Pacific is to be strengthened to a considerable extent during the the next few months. Small cruisers are being replaced with larger ones. The changes, it is said, may mean an important move in the

General Gomez, at the head of an army of 15,000 insurgents, is closing in Francisco for Manila to reinforce Adon Havana. His advance gnard, led by Quentin Balderai, had a skirmish with and put to flight 800 Spanish to the same report, is menaced by 5,000 insurgents under Garcia.

coming Philippine campaign.

The tide of Alaska traffic has turned. trip brought down 268 passengers.

People are anxious to leave Cuba. The alarm is general among all classes at Havana, and business is at a standstill. The weight of the blockade is making itself felt.

A heavy loss of life has resulted from the terrific gales that created havoc at points throughout the Middle West. Eleven dead at Rockford, Ill.; ten at Elmhurst, and five at Seiger, Wis., is the number so far recorded. Several towns were wiped out and an immense stretch of country devastated.

The American-Spanish war was dis- the addition of more warships. cussed in the house of commons at Ottawa, Canada. Representative Cleary declared that many Canadians would like to see America beaten by Spain. Premier Laurier, Sir Charles Tupper, and several members, however, made haste to disavow such sentiments.

tween the state department and the French embassy, an agreeable understanding has been reached which gives assurance of the continuance of the traditional friendship between the United States and France, and that neutrality in the present conflict will

It is reported from Key West that Commodore Watson has started for Havana with United States squadron No. 3 to work in harmony with the squadrons under Rear Admiral Sampson and Commodore Schley. Commodore Watson took his fleet from Key West singly. His fleet consists of the powerful monitors Puritan and Miantonomob, the cruisers Cincinnati and Helena, the auxiliary cruiser St. Paul, the torpedoboats Ericsson, Dupont, Foote and Cushing, and the gunboats Bancroft, Dolphin, Morrill, Eagle, Wasp and

It appears from information brought to Vancouver, B. C., by the Empress of India that the Spanish did a little bombarding on their own account in the Philippines about a fortnight before Admiral Dewey silenced their fleet. About the middle of April, says a Manila report, Spanish warships went down to Cebu, where they bombarded the city. The troops met no opposition in landing, the rebels having absconded before a shot was fired, taking with them, it is said, \$200,000 in cash. About 30 Chinese were killed in the bombardment, but no European casualties are reported. A massacre of rebels by Spaniards also preceded Admiral Dewey's victory.

Rumor of a prospective alliance between France and Spain was circulated in the London stock exchange. Spanish 4's rose accordingly. A Madrid dispatch says: From a

discussion in the Spanish senate it appears that Spain seriously contemplates having recourse to privateering in the near future. Mustering figures received at the war

department show that up to Tuesday 106,000 volunteers have taken the oath of allegiance to support the United States government.

Sir Henry Irving, the great English actor, in replying to a toast at a banquet in London, expressed his gratiude for the favors shown him in this country and declared the two nations are already as one.

The firing upon the English ship Roth by the Spanish cruiser Isabella promises to lead to serious complications. The Spanish say it was a mistake, but the British and Americans think not.

Naval experts believe Admiral Cervera's squadron is rapidly exhausting its coal supply, and that as many ports are now closed against it, it will not be able to long elude our fleets unless it gets coal at sea from colliers.

A British steamer just arrived at St. Thomas reports that the Spanish cruiser Isabella II fired on the British steamer Roth, which arrived at San Juan after the bombardment. It is alleged that the Spanish ship fired on the Roth, which was loaded with coal, with the intention of crippling her, and thereby preventing her departure. The officers of the cruiser claim the firing was accidental. The Aldeborough also reports that an American cruiser captured a Lynch, the cook, was rescued. The that an American cruiser captured a Spanish bark north of San Juan Saturday morning last. The prize was towed

St. Louis, May 21.-Captain Duval, of the commissary department, has made a contract with local bakeries for 610,000 pounds of army crackers. This is equivalent to 30,000 barrels of flour. On each will be printed the words, "Remember the Maine."

Draughting compasses are being made with a flexible rubber suction cap on one end to fasten to the paper and hold the instrument while the circle is being drawn.

Venezuelan Cattle in Foreign Lands. The cattle industry of Venezuela is one that may become of enough importance at any time to constitue a menace to the American cattle trade in various foreign markets. In 1894 the number of cattle in Venezuela was estimated at 5,000,000 head, while today the total number is not fewer than 10,-000,000 head and it is expected the number will be doubled in the next four years. There is excellent reason to think that this trade is capable of

Monitor Will Greatly Strengthen the Asiatic Squadron - Small Bunker Room May Make It Necessary for & Collier to Accompany Her.

ment was the order to the Monterey to proceed to Manilla to reinforce Admiral Dewey's squadron. The Monand her addition to Admiral Dewey's assumed no half-hearted attitude tosession until such time as the United States itself has arranged for the disposition of the islands.

The Monterey is probably the most she combines with the enormous offensive and defensive qualities of a monitor a seaworthiness that is almost phenomenal. The Monterey is described techinically as a barbette turret, lowfreeboard monitor of 4,000 tons' displacement. She is 256 feet long by 59 feet beam, and 14 feet 6 inches deep. She carries in two turrets, surrounded by barbettes, two 12-inch and two 10inch guns, while in her superstructure between the turrets are mounted six 6pounders, four 1-pounders and two gatlings. The turrets are 716 and 8 inches thick, and the surrounding barbettes are 14 inches and 1114 inches thick, and against the armor all the batteries in Manila might thunder

away without effecting an entrance. The Monterey's personnel is 19 officers and 172 men, and once she is in the entrance of Manila harbor, nothing in the shape of a navy would be likely to budge her from her position. Her dispatch may have an important bearing upon the intention of the Spanish government, so openly published, of sending reinforcements to Manila. The only doubt as to the feasibility

of sending the Monterey is her small coal capacity. She has bunker room for only 200 tons of coal, and, though more might be stored on her decks, it is doubtful whether she could, at the most, carry more than enough coal to take her to Honolulu, one-third of the able that the Monterey will go in convoy, and, after exhausting the coal that she will take on in Honolulu, she must either be towed about 2,000 miles of her trip, or perform the difficult operation of coaling at sea.

ONE TRANSPORT GONE.

The Steamer Florida Carries Volunteer Chicago, May 24 .- A special from Macon, Ga., says: Unless some accident has befallen the United States

transport Florida, there are now many volunteer troops on the island of Cuba, or they will be there within a few hours. From accurate information obtained here, today, it can be stated as a fact that the first expedition toward Cuban soil has started, and the outlook is for a successful trip.

Captain Garranza, who left the city ters, an increase of 34,000 quarters for immediately after Downing's arrest, is, according to statements of some members of Senor Polo's staff, to be sent to the Philippines with a relief expedition. Other Spaniards, however, say Garranza went to Madrid with very important papers, and will endeavor to expects to call at Mignelon

Dynamite Laden Hulks Placed in the

New York, May 24 .- A dispatch to the Herald from Key West says that the fertile Spanish brain, which has been adopting all sorts of schemes to entice the blockading squadron within range of the Havana batteries, has adopted a new expedient to destroy warships. The latest device is the sending adrift of hulks made to resemble torpedo-boats after first loading them with dynamite in the hope that American ships would ram them in the darkness. Several of these hulks have been

sent out. One of these deadly machines was It was lying motionless and appeared to be a torpedo-boat. It had two funnels and a gun over each bow. Signaling the tug Leyden "That looks like one," the Hudson steamed down and way to the Philippinies. It is prob- the Leyden went along. The tugs opened fire at 1,000 yards, and one of the shots knocked off a smokestack which proved to be a wooden structure, for it flew into splinters. Satisfied that the boat was a derelict, the tugs
