Those who attended the sale of animals from Barnum's hippodrome in Bridgeport, the other day, report the following occurrence: A tiger was being offered. The bid ran up to \$4,500. This was made by a man who was a stranger, and to him it was knocked down. Barnum, who had been eying the stranger during the bidding, now went up to him and

"Pardon me for asking the question,

who will take it off your hands."

"I don't want to sell," was the quiet "What on earth are you going to do with such an ugly beast if you

not buying for some one who is showman?" "Well, I'll tell you," said the pur-chaser. "My wife died about three weeks ago. We had lived together for ten years, and-I miss her."

paused to wipe his eyes and steady his voice, and then added-"so Pve bought this tiger." "I understand you," said the great showman in a husky voice.—Danbury

Two Important Discoveries: The discovery of America by Columbus, and Dr. Pierce's Golden Medical Discovery; the one opening up to mankind a new continent, the other a tountain of health, which is andispensable to the full enjoyment of life and its blessings. In response to the above sentiment come the unsolicited attestations of tens of thousands of grateful patients, who have been relieved of chronic ailments through its instrumentality. Those voices are limited to no one locality, but from every city, village, and hamlet, in our broad do main, as well as from other climes, and in the strange atterances of foreign tongues. like the confused murmur of many waters, come unfeigned and hearty commendations. It is, in combination with the Pleasant Purgativa Pellets, the great depurator of the age. Under its benign action cruptions disappear, excessive waste is checked, the nerves are strengthened, and health, long banished from the system, resumes her reign and re-establishes her reseate throne upon the cheek. All who have thoroughly tested its virtues in the diseases for which it is recommended unite in pronouncing it the great Medical Discovery of the age.

SEMINAL WEAKNESS.

The preservation of health and life is dependent upon the proper condition of the procreative functions and any weakness or cause of weakness of the generative organs or their uses is a direct attack upon the general health as well as a sure destruction—if not properly cared—of the organs that are the pride of one sex and the blessing of the other. In Youth is laid the foundation of much of the misery of after years by the indulgence of the most destructive of habits making life a curse and spreading weakness and ruin among markind, for it is a well known fact that the indulgence in solitary vice, even in the slight— SEMINAL WEAKNESS. the indulgence in solitary vice, even in the slightest degree, plants seeds of weakness in the system

He cures without mercury, charges moderate fees, treats his patients in a correct and honorable way, and has references of unquestionable veracity, from men of known respectability and high standing in society. All parties who may consult him by letter or otherwise, will receive the best and gentlest treatment. Among the most subtle and virulent of poisons in the human blood is that arising from Venereat Taint often breaking out, after years of apparent cure, in hideous sores upon various parts of the body.
