One 10 and two 12-inch hells struck the San Francisco's stern as she turned to get away out of range, and tore a hole about a foot in diameter, completely wrecking Commodore Howell's quarters and smashing his bookcases into fragments. Presently, however, a Spanish gunboat drew out of the harbor and came close to the Silvia. It was the Martin y Pinzon, and carried a much stronger battery than the American ship. The customary formal salutations were exchanged, and Lieutenant William G. Ford, the executive officer of the Silvia, boarded the Pinzon and delivered the

documents. The ceremony occupied no more time than the physical act involved. The American officer returned to his ship, and the vessels went on their re-

SPAIN IN MOURNING

Public Stunned by the Loss of the

London, Aug. 16 .- The Madrid correspondent of the Daily Mail says: The comments of the press on the protocol are a veritable funeral hymn on the destruction of the Spanish colonial emprie. Some days ago, the desire for peace made the people close their eyes to the price, but now, upon reading the protocol, they realize that the cost is the loss of that empire which Spain had conquered with so much glory, and that Spain now falls to the second rank among nations. The pubfic mind is stunned and there is general

Generl Blanco telegraphs that Havana is greatly agitated by the news of the signing of the protocol, and that much anxiety is manifested to learn the conditions, which have not yet been published. Some uneasiness is felt regarding the effect that the text of the protocol may have on the Spanish volunteers in Havana.

Many newspapers express grief and despair that the men who brought disaster to Spain by lack of foresight, or ganization and ability, should continue to govern the country.

The Madrid Press.

Madrid, Aug. 16.-The El Pais today prints the text of the protocol signed by the United States and Spain with mourning borders, and says: "Spain, without colonies, is reduced

to the role of a third-rate power." El Imparcial says: "Peace will not bring to Spain even the rest she so much needs after three years and a half of war." El Nacional says, bitterly: "If Spain had at least been var

quished only after a furious and heroic

struggle, she could resign herself. Peace with the United States will only be a momentary respite from our misfortunes." El Epoca says: "The peace is the saddest imposed since the treaty of Utrecht," and expressed the doubt if a government

WEEKLY MARKET LETTER.

The cash situation, which is generally the main element in the market, thows little change. The demand in some quarters failed to show as much urgency, but in others it was fully up to previous weeks. The scarcity of cash wheat, the result of farmers refusing to sell freely, is the underlying strength. There were numerous bids of 6@7c over September for No. 2 red, and 3c over for No. 2 hard for export, but sales were slow. No. 2 red brought 72c and No. 2 hard 71 %c free on board. In ordinary years this price would be an attractive one to farmers, but this season it is not. What the outcome will be is a puzzle. Farmers may be able to carry their point and force speculators to pay better prices. A great deal depends upon the magnitude of the export demand. The rally at the last was helped by reports that cash wheat in Kansas City was up 2@4c, and Minnesota 3c on cash wheat. There was also a report about Russia prohibiting exports, but it was denied

The Price Current was rather bullish, and London reported the continent buying cargoes off coast. It is said that practically all the stock of the contract wheat at Chicago will be shipped out before the end of the week. With no stock there and futures at a discount there is not much prospect of bears making large profits by selling on the breaks. The government suggests a spring wheat crop for Minnesota of 79,331,000 bushels; North Dakota, 46,-451,000 bushels; South Dakota, 41,-398,000 bushels, a total for the three states of 167,180,000 bushels.
